MANY ATTEND MOOSE PICNIC

GAMES, REFRESHMENTS AND SHADE HAVE PART IN ENJOYABLE HOLIDAY AT TUMALO ISLAND.

Seeking escape from the sizzling heat, 400 Deschutes county people took advantage of the invitation to the general public to attend the Moose picnic on Tumalo Island Sunday. Plenty of shade, the cooling proximity of the river and an adequate supply of ice cream and cold drinks helped to make the day endurable and contributed to the success of the picnic. Dozens of cars from Bend, as well as from out of town, made the island their destination and took advantage of the Moose hospitality.

The sports of the afternoon were well conducted and enjoyable. The tug of war between the married and single men was won by the benedicts in less than two minutes. The ladies' tug of war was won by the married ladies in even less time.

In the high jump Horrigan was first and Matchett second. Jacquot won the fat men's race, Grote taking second prize. In the girls' race Nellie Gott of Shaniko nosed out Fern Allen of Bend. Horrigan won the men's race, with Cashman second.

Toomey, Dean and Barker won the prizes in the ice cream eating contest for boys, while the four girls who took part in the girls' contest of the same nature, the Misses Hummer, Webb, Jones and De Bour, were all awarded prizes.

Defeated in the tug of war, the single men gained revenge by taking the volley ball contest and a similar victory was gained by the single ladies. The nail-driving contest was won by Edith McMurray, with Mrs. Max Modie second.

The committees in charge of the picnic were: Grounds, A. Edwards and R. E. Sowards; transportation, George Stokoe, A. B. Estebennett; refreshments, H. Hagen, Taylor Rhodes, Henry Trog, C. L. Cook.

DANIELS ASKS ANOTHER WEEK

The justice court case of C. A. Daniels, charged with larceny by baillee, has again been continued one week, after coming up for the second time at 2 o'clock Monday. The reason for the second motion for added time on the part of Daniels' counsel, W. P. Myers, is understood to be a desire on Daniels' part to straighten out his civil affairs before the final hearing.

34 BLOCKS TO BE PAVED NOW

PETITIONS SIGNED AGGREGATE 52,000 SQUARE YARDS; COST TO THE CITY IS ESTIMATED AT \$90,000.

The paving now being contracted for by the city of Bend with the Willite Construction Co. totals 34 blocks, about 12,000 lineal feet or 52,000 square yards, according to a very rough estimate made by City Engineer Robert B. Gould, and, just as roughly, he figures the cost to the city at \$90,000.

A close estimate is particularly hard to make because of the necessity of building curbs, grading the streets not now brought to grade, and also by the fact that the exact limits of the streets to be paved are not definitely set, nor were the widths of all of the streets at hand when the estimate was made.

A few changes have been made in the extent of the downtown paving since the list was published Tuesday. Broadway is to be paved from Franklin to the city limits and the alley west of Wall street is to be paved from Greenwood to Franklin.

People from a number of the districts not included in the original petitions, and who will, according to Mr. Reed's statement at the meeting Monday night, have to pay \$2.50 a yard for their paving, have been clamoring for a chance to get in on the deal, and it is likely that, in spite of the greater cost, some of those districts will get out petitions for paving.

HUSBAND AND WIFE TO CRUISE TIMBER

Mr. and Mrs. Frederick Furst of Portland arrived in Bend this morning to cruise government timber in the vicinity of Swamp Wells, along the boundaries of the Brooks-Scanlon holdings. He will have police power as a state officer, but his work will be largely educational, with a view to cutting down the number of accidents. In this he will get the cooperation of the local police throughout the district. He will make his headquarters in Bend.

RAINBOWS ARRIVE HERE FOR LAKE

Four thousand rainbow trout arrived in Bend Thursday, shipped from the federal hatchery at Clackamas to the forest office here. They were sent out on the truck to Lost Lake to be liberated. The shipment was not as large as was expected, as it was understood that a full carload would be sent here. However, more may come later.

FUEL HOUSE FIRES SOON EXTINGUISHED

Fire which started from an unknown cause in shavings in the fuel house at the Brooks-Scanlon Lumber Co. plant at about 10:30 o'clock Monday, resulted in the charring of the conveyor housing, but aside from this did little damage. The blaze was handled by the Brooks-Scanlon fire fighters, the burning sawdust and shavings being deluged with water with the result that the fire was quickly under control.

Sparks which the water failed to reach caused a recurrence of the fire later in the night, but little difficulty was experienced in extinguishing the flames.

FEELS SHE MUST TELL ABOUT IT

Portland Woman, Eats Anything, Sleeps Like a Child and Gains Ten Pounds Taking Tanlac.

"I was in such bad condition for two years with stomach trouble I did not have energy enough to do my work, but Tanlac has so quickly and completely restored my health I can't help telling all my friends what a wonderful medicine it is," said Mrs. W. R. Russell of 508 Bristol street, St. Johns, Portland, Oregon, recently.

"Why, before taking Tanlac I could hardly eat anything at all," Continued Mrs. Russell. "My appetite left me entirely and when I would go to the table I would get sick at my stomach, often I could not eat a mouthful of anything, and when I did swallow a bite or two it would nearly kill me. Gas would build me up till I could hardly breathe and sharp pains which seemed to originate in the pit of my stomach would shoot through my whole body. I got very little sleep at night, because these pains would make me have such dreadful nightmares I would lie awake for hours. I was told I had acidity of the stomach and I tried all sorts of medicines, but instead of getting better, I got worse all the time and lost so much weight it was alarming."

"One day a neighbor told me that Tanlac had done her a wonderful lot of good and I sent for a bottle myself. Before I had finished this first bottle I felt a great difference in my condition and now, after taking three bottles, I feel as well as any woman could wish. My appetite is simply marvelous and everything I eat seems to agree with me perfectly. I sleep like a child every night and feel so refreshed in the morning that my housework is a pleasure. I have gained 10 pounds in weight, too. I think Tanlac is so splendid I intend to keep on passing the good word along, for I feel sure it will help others as much as it has helped me."

Tanlac is sold in Bend by the Owl Drug Co., in Sisters by George F. Aitken, and in Bend by the Horton Drug Co.
