MUSCLES FELT AS IF TIED IN KNOTS

Hudson Says "It Is Simply Wonderful What Tanlac Did for Me."

"If anybody had told me that Tanlac could do for me what it has done, I would not have believed them," said C. R. Hudson of Knoxville, Ill. "It freed me from rheumatism after 12 years of awful suffering," he continued, "and my stomach trouble is also gone."

"I was in such bad shape that I could scarcely digest a thing, and my solids would give me such cramps in my stomach that I could hardly stand them. Gas would form and affect my heart so bad I would get faint and have to lie down. The rheumatism made my legs swell all out of shape and the muscles felt like they were tied in knots. I couldn't straighten my right leg at all and it pained me so I could find no rest. At night it was especially bad and I simply rolled from one side of the bed to the other, unable to get any sleep. Not being able to work any more, I rented my farm and moved to town. I tried about every sort of medicine I ever heard of, but got worse all the time."

"One day I heard some people talking about how good Tanlac had done them, and I decided to try it, and the way it took hold was simply wonderful. I can now eat anything I want, my rheumatism is all gone, and I sleep like a log every night. I feel as strong and well as I ever did and I am going back to the farm, able to do as much work as I did years ago. If anyone wants to know about Tanlac, send them to me."

EVERYTHING THAT IS BIG HAS HAD ITS SMALL BEGINNING

At some time the large fortune was small, but it grew. Your fortune may be now in its infancy; you may not have more than a dollar that doesn't need to be spent at once for some necessity. But put that dollar away, in a safe place; let it draw interest; by and by put another dollar with it, and then another and another. Like a child your fortune will grow—steadily, surely. In time, what you have put aside, added to what your savings have earned, will amount to enough to make a good investment. You have made the beginning of your fortune.
