

SUPPLY OF GAS PROVIDED FOR

ADVANCE IN PRICES MADE NECESSARY BY PURCHASES FROM REFINERIES IN WYOMING AND UTAH, SAYS SPECK.

The Standard Oil company has been assured by Utah and Wyoming refineries supplying it that from now on sufficient gasoline and kerosene to meet the full demand will be provided, contingent on uninterrupted transportation conditions and an adequate supply of tank cars. W. R. Speck, local manager, declared today.

As to the advance of 4 cents a gallon on gasoline, bringing the dealers' price on motor fuel to 37 cents, and a 5 1/2-cent boost on kerosene, Mr. Speck declared that it is primarily due to shortage in California. "The Portland field for gasoline and kerosene is normally supplied from California, but the acute shortage in that state has made it impossible to supply from that point," he said. "Consequently, Standard Oil stations east of the Cascades are now being supplied with gasoline and kerosene purchased by the company from refineries in Wyoming and Utah, and the new prices in effect are based on the higher cost of the products."

As far as Mr. Speck knows, the advance in quotations will be permanent, he said.

CATS WAR AGAINST PEST OF RABBITS

Many Felines Find Constant Employment as Rabbit Hunters on Johnson Ranch in Tumalo Section.

If it weren't for the cats on the Aaron Johnson ranch in the Tumalo section, rabbits would make it impossible to work the place with any profit, is the declaration of Mrs. Johnson, while visiting in the city recently. Tabby and Tom may be hard on bird life, but they are even more rough in their treatment of the blacktails, and it is no uncommon sight to see a cat dragging in the body of a big jack rabbit nearly twice his size, Mrs. Johnson says. Between 20 and 30 felines find constant employment as rabbit hunters on the Johnson ranch.

NEW REAL ESTATE COMPANY FORMED

Eastern Cascade Land Co. Incorporated by Harry Gant and Mr. and Mrs. J. A. Eastes.

J. A. Eastes last week made announcement of the organization of a new realty company in Bend, incorporation papers for which are now being drawn, to be under the management of Harry Gant of this city. Mr. Gant and Mr. and Mrs. Eastes are the incorporators, the value of capital stock being set at \$5000. The Eastern Cascade Land company is the name chosen for the new company, which will have its offices in the same suite on Oregon now occupied by Mr. Eastes. In furthering the incorporation, Mr. Eastes is turning over his numerous real estate agencies to the new company, which will in addition handle an independent buying and selling business. Mr. Eastes retains under his own personal management and control his insurance and loan business.

FIRE MARSHAL HERE TO COMPLETE PROBE

H. H. Pomeroy Will Also Take Up Matter of Use of Central Building with District School Board

To complete the investigation of the disastrous Bond street fire earlier in the month, H. H. Pomeroy, chief deputy state fire marshal, arrived in Bend on Monday and will be here through Tuesday. During his stay in Bend, he will look into the matter of the possible use of the old Central school building tentatively proposed by the directors of District No. 1.

Had Many Sleeping Places.

The average man probably sleeps in 100 beds or so during a long lifetime. A veteran commercial traveler whose home is in New York, can afford to smile at this record, for, he says, "I calculate that I have slept in at least 8,000 beds during my forty-odd years on the road, and I have slept well in them all."

FARM STOCK

SHEEP SCABIES ERADICATED

More Than Ten Million Dippings Made by Employees of the Department of Agriculture.

In the work of eradicating sheep scabies from the United States employees of the United States department of agriculture made more than 22 million inspections and supervised more than ten million dippings during the last fiscal year. The work was conducted in co-operation with state officials. No cases of sheep scabies are now known to exist in Montana or North Dakota, in addition to numerous other states where the disease had previously been eradicated. In Idaho a spread of the insect

fection during the previous year has been brought under control. Sheep scabies is a disease that has been prevalent chiefly in the western part of the United States.

KEEPING CATTLE AND SWINE

It Remains to Be Determined What Are Most Common and Best-Paying Propositions.

The keeping of cattle and of swine appear to be almost inseparable operations. This fact is being brought out in the returns of the "Better Sires—Better Stock" crusade of the agricultural colleges, the United States department of agriculture and co-operating agencies. This general practice has long been known, but much more definite information is being gathered, and the purpose is to extend it to such an extent as to determine the relationships among all meat animals.

If nearly every man who keeps cattle also keeps hogs, and if nearly every man who keeps hogs also keeps cattle, the inevitable conclusion is that the combination pays, especially when purebred sires are used. But it remains to be determined what are the most common and the best-paying propositions. The same thing applies also to combinations of cattle and sheep, or swine and sheep, or cattle and sheep and swine. One benefit of the work will be that it will enable the man of small personal experience to avail himself of the wide experience of a great number of men in working out the combinations of meat animals that he will carry on his farm.

ECONOMICAL FEED FOR BEEF

As Silage Becomes Better Known Feeders Will Better Appreciate Its Feeding Value.

There is no doubt but that silage is an economical feed in the beef-cattle ration and as its value becomes better known feeders will better appreciate its merits. In spite of the fact that it is an unbalanced feed itself, it can be fed with one of the highly concentrated feeds, such as oil meal or cottonseed meal, and makes a ration which is surely hard to beat in fattening cattle.

CARE OF EWE IS IMPORTANT

Machine Through Which Lamb Will Obtain Qualities to Enable It to Top Market.

What is done for the lamb is not so important as the care and liberal feeding of the ewe. The ewe must be regarded as the machine through which the lamb will obtain the qualities that will enable it to top the markets.

LIVE STOCK NOTES

It is very essential that ewes should be properly fed.

A self-feeder can be used to excellent advantage for fattening hogs and pigs.

Better live stock aids the breeder both in direct returns and by giving a locality a favorable reputation.

In the cold months many farmers fail to give the stock enough salt. Salt is a vital part of each animal's ration.

COUNTY COURT PROCEEDINGS

Be It Remembered, That a regular term of the County Court of Deschutes County, in the state of Oregon, was begun and held at the Court House in Bend, in said county, on Wednesday, the 7th day of January, 1920, said day being the day fixed by law for the holding of a term of the County Court in said county, when were present: Hon. Mrs. Max Cuning, of Redmond, Oregon, to hold office for four years from January 1, 1924.

Dated at Bend, Deschutes County, Oregon, this 7th day of January, 1920.

Be It Remembered, That we, C. H. Miller and Seth Stookey, County Commissioners, of Deschutes County, Oregon, exercising the authority vested in us by Chapter 357 of the General Laws of Oregon, for the year 1919, hereby confirm the appointment of the above named persons as constituting the Public Library Board of The Public Library of Deschutes County, Oregon, for the terms of office specified after their respective names.

Dated at Bend, Deschutes County, Oregon, this 7th day of January, 1920.

C. H. MILLER, County Commissioner.
SETH STOOKEY, County Commissioner.

In the matter of the Official County Paper—Ordered that the Bend Bulletin, a weekly newspaper printed and published in Bend, and duly qualified therefor, be and the same is hereby designated the official newspaper for the County, at the rates prescribed by law.

In the Matter of the Petition of S. R. Hugin, et al., for Road—Ordered that said petition be and the same is hereby denied for the reason that the proposed road is not a public necessity.

Court was then adjourned to January 8th, 1920.

Court was re-convened January 8th, 1920, all members being present.

In the County Court of the State of Oregon for the County of Deschutes:

In the Matter of establishing a Public Library in Deschutes County: Order:

Be It Remembered, That a regular term of the County Court of Deschutes County, Oregon, sitting for the transaction of County business, begun and held at the Court House in the City of Bend, Deschutes County, Oregon, on Wednesday, the 7th day of January, 1920, and from day to day thereafter during the continuance of said term, the following persons being present: Hon. W. D. Barnes, County Judge; Hon. C. H. Miller, County Commissioner; Hon. Seth Stookey, County Commissioner; J. H. Haner, County Clerk.

Among other business transacted, the following resolution was and is hereby made and unanimously adopted:

Whereas, A Resolution was made and entered by this Court on the 7th day of January, 1920, establishing a public library in Deschutes County, Oregon, and this Court has hereto levied a county tax of one-half a mill in support thereof, and Whereas, The City of Bend, Oregon, has passed an ordinance providing for a tax of one-half a mill on all taxable property within the city limits of Bend for the support of said County Library, and has by ordinance transferred over to Deschutes County, all books, fixtures, and property heretofore the property of the Public Library maintained, located in or owned by the City of Bend, as and to be the property of the Public Library of Deschutes County, Oregon, now, therefore, it is hereby

Considered, Ordered and Adjudged, That in consideration of the City of Bend, Oregon, having transferred and turned over to Deschutes County, all books, fixtures, and property heretofore the property of the Public Library maintained, located in or owned by the City of Bend and the provisions of the City of Bend by its said ordinance providing for a tax of one-half a mill on all taxable property within the City limits of Bend, in addition to the County Tax for the support of such County Library, the County Court of Deschutes County, Oregon, does hereby resolve and it is hereby ordered, that so long as the said City of Bend, Oregon, raises a tax each year of one-half a mill on all taxable property within the City limits of Bend for the support of said Public Library of Deschutes County, Oregon, a County Tax shall be levied and collected each year of one-half of a mill on all taxable property within Deschutes County, Oregon, unless restricted by law to a less amount for the support of the said Public Library of Deschutes County, Oregon.

Dated at Bend, Deschutes County, Oregon, this 8th day of January, 1920, said day being the second day of the regular term of said County Court, begun and held in Deschutes County, Oregon, as mentioned above, and a day to which the meeting of said Court was duly and regularly adjourned.

W. D. BARNES, County Judge.
C. H. MILLER, County Commissioner.
SETH STOOKEY, County Commissioner.

Many Reasons for Insomnia.

Whenever sleep becomes coy and must be wooed it is a sign that something has gone amiss and must be remedied. To obtain sleep then becomes a search for a complex mental, emotional or physical thorn in the side. Loss of sleep may be due to some physical thorn such as an overburdened intestine or stomach, an abscessed tooth root, thickened tonsil, a skin irritated or cold, or an infection in some hidden, walled-off area of the anatomy. Equally as often some unconscious memory of financial reverses or difficulties, domestic complications or some other work banishes sleep.

"Mapping" the Air.

The greatest discovery yet made in exploring the air is that the atmosphere consists of two layers, the lower extending from sea level up to 10,000 meters, in which there is a steady fall of temperature with elevation. This is called the troposphere. Above this there is no fall, and up to 20,000 meters a slight rise. The upper layer is known as the stratosphere. It is actually possible today for an airplane to rise from the ground to the bottom of the stratosphere, say about six miles, in one hour. If we want to explore somewhat higher, say 20 miles, we install light instruments on a sounding balloon.

Still Hope.

Betty was talking with her mother about her little brother, and her mother said: "Betty, isn't it funny, Stuart and daddy have blue eyes, while you and I have green eyes?" Betty, thinking deeply, finally said: "Never mind, mother, ours will get ripe some time."
