

REFUSE PILES TO BE REMOVED

SHEVLIN COMPLAINT BRINGS ACTION

Unightly Border of Tin Cans Along Beginning of Lost Lake Road Will Go To Disposal Tract At Once, Council Rules.

Complaints made by officials of The Shevlin-Hixon Company that city garbage has been dumped in large quantities on their holdings west of the mill resulted Friday night in action by the Bend council at a special session which will mean the immediate removal of piles of tin cans and other refuse. The garbage had been deposited along the line of the road through Shevlin slashings which taps the new forest service road to Lost lake, and the unsightly piles at the beginning of a tour over one of the most beautiful scenic highways in Central Oregon had already been commented on by many who have made the trip to Lost lake recently.

Official action was taken after a party including Mayor J. A. Eastes, Councilmen D. G. McPherson, J. C. Rhodes and E. L. Payne, Sheriff S. E. Roberts, City Garbage Collector R. N. Palmerton, Charles Wilson of the city engineer's office and Carl A. Johnson and J. H. Meister of The Shevlin-Hixon Company had inspected the collection of refuse Friday afternoon. Mr. Palmerton was ordered by the council to move the rubbish immediately to the city disposal tract, which is only a short distance away, but hidden from view in a canyon.

Mayor Eastes stated Saturday that the garbage collector, in disposing of refuse, had gradually deposited loads collected in the city farther and farther from the canyon until they bordered the beginning of the Lost lake road. Mr. Palmerton will put three wagons on the cleanup job and after the work is completed a fence will be constructed closing the canyon and making extension of the dumping ground impossible.

CHINESE PHEASANTS FAIL TO INCREASE

Adult Birds Unwilling to Nest First Year in New Country, and Chicks Run From Foster Mothers.

Deschutes county will have to wait until next year before an increase in the number of Chinese pheasants is noted, says D. H. Peoples, of the Bend Rod and Gun club, who was in charge of pheasant distribution this year. The adult pheasants, more than 30 in number, failed to nest after being released. Mr. Peoples believes, after careful observation, while out of several dozen eggs laid while the pheasants were still in captivity, there was no return.

The eggs were intrusted to barnyard hens, and many were hatched, but the tiny chicks escaped through fine meshed wire before they were old enough to shift for themselves. The pheasants were sent to Bend from the state game farm.

PROFICIENCY IN SWIMMING SHOWN

Four members of the Swimming club won proficiency medals Friday night by meeting the requirements specified as a requisite for these awards. Loman Todd, Jesse Hexberg, Charles Ross and Donald Coleman were the four who passed all the tests, given at the Y. M. C. A. tank. To win a proficiency medal, the applicant must swim three times the length of the tank, using any style of stroke he prefers, and must then swim once the length of the tank, using the back stroke and propelling himself with only one hand. Diving constitutes the remainder of the examination and each boy is required to show his ability to take a running "header," a running spring dive and to repeat the "duck" dive three times, bringing up a 10-pound weight from the bottom at each trial. Several who failed on the last test will be given another chance.

Three candidates, Earl Taylor, Allen Taylor and Norman Sprout, qualified as beginners, swimming once the length of the tank and doing elementary diving.

A large crowd was in attendance to witness the work of the swimmers.

SCOUT OUTING IS CUT SHORT

BOYS LEAVE LOST LAKE WHEN STORMY WEATHER SETS IN—ENCAMPMENT VOTED BIG SUCCESS BY SCOUTS AND MASTER.

Their outing cut short by inclement weather, members of the Bend Boy Scout troop who have been camping at Lost lake, returned Saturday night in cars furnished by J. A. Eastes, R. S. Hamilton, H. A. Miller and H. H. Lamping. The cars carried provisions and their owners had intended spending Sunday at the Scout camp, but it was decided by Scoutmaster J. Edgar Purdy that a rain and snow storm of 24 hours duration was enough, and the encampment was declared ended. The boys had planned to come in on Wednesday. One carload started from the camp with Mr. Eastes, and the rest of the scouts hiked seven miles to meet the other autos.

Despite the disagreeable weather during the last two days of camp, the scouts and their leader declared the trip to have been a big success from start to finish. "The boys were so toughened by their hiking and outdoor life, that not one even caught cold after being soaked by rain and snow on Friday," Mr. Purdy commented in speaking this morning of the outing.

ENDS OF ROAD DRAWING NEAR

ONLY THREE MILES NOW SEPARATES CREWS WORKING ON THE SPARKS LAKE HIGHWAY, SAYS FOREST SUPERVISOR.

After a tour of inspection of road work on the forest highway which is opening up Lost lake, Sparks lake, Devil's lake, and Elk lake to motor tourists, Supervisor Plumb, of the Deschutes National forest, and Ranger Smith returned to Bend last Saturday, Mr. Plumb reporting that the two crews which are working from the Lost lake and the Elk lake ends of the road are now only about three miles apart. Mr. Plumb drove in as far as Sparks lake, although the roadbed between that point and Lost lake is hardly ready for general travel. Snow fell at Lost lake Friday night, he reported.

SALEM BOOSTER IS INTERESTED IN BEND

"Why not start a real booster organization in Bend?" was the question asked last Monday by C. B. Clancey, head of the Salem Rotary club and King Bing of the Salem Cherrians, after his arrival from a trip to Crater lake. "Bend really should get in on the booster conference which will be held at the state fair this fall."

Mr. Clancey was accompanied by Mr. and Mrs. William McGilchrist of Salem and James Forbes of Portland. Mr. McGilchrist is head of the fruit juice industry in the state capital.

While he was on the state fair subject, Mr. Clancey commented on the flower show given in Bend under the auspices of the Women's Civic Improvement league. "I should think there would be some floral exhibits sent from here to be entered at the state exposition," he said.

DESCHUTES GARAGE IS IN NEW HANDS

E. L. Payne and William Pattison Purchase Business and Plan Important Improvements.

Announcement was made Friday morning of the Purchase by E. L. Payne and William Pattison of the Deschutes garage from R. H. Loop, previously in charge of the business. The consideration was not given. Under the new management Mr. Payne is president of the company and Mr. Pattison secretary-treasurer. Mr. Payne recently resigned as manager of the Tri-State store in this city.

A number of important improvements will be started at the garage in the immediate future, in order to insure the best of service to patrons, Mr. Payne states. The stock will be increased and the garage will feature the Nash car in its sales department. A full line will be put in as soon as possible.

REED READY TO START PAVING

WILLIE PRESIDENT WIRES BEND MAYOR ASKING FOR OFFICIAL AUTHORIZATION TO PROCEED WITH WORK.

C. S. Reed, president of the Western Willie Paving Co., is anxious to set the machinery in motion at once for the surfacing of streets recommended by the Bend city council at its last regular meeting, according to a telegram sent by him to Mayor J. A. Eastes. "Am glad your city council is on record to close deal with us," he

wired: "Will you kindly write us officially, accepting our proposition, and order us to get all machinery and material, ship same, and get ready for quick action. Upon receipt of this official notice and order by you as mayor, we will set everything in motion and will write you fully.

"I cannot resist saying that the taxpayers of your city are to be congratulated on the acceptance of our proposal, as our price is about 50 per cent less than it should be. It will be our determination to make Bend one of the most beautifully paved cities in the world."

PAYMENTS STARTING ON COUNTY'S TAXES

Although the last date on which payment may be made does not arrive until October 5, remittances for the second half of the 1919 taxes are coming in rapidly, Sheriff S. E.

Roberts has reported. Many of the payments include those which should have been made earlier in the year when the first half of the taxes fell due, and if the present rate is kept up a large part of the unusually heavy deficit created at that time will be wiped out, Mr. Roberts believes.

BEND AUTO PARTY ENDS LONG JAUNT

Cloudburst Beyond Idaho Falls Halts Trip Over Night, But Rest Of Journey Is Uneventful.

Fire Chief Tom Carlon, who for the better part of the month has been holding down the job of police chief, in addition to performing his ordinary duties, heaved a large sigh of relief Friday night when L. A. W.

Nixon returned from an auto tour through the Yellowstone National park. Three other families from Bend, those of O. C. Heskie, Clyde M. McKay, and Richard Doran, made the trip, and all with the exception of the McKay car pulled in yesterday. The last time Mr. McKay was seen, he was still in Yellowstone park, industriously engaged in patching tires, Chief Nixon said.

The party travelled to the park by way of Boise and Idaho Falls, and came home through Butte, Spokane and Walla Walla. The only mishap on the entire journey, Mr. Nixon said, was 35 miles beyond Idaho Falls, when the autoists, headed east were halted over night by a cloudburst, which poured water three feet deep down the road on which they were travelling.
