# The Wise Man

—the man who uses his head before he uses his pocket-book, the man who studies and understands business conditions, will buy more than one suit during this sale.

Why? Because he knows there has been no drop in the cost of woollens, and wages in the clothing industry have not been reduced. He knows that wholesale prices for fall are high, and that the break in prices has taken place only in the retail store. The retail cost of clothing has dropped temporarily. That's all. But that's enough for the wise man. He's buying clothing here now.
