

TIMBER IS TO BE DEVELOPED

PITTSBURGH FIRM TO DEVELOP HOLDINGS NEAR LAKEVIEW; MILL TO BE BUILT; ROAD FOUND NECESSARY.

Following the recent report that officials of the Western Pacific were investigating conditions in the vicinity of Lakeview, a news article in respect to timber development in Lake county is of especial interest. The article is from a recent issue of the Lakeview Examiner and is as follows:

"J. A. Cheyne, president of the Pittsburg Sash & Door company of Pittsburg, Pa., arrived in Lakeview a few days since and has already closed a deal for the Jones & Lane timber holdings on Cottonwood creek and is negotiating for several other claims in that vicinity. In addition Mr. Cheyne is desirous of purchasing the national forest timber on the watershed between Cottonwood and Methman creeks, which, it is estimated, will cruise in the neighborhood of 75,000,000 feet.

"A sawmill site has been leased on the Jones & Lane land, and it is reported that a large mill will at once be built and that it is expected to have it in operation within a year. The lumber will be hauled to Lakeview and shipped to Reno, where it will be manufactured into sash and doors. It is reported that this arrangement will be only temporary, however, pending the building of a standard gauge road in this section, when the factory will be located at Lakeview. The Pittsburg company is one of the largest concerns of its kind in the United States, and the fact that it has invested in this section means much for Lake county.

"It is understood that another large financial concern is investing heavily in the Camp creek timber belt, and that announcement of its plans will be made in the near future.

"The establishment of mills in this section means that a standard gauge railroad will necessarily have to be built to handle the output, and the recent visit of President Levy of the Western Pacific no doubt had a direct bearing upon that subject. It is also reported that the Southern Pacific has an eye on the business, and President Sprone and a party of high officials were recently at Susanville looking over the possible extension of the Fernley branch. Should that road be extended, it would probably come up the west side of the lake to reach the timber belt. The Weyerhaeuser people have large holdings in that section of the county and, taken altogether, a vast tonnage could be furnished a railroad for many years to come.

"It should be understood that no definite announcement has been made by the interested parties, but the sources from which the foregoing has been obtained are considered reliable."

AUTO LICENSE MIX-UP DISCOVERED BY NIXON

That Bend Police Department Is On Job Discovered By Pendleton Banker—Error Made in Salem.

That Bend may be a small town but its police officers are on the job will be testified to by C. J. McCook, of Pendleton, after his experience here Tuesday. Mr. McCook, who is a vice president of the First National Bank of Pendleton, arrived in Bend driving a Hudson Six which carried a license issued, according to the automobile license registry, for a Buick. Chief Nixon discovered the fact and called for an explanation. Mr. McCook said that there had been an error in the secretary of state's office and his statement was confirmed by a wire from Salem. While waiting for its arrival the Pendleton banker said he had been in 100 towns in the state with his car but never before had the mix-up in the license been discovered.

ARNOLD RANCHERS FIND DITCH GOOD

Ten ranchers on the Arnold irrigation project went to the head-gates on the Deschutes to do repair work Saturday, as some of the ranches on the lower part of the ditch were not getting enough water. They found, however, that the gates were in good condition and the ditch carrying enough water for the project.

SWIMMING CLUB MEET SUCCESS

FIRST MEETING OF NEWLY FORMED AQUATIC ORGANIZATION REVEALS PEP OF THE YOUTHFUL WATER ATHLETES

Twenty-four enthusiastic members took part in the first meeting of the Y. M. C. A. swimming club Saturday evening at 7:30 o'clock. In the twenty yard free style handicap race the heats were won by Dwight Cottingham, Warren C. Birdsall and Loman Todd. The final was won by Cottingham, with Todd second and Birdsall third. The diving competition was won by John Logan, with Warren Birdsall second and Earl Davidson third. The members were then instructed in racing turns, shallow diving and general swimming.

The program for next Saturday night will include a forty-yard handicap, duck diving and general swimming. Membership is still open, and all swimmers and would-be swimmers are invited to get in the swim. Make it snappy as the number will be limited.

Ray Trickey, brother of Secretary L. W. Trickey, who is an expert swimmer, is acting as instructor for the present. Swimmer's badges and beginner's badges are to be awarded to those qualifying for them in a tryout August 28. For the swimmer's badge the applicant must swim 60 yards any style, 20 yards back stroke, and qualify in diving. For the beginner's badge, the applicant must swim 20 yards and qualify in diving. The members are urged to practice hard for these events between now and the date of the examination.

TO MERGE RIGHTS ON SQUAW CREEK

Various Ditch Companies Will Combine For Better Results at Sisters.

Harvey De Armond returned this morning from Sisters, where he attended a meeting of farmers who are planning a consolidation of the several irrigation projects in that district. Various disputes have arisen during the past year between the various projects using water from Squaw creek, and the use of the water has had to be adjudicated, with the result that all of the companies have been handicapped.

As a result of a visit from State Engineer Copper, the various interests have come together to combine into what will be known as the Squaw Creek Irrigation project, comprising some 14,000 acres.

The petition for forming this company has not yet been filed, but the agreement is practically assured. It is believed that this plan will bring the various factions into better harmony. The projects to be united include one irrigation district, three ditch companies and several priority rights.

ELKS PLEASED WITH LAST NIGHT'S MIX

The Bend Elks, as well as the visitors from Prineville and Redmond, are still shouting praises of the committee which had charge of the bas-

ket social, which, they say, was one of the most enjoyable social affairs ever put on by the lodge here. Everybody got into the spirit of the thing and mixed, with the result that the Elks of Bend are better acquainted than they have been in the past.

Quigley, the Harry Lander of Bend, was on hand with one of his pleasing sketches, and Wilson George brought his usual flow of vocal and instrumental jazz with him. In the neighborhood of \$250 was raised by the sale of the baskets, to be used in purchasing lodge emblems for two lady secretaries of the grand lodge, who have been f assistants of the Bend Elks. The social resolved itself into a dinner dance, during which everybody got well acquainted.

SMOKER PROMISES TO BE BEST HERE

Woods and Martin Both Working In Good Shape; Opening Events Fast.

The smoker to be held in the gymnasium next Wednesday evening, August 11, promises to be the best staged in Bend so far this season, according to Matchmaker E. C. Brick. Woods and Martin have met before, on which occasion Martin won on a foul. Speck promises that it will not happen again. Martin, who will reach Bend tomorrow, has recently won five out of six bouts and is going good. He boxed a draw with Johnny Noy, who has defeated Lee Morrissey. Judging from the record of the Portland scrapper, Woods will have his hands full next Wednesday night. Brick states that if Woods defeats Martin he will match him with Muff Bronson Labor day.

Frankie Crites, who meets Duffy Noir of Terrebonne, is a comer in the 125-pound class, and will give Noir the battle of his young life, says the enthusiastic manager. The curtain raiser will be the best ever put on in Bend. Swaggert, the overspan boy, is hard to beat, but Steve Bratis, a new man in Bend, also looks good. The card, as a whole, is all that local fans could wish.

SHEVLIN-HIXON HEAD ENDS VISIT IN BEND

E. H. Dea, general superintendent of the Shevlin-Hixon Company, who has been spending a week inspecting the local plant, left Tuesday on his return to the general office at Min-

neapolis. Mr. Dea was here chiefly to see how the new paving was progressing, and generally checking up on conditions.

Do Your Tires Give You the Service You Deserve?

A WELL-BUILT tire properly cared for serves up to the last mile of its usefulness—all parts wear out at the same time, without waste.

The tire that is neglected or abused will not perform so satisfactorily.

The neglect or abuse of tires will surely bring about their premature failure and destruction.

We keep you out of trouble, instead of the unsatisfactory and costly practice of getting you out after you are in difficulty.

This unquestionably assures you: MORE MILEAGE, MORE COMFORT, and MORE SECURITY.

Our SERVICE is free to you. It will actually save you money. In combination with the high quality of Goodyear Tires, it affords you the surest means of tire satisfaction.
