The party motored over Saturday, p. m., and early Sunday morning continued on to Eagle creek, where all had a jolly time eating and hiking. They all returned home Sunday evening tired but happy.

Mrs. White is to be congratulated on having received every republican vote cast in her home precinct and also the indorsement of 55 per cent of the democrats.

Terrebonne has a young Dempsey to boast about. Duffy Knorr of this place knocked out his opponent in the second round last night at Prineville. We understand that he has accepted a challenge to fight Kid Taylor, of Bend, in the near future.

How to Destroy a good Disposition.

Bad digestion will ruin the best disposition. If the world looks dark and blue, if you are generally "out of sorts" and feel stuffed up and uncomfortable, just take a Foley Cathartic Tablet. Relieves men headaches, biliousness, bloating, sour stomach, constipation and ills that follow disordered digestion. Sold everywhere.—Adv.

The Milkweed.

The milkweed, a plant that has a much longer name than that, but one which would not be nearly as attractive for us to use, is especially well-known in America. In the autumn when the pods have opened and there is a brisk breeze, the wind carries their seeds far and near. Then the downy seeds are seen flying like tiny airships almost everywhere, in search of a homelike growing place, where they may appear in the spring as tall, slender stalks.

Reasons for Using Stone.

The forest rangers on Mount Rainier have a house on top of the mountains built of stone, whereas under usual conditions it is the custom to construct these buildings of wood. The proximity of the stone and the scarcity of wood and the difficulty of obtaining it from the lower levels is responsible for this departure.

Lead and Steel.

Lead is said to act like steel at ordinary temperatures in liquid air. It will serve as a helical spring, for example. This behavior of soft non-elastic metals is interesting. It shows how very important temperature is. Just as iron is soft and inelastic at a high red color, so lead is dull and soft at ordinary temperatures, for it is well on its way to be melted.

REDEEMED EARLY FAILURE.

Thomas Chambers, the noted missionary and preacher, was the despair of his school teacher. Another famous preacher, Isaac Barrow, was so slow and quiescent that he was counted a disgrace to the school.

PRECIOUS WOOD CAREFULLY PRESERVED.

The rarest of all precious woods is said to be the candelabra, a tree which grows in Ceylon, where it is held in reverent awe. The wood is beautifully mottled in veining when polished, but its almost priceless value is due a good deal to its rarity. At one time the trees were quite plentiful in Ceylon, but only a comparatively few specimens remain, and all these are numbered and jealously guarded by the government.

WORTH WEIGHT IN GOLD, HE ASSERTS

Howard Gains Fourteen Pounds Taking Tanlac and Lays Cane Aside.

"I've gained fourteen pounds in six weeks taking Tanlac and now I'm a well man," said Henry S. Howard, a well known farmer and stock raiser of King Hill, Idaho.

"I had suffered from rheumatism and indigestion for twelve years," he continued, "and could hardly eat a thing because everything went against me and I had no appetite. Every joint in me was swollen with rheumatism and hurt so I could hardly bear to be touched. I was in such a bad fix I couldn't work and had to use a walking stick to get along. The first bottle of Tanlac

made a great change in my feelings, my rheumatism soon left me and I threw my stick aside, for now I can walk as well as anybody.

"And eat! Why, I just can't get enough and I feel like I could do as much work as I ever could. Tanlac is worth its weight in gold, and it has convinced me that there's at least one medicine that will do what they say it will and I want to do my part in letting everybody know about it.

"Tanlac is sold in Bend by Owl Drug Co., in Sisters by George F. Aitken, and in Bend by Horton Drug Co."

Patience the Greatest Elixir.

Life has such hard conditions that every dear and precious gift, every rare virtue, every genial endowment, love, hope, joy, wit, sprightliness, benevolence, must sometimes be put into the crucible to distill the one elixir—patience.—Gail Hamilton.
