

SCHOOL BOARD PROVIDES FOR AUTUMN TERM

CENTRAL BUILDING TO BE MOVED

MORE ROOMS ORDERED

Five Portable Bungalow Schools To Be Erected Before School Starts—Recommendation For Principal Turned Down.

Before the opening of the fall term of school, Bend's former high school building, the frame structure, proposed continued use of which has aroused determined opposition recently, will be a thing of the past. Either it will be wrecked and the lumber removed or the entire building will be rolled away. The school board, which met in adjourned session, does not care which course is taken, just so the successful bidder for the Central building has it moved away within 15 days from Saturday, when the bids are to be opened. Opposition to the use of the building as a school, which involved the threat of an injunction, was based on the contention that the structure was a firetrap and unsafe.

Taking the place of the condemned building, the board will erect five bungalow one-room portable buildings, to be grouped about the high school site. In addition, the one-room frame building remaining on the West Side will be moved to the same general location, and the office of Superintendent S. W. Moore in the high school building will be remodeled for class room purposes. The entire building program will involve an expenditure of approximately \$7500 and was adopted on the suggestion of the superintendent. The portable buildings, which may later be moved to different sections of the city as the need arises, must be completed before the opening of school on September 7, and the clerk was ordered to advertise for bids.

Principalship Still Open.
In addition to the buildings authorized, it may be necessary to locate two more in the vicinity of the Reid school, but this will not be undertaken until the actual need is demonstrated when school opens. The board took no action regarding the locating of permanent school structures in outlying districts, agreeing with L. M. Posa of the building committee, who declared in his report that it would be unwise to act along this line until it can be ascertained in which direction the city is most likely to grow.

The question of securing a principal for the high school was put up to the superintendent when the report given by Mrs. E. M. Thompson for the teaching committee, rejecting Superintendent Moore's recommendation for the election of Merle Moore, manual training instructor, was unanimously accepted.

Americanization Emphasized
Whether or not the teacher training course should be carried this year for the class of three desiring to take it was referred to the teaching committee, as was Chairman Nordeen's question as to what becomes of domestic science class products.

Bids for the installation of additional toilet and shower facilities at the high school were opened and the contract awarded to Frank Southernland and Finagan Bros., at a total cost of \$5387.

Discussion of the need of a chute type fire escape for the Reid building resulted in the clerk being instructed to secure figures, immediately on the cost of such an addition to the school's safety first equipment.

Superintendent Moore, in his report on the N. E. A. convention at Salt Lake City, stated that Americanism was the keynote, and that it was especially emphasized that there is no shortage of high class teachers, but that a serious shortage is produced by insufficient salaries.

Double Affection.
Elsie was proud and much excited over a pair of new shoes and while calling on a friend could think and talk of nothing else. To get her interested in something else, the woman at whose home she was visiting tried to take her up to an elephant made of teakwood, about a foot high, looking rather real. Baby was much afraid at first, but went nearer trembling as she went along. Finally she put her little hand on his head and, finding him harmless, put both arms around him and cried out in astonishment and joy: "He loves me—he loves my shoes!"

SHEVLIN-HIXON PICNIC PROVES GRAND SUCCESS

(Continued from Page 1.)

lin-Hixon band's equipment. **Band Shows Class.**
Under the direction of Director Graham the company band was out in full numbers and provided music at various times throughout the day, showing remarkable advancement in the few months the organization has been working together.

The committees in charge of yesterday's picnic were:
Officer of the day—Orrie Myers.
Policemen—Bill Sullivan, Otis Moore, Willard Houston, E. J. Lilly, D. R. Mote, Frank Kelliher, Dick Smith, Mrs. Charles Haines, Mrs. George Addink, Mrs. Frank Kelliher and Mrs. Jack Barron.

Locomotive power—George Green. Train Dispatcher—Matt Jones. Engineer—John Bolsted. Fireman—Nary Kittleson.

Safety first committee—Abe Evans, Hogan Hadley, Matt Jones, George Addink, Bill Sullivan, Otis Moore, Willard Houston, Orrie Myers and E. J. Lilly.

Kangaroo court—A. M. Pringle, presiding.
Sports—E. A. Harvey, Vic Agren, Earl Wright, J. F. Mogan, John Molitor.

Judge of contests—T. A. McCann. Electrician—W. B. Cone. Scorer—Earl J. Wright. Refreshments—Walter Bradbury, E. North and D. J. Ordway.

Sport Program Pleases.
Those who were fined before the kangaroo court are: W. L. O'Donnell, E. H. Dea, T. A. McCann, M. P. Cashman, Hugh O'Kane, Robert Littlefield, E. A. Harvey, John Coleman, J. H. Meister, Frank Kelliher, Herbert Fraley, R. D. Miles, Harry Harmon, George Brodwell, Carl A. Johnson, James Ryan, O. C. Lemke and J. L. Van Huffel.

The winners, in order of placing, follow:

Ladies' 50-yard dash—Vivian Rasmussen, Babe Winter.

Men's 100-yard dash—Ralph Hope, A. H. Winter.

Ladies' needle contest—F. Short, C. A. Zierlin.

Pat men's race—T. A. McCann, A. O. Meyer.

Ladies' shoe race (25 yards)—Bessie Miller, Evelyn Gotbreht, Marie Krause.

Men's sack race—Ralph Hope, Warren Birdsall.

Men's three-legged race—Ralph Hope and A. H. Winter, Ervin McNeal and Irwin Wienecke.

Tug of war (Woods vs. Mill)—Woods.

Ladies' and gentlemen's team race—A. H. Winter and Babe Winter, Mike Mahoney and Vivian Rasmussen.

Girls' 100-yard dash (under 14 years)—Helen Summer, Stella Claypool.

Boy's 100-yard dash (under 14 years)—Wallace Brown, William Kribs.

Slim men's race (100 yards)—Ralph Hope, A. H. Winter.

Potato race, free for all—Ervin McNeal, Claude Frisbey.

Pie eating contest—Clifford Rasmussen and Glen Shell, Bruce Shell and William Kribs.

Egg race—A. H. Winter, Duncan McKay.

Greased pig battle—Percy Cook.

Lifting contest (90 pounds)—Matt Boxich and Willard Houston, tie.

Tug of war (six picked men, Woods vs. Mill)—Woods.

PHONOGRAPH OWNER PICKED IN DRAWING

501 Is Preferred Number, But the Holder Must Report By Noon Saturday to Qualify.

Drawings of numbers to pick the winner in the phonograph contest held here during the carnival of last week has been completed and 501 found to be that of the winner. The others, in the order of drawing, are 911, 1390, 1206, 483, 978, 1011, 480, 1363 and 759. The winner must turn in his number to the committee in charge of the contest at The bulletin office by noon Saturday in order to qualify for the award. If the holder of the first number does not appear by that time, the second advances to first place, and if the second does not report, the third is in line, and so on.

No Chances at All for Joy.

Junior had spent several weeks one summer visiting a favorite aunt who lived in the suburbs, and he was reminiscent of those happy weeks when he again paid her a visit. However, she had moved, and now lives in a flat. When Junior came home he voiced his grievance to his father, saying: "There wasn't no room to move around in; why they didn't even have any kids in that building to fight with!"

PARNELL CASE TO BE PROBED BY GRAND JURY

DEFENDANT RELEASED ON \$500 BONDS

KNIFE IS RECOGNIZED

Mrs. J. J. Gardner Testifies Weapon With Which Parnell Slashed Her Clothes Was Her Gift to Him Several Years Ago.

Preliminary hearing held yesterday in justice court in the case of Xerxes Parnell, charged with attacking Mrs. J. J. Gardner of Bend with a large clasp knife, resulted in Parnell's being bound over to the grand jury by Judge J. A. Eastes. He was released under \$500 bonds. A second charge, under which the carrying of concealed weapons is alleged, was scheduled to be heard this afternoon.

In yesterday's examination of witnesses, Mrs. Gardner testified that Parnell had called at her home Monday morning, had induced her to come outside after threatening to blow her husband's brains out, and had then seized her and slashed the night robe and coat she was wearing. The knife had not reached her person. She stated that she recognized the knife as one she had given to the defendant several years ago, and offered as her explanation of the affair that Parnell was jealous of her.

Gardner's testimony was largely corroborative of that given by his wife, relative to the events which are alleged to have occurred before Mrs. Gardner and Parnell left the house.

Deputy Sheriff August Anderson told of arresting Parnell on Monday afternoon, and of finding the clasp knife in his possession, as well as the derringer with which Mrs. Gardner testified he had threatened to shoot her husband.

DEATH COMES AFTER ILLNESS OF MONTHS

Funeral Services Held Today For R. L. Thurston, Prominent Deschutes Rancher, Who Died Saturday.

The death of R. L. Thurston occurred at 1 o'clock Saturday morning at his home near Deschutes, following an illness of several months. He had spent the winter in San Pedro, Cal., in hopes of benefiting his health, returning to Central Oregon only a relatively short time ago.

Mr. Thurston came to Deschutes from Miami, Ariz., in 1913, and has since become a prominent rancher in that section, having acquired an alfalfa farm on the C. O. I. project. He was at one time clerk of the Deschutes school board.

Besides his wife and son, Lyle, he leaves his mother, brother and sister, all of Longmont, Col. The brother was here only a few weeks ago. Mrs. Charles Carroll and L. F. Scott of Miami, Ariz., brother of Mrs. Thurston, were here to attend the funeral services, which were held this afternoon at the Niswonger undertaking parlors.

The funeral sermon was pronounced by Rev. H. C. Hartranft, pastor of the Presbyterian church of Bend.

DISLOCATES KNEE THEN TREATS HURT

Dr. E. R. Norris of Bend sustained a dislocated knee Sunday while fishing on the Metolius, when he slipped from the log on which he was standing, his right foot catching between two logs as he fell and wrenching the joint. Although tortured by the severe pain, Dr. Norris gained a seat on one of the fallen trees and, almost on the point of fainting, jerked the leg back into place.

With the injured leg packed in pillows and blankets, he arrived in Bend this afternoon, accompanied by his wife and Earl Millhorn, who had been with him on the camping trip. Neither of the two could drive, and the car was piloted by Miss Isabel Emmett of Bend, who was with her parents at an adjoining camp at the time of the accident.

SMALL FIRE NEAR PAULINA CREEK

The forest office announces that a small fire was reported Tuesday in the neighborhood of Paulina creek. No other word has been received.

HOW OFTEN TO FEED FLOCK?

Much Depends on Whether They Are Confined or on Free Range—Good Plan Outlined.

Just how frequently chickens should be fed depends on whether they are confined or on the range. Some poultrymen feed their flocks twice a day, while others feed them three times a day. The best plan is to feed fowls in confinement three times a day and

Plan to Keep Fowls Busy When Confined.

those having free range in summer twice a day. When there is a very long interval between feeds it is difficult to keep fowls busy which are kept in confinement. Idle fowls often contract bad habits, such as feather pulling and egg eating, besides going out of condition from lack of exercise.

In case it is not convenient to feed three times a day, the moistened mash may be fed in the morning, and at the same time the noon feed of grain will keep the fowls busy a great part of the day.

For those who cannot conveniently feed their fowls early in the morning a good plan is to scatter grain plentifully in the litter after the birds have gone to roost. This grain will furnish feed for the early morning, say poultry specialists in the United States department of agriculture.

Some poultry keepers can look after their fowls only once a day. If this is in the morning, moistened mash may be fed, followed by throwing grain in the litter to furnish feed for the remainder of the day. If it is in the evening, before dark, a moistened mash may be given, and either after the fowls go to roost or in the morning, before daylight, grain may be scattered in the litter for eating during the day.

Put it in The Bulletin.

PLANS FOR BROODING DUCKS

Mother Duck or Hen is Quite Satisfactory Where Small Numbers Are Being Reared.

Those rearing ducklings in small numbers usually accept the services of the mother duck or mother hen, according to which is used to do the hatching, for the purpose of brooding, and when only a few are reared this is a satisfactory method. Where ducks are raised in large numbers, however, artificial methods are always employed and the brooding is done by individual brooders or by long, hot-water pipe systems heated by coal-burning boilers.

PROVIDE FOWLS PURE WATER

No Excuse for Permitting Them to Drink Impurities From Puddles—Cause of Diseases.

Fowls are not very discriminating in regard to water, and appear to enjoy drinking from puddles of foul water just as much as from pure and wholesome sources. That is no excuse for permitting them to do so, however, and the impurities in such water often cause serious losses. Either drain the stagnant pools or

Hatch the chicks early.

Provide plenty of shade.

Many people feed baby chicks too much.

Keep the house clean and well ventilated.

Raise young chicks on clean ground away from the general flock. Cull the flock.

A good feed for little chicks is ordinary Johnnycake baked hard, crumbled and fed dry.

If milk is available, chicks should have all they can consume from the time of the first feeding until mature.

Where there is a tendency to boycott the perch and occupy the lower regions, the young birds should be taught to roost.

The owner of a small flock of ducks will find it profitable to force the growth of his ducklings for placing on the market at the age of two months.

NORTH UNIT WATER GRAB IS OPPOSED

(Continued from page 1.)

H. H. De Armond stated that water taken to the North Unit would travel from 40 to 60 miles, and that with a water duty of two acre feet, practically the entire storage capacity of the Bonham Falls reservoir, minus seepage loss, would be used on the one unit. The Tumalo project is short of water at the present time, he said. "Water should not be taken to the North Unit to the exclusion of the other units in the Deschutes valley," he maintained.

CLASSIFIED ADVERTISEMENTS

Classified advertising charge per issue 20 cents for 20 words or less. One cent per word for all over 20. All classified advertising strictly cash in advance.

FOR SALE.

FOR SALE—19 Barred Rock hens and one Barred Rock cockerel, \$1.50 each. W. N. Ray, Tumalo, Ore. 54-22p

FOR SALE OR TRADE—40 acres, 30 acres water; 10 in cultivation, 15 acres trees pulled; 4-room box house; 7 miles from Bend; fenced. Inquire 118 Minnesota ave. 43-20-23c

EGGS FOR HATCHING—S. C. White Leghorns. Heavy winged layers, mated to Tanager cocks, of 230-250 egg strain. \$1.50 per 15. S. C. R. I. Reds, mated to high class cockerels from prize winning stock \$2 for 15. One third cash with order, balance on delivery.—Hofstetter's Poultry Farm, Tumalo. 97-51fc

WANTED.

ANYONE, looking for help, inquire of Miss Markel of the Bend Commercial club, at the city rest room. 31-17fc

ANYONE, looking for employment on farms, see Miss Markel of the Bend Commercial club, at the city rest room. 32-17fc

LOST

LOST—Chestnut sorrel mare, weight about nine hundred, has bell on with double strap, branded on left shoulder with very dim E B wrench brand. Notify James Whitlock, Shevlin-Hixon Camp 2, or Antone August at Aune's barn, Bend. 70-21-22p

Goodyear Tires Really Cost Less

IN OUR business, giving the customer his money's worth is largely a matter of selecting the right merchandise to sell.

That is why we sell Goodyear Tires, Tubes and Tire Saver Accessories.

In the end, it costs you less to buy a fine product in our modern, perfectly-equipped shop than to buy unknown goods from so-called "bargain houses." Our Service After Sale is best for you, and because it is best for you, it is best for us. We run our business on that basis.

Our special line of Clincher tires in sizes 30x3, 30x3 1/2 and 31x4 will interest you owners of small cars.
