Farm Tractor Hauls Dobbin in Capital Demonstration

Famous Pennsylvania in Washington, D. C., was treated to a still different sight recently when farm tractor manufacturers went to the national capital for a unique demonstration. That of "Dobbin" had not outlived his usefulness—showing how the gasoline age was making it "pretty easy for him"—was a part of the idea impressed as the little "iron horse" pulled the load up and down the famous thoroughfare.

THEY CAN SAVE YOUR GRAIN FROM SMUT

The Department of Agriculture at its experimental farm at Arlington, Va., wages an unceasing warfare against the deadly grain smut. It is estimated that smut which could be prevented every year destroy enough wheat to make four million barrels of flour. Oats enough to feed one million horses, and barley and rye equal to four hundred thousand barrels. This picture shows experts tabulating results in various soils—the information which all grain growers may have by writing to the Agricultural Department at Washington.

MILLIONS FOR SPARE MOMENTS

The International Correspondence Schools of Scranton, Pennsylvania, celebrated their twenty-seventh anniversary in October, 1924, with an enrollment of over 2,000,000 students. Thousands of these students have figured in dollars and cents, the actual value to spare moments devoted to the study of I.C.S. technical courses and other subjects ranging from Advertising and Salesmanship to Agriculture and Poultry Husbandry.

\$25.00 an hour has been figured by many of these students to be a conservative estimate to them of the value of the spare moments spent in study of I.C.S. courses.

Reports on 27,000 typical students show 14,999 now receiving \$1,000 a year or more; 2,451 receiving \$2,500 or more; 413 receiving \$5,000 or more; 29 receiving \$10,000 or more; and 8 with annual incomes of \$25,000 or more.

In the twenty-seven years of its existence the I.C.S. has enrolled six times as many students as Harvard in the two hundred and seventy-eight years since its organization; more than ten times the total enrollment of Yale since its doors swung open in 1791; more than five times the total enrollment of all of the colleges, universities and technical schools in the United States combined.

A letter or a post card will bring complete information regarding the subject in which you are interested.

COULD NOT WALK UP THE STAIRS

Los Angeles Woman Suffered Six Years From Rheumatism—Soon Relieved by Tanlac.

"I had rheumatism so bad that life was simply miserable for me, but Tanlac has entirely overcome my trouble," said Mrs. Martha Ansbach of 2226 1/2 Duane street, Los Angeles, Cal.

"For the past six years I was in such a wretched condition I can hardly understand how I held out as long as I did," she continued. "I had rheumatic pains in my knees so bad that it was impossible for me to step up or down the stairs, and my hands were so swollen and stiff it was all I could do to hold the broom or dishes. At night I simply ached all over so bad I could not sleep and, in fact I suffered all the time, night and day. I became very nervous and worried so much over my condition that I became very dependent.

"I tried all the medicines I could hear of, but none of them did me any good until I got Tanlac. I was overjoyed to find that it more than met my expectations. All signs of the rheumatism have left me and I am back doing my housework for the first time in several years. My nerves are as steady as they can be, and I sleep all night long and never wake up till morning. I haven't felt so fine in years and it certainly is a pleasure for me to tell everybody about Tanlac."

Tanlac is sold in Bend by the Owl Drug Co., in Sisters by George F. Atken, and in Bend by the Horton Drug Co.

J. A. SMITH BUYS TEN-BAR RANCH

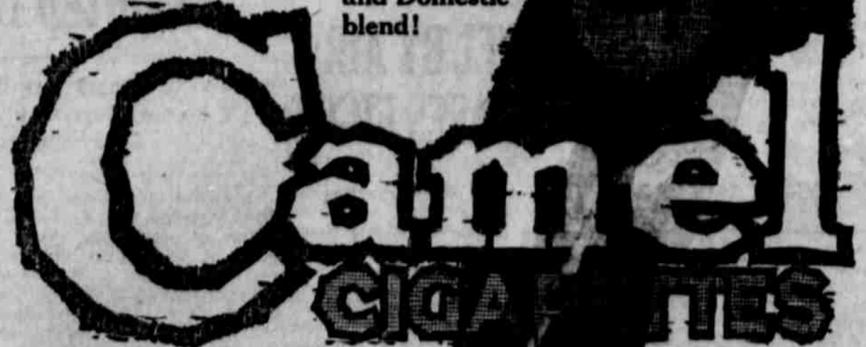

One of the big deals of the year in farm property was announced this morning in the purchase by J. A. Smith from J. M. Hayes of the Ten-bar ranch, 10 miles east of Bend, at a consideration of approximately \$27,000. Mr. Hayes, who has owned the property for the last three years, will move to Post, where he has a 1000-acre dry land ranch.

The Ten-bar ranch includes 640 acres, for which there is a 415-acre water right. Two hundred acres is already in alfalfa and it is Mr. Smith's intention to put the rest of his acreage into the same forage crop as early as possible. He will make a specialty of pure-bred stock and will bring pedigreed horses, cattle, sheep and swine from his Blalock ranch for the new place. The Ten-bar property has already \$10,000 worth of improvements, so that little or no outlay will be involved in putting the place in shape.

The Millean ranch, which Mr. Smith has owned for some time, will be used chiefly for range.

Saving Money on \$8.50 a Week

No matter how small your income, it is possible to save a regular, definite sum. The first dollar out of the weekly pay envelope is the easiest one to save. If you can't save that dollar you can't save any dollar.

The owner of a chain of retail stores reaching from coast to coast started on a salary of \$8.50 a week. He demonstrated that he was destined for success by saving a definite part of that \$8.50 each and every week.

You can do the same; you can save if you make the same decision he did.

Make pay day your banking day.
