

BEND HAPPENINGS FROM DAY TO DAY

Wednesday—

J. Charles Smith left last night on a business trip to Portland.

M. R. Biggs of Prineville is a business visitor in the city today.

Frank Percival of Millican was a business visitor in the city today.

Mrs. James Clifford, formerly of this city, is visiting friends in Bend. Durward Howell of Tumalo was a business visitor in the city yesterday evening.

Mrs. Maxine Fish has returned to the city after a visit spent in Portland and Salem.

Lewis H. Irving and A. W. Culp of Madras spent last night in Bend, leaving this morning.

John Steidl and his son, Steve, have returned to Bend from a hunting trip in the vicinity of Diamond Peak.

D. St. Orr, who accidentally swallowed lysol last week, has entirely recovered from the effects of the poison and was able to be about today.

Charles Ayres, scaler at Brooks-Scanlon camp No. 2, was in Bend today, taking a short vacation as the result of a slight injury sustained while working in the woods yesterday.

Miss Vivian Hethorn, daughter of Mr. and Mrs. W. L. Hethorn of 65 Shasta place, has just returned to Bend after a pleasant summer visit with friends and relatives in Washington. She will attend high school in Bend this fall.

Benjamin A. Brown and Caroline Orr were married yesterday at the bride's home on Colorado, Rev. H. C. Hartman of the Presbyterian church officiating. Only a few intimate friends and relatives were present. Mr. and Mrs. Brown left last night on a 10-day wedding trip through Western Oregon, after which they will make their home in Bend.

Tuesday—

Mrs. Earl Wright came in yesterday from Portland.

John Helfrich of Brothers was a business visitor in the city today.

Mrs. H. E. Allen is leaving tonight for a visit with friends in Portland.

August A. Anderson has returned from a hunting trip in the mountains near Crescent.

George W. Dodder has sold his house on Albany to Fred Breest and is leaving the city.

James Hogan, who has been under the care of an eye specialist in Portland, returned yesterday.

Mr. and Mrs. J. P. Keyes and children have completed a week at Seaside and have returned to Bend.

Mrs. C. A. Warner has returned to Bend from a trip to Chatfield, Mo., where she has been visiting her parents.

Fire Chief Tom Carlon leaves tonight for Los Angeles to attend the convention of Pacific coast fire chiefs.

Miss Jessie Hardie of Condon arrived in Bend last night to take up her work as instructor in the Bend schools this morning.

A. E. Anderson, who returned Saturday night from a week's hunting trip in the mountains, left Sunday for Crater lake and drove into Bend again last night.

Mrs. B. C. Cady, formerly of this city, who has been visiting in Bend at the O. A. Thorson and J. Alton Thompson homes, will leave in the morning for her home near Tacoma.

L. I. Holman and family have arrived in Bend after a 10 weeks' auto trip from Michigan. Mr. Holman is an experienced garage man and has accepted a position in the Deschutes garage.

Walter Graham, foreman of road construction work for the forest service, was in Bend today from the Sparks lake camp. He states that the two road crews will meet between Elk and Sparks lakes about September 15.

The Women's Foreign Missionary society of the Methodist church will meet at the home of Mrs. E. D. Gilson, 1325 Highland boulevard, at 2:30 o'clock Thursday afternoon. All members are requested to be present as important business is to be transacted.

Mr. and Mrs. J. A. Smith of Butte, Mont.; Mr. and Mrs. Frank Inabnit and daughters, Louise and Margaret; Mr. and Mrs. J. M. Lawrence and Mrs. Lawrence's mother, Mrs. Williams; Mr. and Mrs. H. C. Ellis, Miss Blanche Brady, and Mr. and Mrs. J. L. Ivy of Portland were among those from this city who spent Saturday and Sunday at Crater lake.

The following left Bend Saturday and remained over Sunday and Monday at Foley Springs: Mr. and Mrs. T. A. McCann, Mr. and Mrs. J. H. Meister, Mr. and Mrs. Frank R. Prince, Mrs. Agnes Sheridan, Mr.

and Mrs. H. K. Brooks, Mrs. A. M. Pringle, Carl A. Johnson, R. D. Moore, F. Conn, Arthur Hall, Edw. Lyons, Mabel Boyer, Lucile Snyder, Mary Agnes Sheridan, Hugh Thompson, Ralph Lucas.

Saturday—

Vine W. Pearce of Madras was in the city this morning.

R. M. Smith and family will spend the week-end at East lake.

Miss Harriett Umbaugh of the English department of the Bend high school arrived in the city this morning.

De Armond & Erakine are moving their law offices from the O'Kane building to the Baird building this morning.

John M. Perry left this afternoon for Fort Rock to resume work on the forest service well at Quartz butte.

E. O. Stadter and family and Mr. and Mrs. J. M. Lawrence were among those starting south to spend the week-end at Crater lake.

Services will be held at the Christian church tomorrow, beginning with Bible school at 10 o'clock in the morning, followed by communion. Christian Endeavor will begin at 7 o'clock in the evening.

Mr. and Mrs. J. L. Ivy of Portland arrived in Bend last night to join Mr. and Mrs. H. C. Ellis on an auto trip to Crater lake. Mr. Ivy was formerly manager of the express office here and is now messenger for the express company on the run between Portland and Ashland.

Mr. and Mrs. Jack Sather are on a wedding trip through California, according to word received here from Mr. Sather, the son of E. A. Sather of this city. The wedding ceremony took place a week ago. Rev. Morrison, rector of Trinity church, officiating at the marriage services, which were held in the Morton apartments, Portland. Mrs. Sather was formerly Miss Dorothy Elaine Fields of Portland.

Friday—

C. A. Goddard was in Bend last night from Redmond.

H. H. De Armond will leave tonight for Portland on legal business.

Miss Mabel Doty, formerly of this city, was in yesterday afternoon from Redmond.

Max Cunningham, prominent attorney of Redmond, was in Bend today on legal business.

Mr. and Mrs. Paul Hosmer are the parents of an eight-pound baby boy, born last night.

Mr. and Mrs. J. C. Ceil of Harney county returned to their ranch home near Burns this morning.

Mr. and Mrs. G. E. Yenne of Hoquiam, Wash., will arrive in Bend tonight to visit Mrs. Yenne's parents, Mr. and Mrs. T. F. Laherty.

P. B. Johnson, formerly of the "A to Z" grocery, has purchased the business of the Independent Fruit Co., on Oregon near Wall, from George Lotus.

Mr. and Mrs. W. C. Painter of Kansas City, Mo., are in Bend on their way to La Pine, where Mr. Painter will organize a four-year high school course.

H. M. Norton has purchased the C. V. Silvis residence at 908 Fourth street and expects to move in this week. The deal was handled by the Central Oregon Realty Co. Mr. Silvis will move into a new home just being completed on acreage property near Pilot Butte.

D. St. Orr, who Wednesday night swallowed lysol, mistaking the poison for headache medicine, is reported by his physician to be suffering considerably today as the result of the action of the lysol on mucous linings of mouth and stomach. At present, however, he is not in any real danger, it was stated.

R. N. Buchwalter and Lane Castleberry returned to Bend last night from a hunting trip which took them almost to the California line. Mr. Buchwalter brought home a fine buck and reports that deer are fairly plentiful in the country they visited. Two other members of the party, V. A. Smith and Jerry Bond, remained in the south.

Thursday—

Mr. and Mrs. B. J. Crowley of Lakeview arrived in the city last night.

In observance of Labor day, the county library will be closed next Monday.

R. S. Hamilton left yesterday for the mountains to hunt deer. He will return Monday.

S. L. Wiggins, traveling representative for the Union Pacific, is in Bend on one of his regular visits to this section.

Jack Bowman has returned to Bend from a trip to the Walla Walla country, where he was called by the serious illness of his sister.

W. D. Butler has returned from a two weeks' vacation, spent in the mountains. Mr. Butler brought back a fine buck and reports plenty of huckleberries.

Mrs. Frank New and daughters, Lois and Maryline, who have been guests of Mrs. New's father and mother, Mr. and Mrs. M. C. Donahue of this city, for the past two weeks, left this morning for their home in Portland.

SIMPLE FORM OF ORGANIZING

No Capital is Required, Farmers of Community Meeting and Selecting Officers.

The simple form of organization that suffices for co-operative live-stock shipping associations is one of their leading features. In the first place, practically no capital is required, since payment is not made to members for stock shipped until the returns are received from the market. To organize, it is necessary only that the farmers of a community meet together, adopt a simple constitution and by-laws, and elect officers and a board of directors, who in turn appoint a manager.

Although in order to transact business it is not necessary for an association of this nature to incorporate under the state laws, it is advisable to do so as a protection to the members. If not incorporated, the organization, as such, can not sue or be sued, and in case of the loss of stock from railroad wrecks or other cause the manager could not enforce claims for the association, but each shipper would be compelled to present claims for his own losses. The cost of incorporating is comparatively small—usually not more than \$10.

The United States department of agriculture will furnish, on request, the essentials of a model constitution and by-laws.

Good Word for the Parrot.
Tasty people consider the parrot a nuisance and the loquacious bird has often engendered legal strife, but to the facetious person he is an endless source of amusement. He has an inherent weakness for profanity, which is apt to be embarrassing, but a man who has not tasted spirituous liquors never ceases them, and a parrot who has not heard profanity will not long for it as the best medium of expressing his sentiments. In this respect he promotes culture and refinement in the home.

FORAGE SUPERIOR FOR HOGS

Extremely High Prices Make It Profitable to Substitute Grass Crops for Grain.

With the present extremely high prices of grain it is profitable to substitute, as far as possible, forage crops for grain feeds. A saving of 15 to 25 per cent of the total amount of grain and supplements may be expected through the use of forage. Pasture crops, when combined with grain feeds, will produce the cheapest rations for both breeding and fattening hogs, and the cost of gains will range from one-sixth to one-fourth cheaper than when the grain is fed in a dry lot.

It may be possible, in some cases, with an abundance of good forage, to obtain fairly satisfactory gains for a time on such forage alone, but the greatest returns have been obtained when grain was fed in addition to the forage at the rate of two to three per cent of the weight of the hogs per day.

The Age of Death.

One quarter of the people on the earth die before the age of six, one-half before the age of sixteen and only about one person of each 100 born lives to the age of sixty-five.

CONTROL OF BEETLE IS TIMBER PROBLEM

Large Areas of Yellow Pine Attacked By Insect—Electrocution May Prove To Be Solution.

CORVALLIS, Sept. 9.—Oregon's most serious forest insect problem is control of the several species of bark beetles that are devastating large areas of yellow pine in Southern Oregon. Losses from the depredations of these beetles amounted to about \$200,000 last year in the counties of Lake, Klamath and Jackson. A summary of present knowledge of the biology and control of these beetles is contained in a new bulletin, "The Western Pine Bark Beetle," written by W. J. Chamberlain, and published by the Oregon Agricultural college experiment station.

It is expected that a better knowledge of handling the beetle situation may result from continued investigations and the station is still at work on the matter in Klamath county. Some promising experiments in

killing the beetles by applications of electricity to the infested areas of the trees have been conducted in the Klamath district. Mr. Chamberlain has found that the insects could be electrocuted by high frequency shocks, applied through wet blotting pads, and has made use of the discovery by applying electric currents to the boils of trees by means of chains wound about them and connected to power lines.

No satisfactory plan of conveying and applying currents of sufficient strength to trees on a commercial scale has yet been announced, but the investigations are still going on. In the meantime the information in the new bulletin may be used to lessen the damage and curtail further rapid spread of the insects.

CHIC FALL SCARF

This smart scarf of seal plush serves Milady as jacket and scarf. The belt and pockets give the distinction that is uncommon to scarfs and make it a pleasing evening wrap.
