

# SIX HEREFORDS ARE RECEIVED

Six of the finest Hereford bulls for their age ever brought into Deschutes county arrived in Bend Friday from the Blockland Bros. herd of La Grande for the First National Bank. Two of the bulls have been delivered to Evans & Kooyman, of Millican and one to Spencer & Son of Millican. The remaining bulls of the herd will be distributed in the county at an

early date. These bulls average between 1400 and 1500 pounds, are 22 months old and were purchased by C. L. Evans, who represented the Bend bank at the recent Blockland sale in La Grande. The bulls are of the Debonair and Beau Donald strain.

## FINISH SURVEY FROM BEND TO HATCHERY

Gravel Will Be Used in Surfacing. Cinders Not Best Adapted for Permanent Construction, Says Stebbins.

With surveys completed, and plans and specifications now being prepared, everything will be ready within a few days to start actual construction work on Deschutes county's first market road, District Highway Engineer Stebbins announced Tuesday. The road is the one from Bend to the Tumalo fish hatchery and computations are now being made on the basis of engineering data secured in the course of the survey just completed.

The new location, Mr. Stebbins explains, follows, in the main, the line of the old road, taking advantage as much as possible of whatever roadbed of a permanent nature is already in existence. Construction work, Mr. Stebbins states, will be grading and graveling. In this, a new departure in county road work is noted, for every effort will be made to avoid the use of cinders in the future, excepting on feeder roads. It has been demonstrated, Mr. Stebbins declares, that cinder surfacing cannot be repaired, and gravel will hereafter be considered as the standard for road construction.

The Central Oregon highway will be next in line after the hatchery road is under way.

Within a few days work will be resumed on the cindering of the south highway, and in 10 days it is expected that the work can be completed to the Allen lane. On the La Pine highway, a new experiment is to be tried in the use of gravel as a covering for the cinders, which elsewhere on the highway constitute the final surface. It is hoped that this may aid in binding the layer of cinders.

## PARENTS INVITED TO ATTEND SCHOOL

Unusual Exhibit of Children's Work Is Prepared by Pupils at Kenwood Building.

In order that they may gain a comprehensive idea of the work being done by their children, a special invitation is extended to parents of pupils in the Kenwood school to be present at the grade building on Friday, Parents' day. Those who attend will have the opportunity of seeing an unusual exhibit of children's handiwork, which is now on display in the school auditorium.

This includes specimens of crocheting done by sixth grade girls; toys and bird houses made by boys of the same grade; maps and drawings based on studies in physiology, reading and art, and specimens of writing from all the grades. Stories, poems, examination and spelling papers are also shown and a variety of work turned out by the tots in the primary grades.

The following named gentlemen bought shares in the Powell Butte Co-operative Association recently: Green Beard, George Whitsett, J. Arthur Milner, James Moffit, George Wells and County Judge N. G. Wallace.

The names of the election board for Powell Butte precinct for the ensuing two years are Herman Allen, C. L. Worrell, Judges, C. M. Charlton, J. L. Gibson, and George Hoobbs, clerk.

Mr. and Mrs. James Lennon have sold their ranch here at Powell Butte, and will move to Redmond this week. They will occupy the house lately vacated by Bert Reynolds and family. We understand the sale price was \$11,000, but have not learned the name of the purchaser.

Mr. and Mrs. George C. Truesdale and little daughters, Dorothy and Catherine, were guests of their daughter and husband, Mr. and Mrs. Rei Powel, in Prineville, Easter Sunday.
