UNNECESSARY

The heavy truck is not the only curse of the highway in this section. There is another, almost as bad in its way, equally the subject of legislation, and much more easily done away with. That is the wasting of irrigation water in the road.

The truck, as a feature of the development of transportation facilities of the present day, is a necessary evil. Some day in the very distant future it is possible that special highways will be built for truck travel, but until that day comes they will use the ordinary highways in common with other vehicles. In the meantime, as a necessary evil—so far as our roads are concerned—we must put up with them, regulate them, tax them possibly, but let them use the roads.

With irrigation water it is different. It also is necessary, but not an evil until it gets in the road, and there it is unnecessary. Irrigation water in the road means simply that someone has let it run there because he was too lazy to keep it out. He is using the road as a waste way, and it is unfair to everyone else who wants to use that same road for the purpose for which it was intended—that is, a highway.

Keep the water out of the roads.

ELECT OVERTURF.

Speaking of the candidacy of H. J. Overturf for the republican nomination for the legislature the Madras Pioneer says that "He, with Mr. Burdick, will carry this end of the district." That, of course, is to be expected and he should also carry Deschutes and Crook counties, but the fact that he should do so must not be taken by those who are interested in seeing Bend represented again in the Oregon legislature as assurance that he will be elected without a vigorous campaign.

There are many reasons why Bend should have a representative in the legislature, not the least of which is the fact that this is the largest and most important town in Central Oregon. That results in the creation of interests of various sorts which are entitled to representation. Our roads, our irrigation projects, our general agricultural and industrial development all require some one on the job in our behalf. "Jim" Overturf is the man who can give us that representation and at the same time deal fairly with other sections of this district.

We do not pretend to know what the political situation is in the race for the two representative nominations. Since there are three candidates in the field it is a race, however, and if the people of this end

of the district want representation they must work for it. Overturf and Burdick should make a good team in the legislature. They can be elected and it is no disparagement of the third candidate to say that we hope they will.

Bend is more especially interested in its own candidate, of course, and it is up to Bend in the few weeks that remain before the primaries to make the necessary effort to elect him, at the same time giving any necessary assistance to his Deschutes county running mate.

CANDIDATE IS RESIDENT.

Editor of The Bulletin: I have been told that the report is being circulated that Mrs. Gertrude Whiteis, candidate for the office of County School Superintendent, is not a resident of Deschutes county, so I am pleading for a little space in your valuable paper to right this wrong that is being done her.

As a matter of fact Mrs. Whiteis owns a farm near Terrebonne, and has been the principle of the Terrebonne schools for three years.

Fifteen Years Ago

(From the columns of The Bulletin, May 5, 1905.)

A three days celebration may be held in Bend extending over the 3rd, 4th, and 5th of July, the occasion for such an observance being a baseball tournament in which all the leading clubs of Crook county will take part.

Engineers have this week staked out the streets and lots of the townsite of Redmond, and the two principal streets are being cleared. The new townsite is located about four miles east of Clime falls.

The election to determine whether this school district shall issue bonds for a new school house, will probably be held on the last day of May. The petition for submission of the question asks authority to issue bonds to the amount of \$3500.

The Bulletin has information indicating that active construction of the Columbia Southern railroad toward Bend will probably be commenced within 30 days. Definite official announcement will probably be made within two weeks.

Sam S. Reynolds has sold his barber shop to Triplett Bros., who will conduct both shops hereafter.

C. B. Allen and wife, of Lava, were in town Sunday and Monday having dental work done.

Ralph Spencer, of Antelope, formerly foreman at The Bulletin office, spent a few days visiting

friends here this week.
M. S. Mayfield and family left this morning for their new ranch above Prineville, where they expect to make their future home.
At the homestead of William P. Downing, on the Tumalo, a new daughter came to live Wednesday.

The Hortons will remain here for a short time, visiting, before continuing on over to Bend, where they are in business, being associated with Mervin Horton.—Burns Times-Herald.

Hats Off to The Dairy Cow

THE Foster Mother of Mankind makes a greater return for the food she consumes than any other farm animal. Dairy farmers in the Deschutes valley are making money. The average cow produces around 175 pounds of butter fat per year. A good dairy cow will produce over 400 pounds of fat per year. When you are in town see us in regard to our importation of bred-for-production dairy cattle.

MILLIONS FOR SPARE MOMENTS

The International Correspondence Schools of Scranton, Pennsylvania, celebrated their twenty-seventh anniversary in October, 1918, with an enrollment of over 2,000,000 students. Thousands of these students have figured in dollars and cents the actual value to them of the spare moments devoted to the study of I.C.S. technical Courses on other subjects ranging from Advertising and Salesmanship to Agriculture and Poultry Husbandry.

\$25.00 an hour has been figured by many of these students to be a conservative estimate to them of the value of the spare moments spent in study of I.C.S. Courses.

Reports on 27,000 typical students show 14,999 now receiving \$1,500 a year or more; 2,461 receiving \$2,500 or more; 413 receiving \$5,000 or more; 29 receiving \$10,000 or more; and 8 with annual incomes of \$25,000 or more.

In the twenty-seven years of its existence the I.C.S. has enrolled six times as many students as Harvard in the two hundred and seventy-eight years since its organization; more than ten times the total enrollment of Yale since its doors swung open in 1791; more than five times the total enrollment of all of the colleges, universities and technical schools in the United States combined.

A letter or a post card will bring complete information regarding the subject in which you are interested.
