

WEEKLY EDITION THE BEND BULLETIN.

VOL. XVIII

BEND, DESCHUTES COUNTY, OREGON, THURSDAY, OCTOBER 21, 1920.

No. 94.

FEDERAL HELP WILL BE ASKED BY LAWMAKER

PROJECT IS APPROVED BY McNARY

SCORES WILSON RULE

Republican Speaker Urges Election of Harding and of House and Senate to Support Him in New National Administration.

After a personal inspection of the Benham falls storage reservoir site south of Bend, the key to the greater Deschutes valley irrigation project, United States Senator Charles L. McNary pledged Tuesday night that he would recommend to the senate on his return to Washington the use of government money in the completion of the reclamation work outlined by the cooperative state and federal survey, made under the laws of 1913. Senator McNary's promise was given in the beginning of his address supporting Senator W. G. Harding for the presidency, given at the gymnasium. More than 250 people heard the speaker.

Introduced by Charles W. Erskine, formerly a student in one of his law classes at Willamette university, Senator McNary declared that the great issue in the present campaign is whether or not the people of the United States will endure another four years of waste, inefficiency and extravagance such as have characterized the democratic administration.

Argument Constructive. The argument of the republican senator, while including a summary of the shortcomings of the Wilson regime, was essentially constructive. He promised that, with the election of Senator Warren G. Harding to the presidency, and the return of a republican majority to congress, the merchant marine bill should be made operative, a protective tariff should be enacted, and that a tremendous program of reclamation of now virtually useless lands, through irrigation and drainage, would be advocated. The governing of national expenditures by the use of the budget system will also be a result of a change in administration and the reelection of a republican congress, he declared.

"There is nothing spectacular about this campaign," the speaker pointed out, in opening his address, "but the apparent apathy of the people does not mean that they are not keenly alive to the issues involved. What I do take it to mean is that they are already well decided for a change of administration."

Waste is Scored. Granting that waste in time of war was inevitable, the senator declared that the loss of hundreds of millions of dollars through the construction of hundreds of wooden vessels of low carrying capacity in comparison with their gross weight, was entirely in-

SENATOR WHO SPOKE IN BEND

U. S. Senator Charles L. McNary, who spoke here Tuesday night at the gymnasium on national campaign issues.

MANY QUALIFY FOR ELECTIONS

TWO IN RACE FOR MAYOR, AND 12 SEEK SEAT IN COUNCIL— NO SLOGANS ARE ANNOUNCED BY CANDIDATES.

Bend voters will have a wide variety of candidates to choose from at the city election on November 2, for with the completion of filing at 5 o'clock yesterday afternoon, 12 had qualified to appear on the ballot in the race for the city council, while two will run for mayor. For the remaining elective position, that of treasurer, Miss M. E. Coleman, incumbent, is the only aspirant.

According to the petitions submitted to Miss Nell Markel, city recorder, slogans, policies, or political and factional preferences, mean nothing to the candidates. Not one has asked to have the ballot encumbered by any statement of his plans or ideas as a prospective office holder.

Last minute filing failed to change the lineup of candidates made public yesterday. T. A. McCann and E. D. Gilson are opposed for mayor, and H. E. Allen, D. G. McPherson, A. J. Goggans, C. J. Leverett, Ralph Bartlett, G. H. Baker, Hugh O'Kane, J. O. Gibson, J. A. Stevens, Lon L. Fox, Joseph Innes and N. H. Gilbert are competing for the six seats in the council.

SCHOOL BOARD FILLS VACANCY

GEORGE D. GOVE NAMED AS SUCCESSOR TO J. P. KEYES— CONSTRUCTION OF KENWOOD SCHOOL WALK AUTHORIZED.

George D. Gove was appointed last week by the Bend school board, in special session, to fill the vacancy left in the membership of that body by the death of J. P. Keyes. Mr. Gove will qualify as Mr. Keyes' successor at the regular meeting of the directors next Wednesday night.

On a bid of 25 cents a square foot, E. A. Freiburg was awarded the contract for the construction of a cement sidewalk along the north side of the block on which the Kenwood school is located. Work will be started immediately.

GRADE CHAMPIONSHIP CLAIMED BY CENTRAL

After defeating the Kenwood school team Tuesday afternoon, 39 to 0, the Central eleven now claims the grade championship of the city. The central players, who are coached by Ed Brosthorous, former high school star, have won every game this season, defeating every other team from the grades in Bend.

TIMBER IS HELD ALONG HIGHWAY

FOREST PRESERVATION OLCOTT'S PLEA

Brooks-Scanlon Lumber Co. Suspend Cutting Along State Road Until Officials Arrive in Bend From The East.

A letter from Governor O'cott, printed in a Portland morning paper under a Salem date line, written to the management of the Brooks-Scanlon Lumber Co., urges preservation of the forests along The Dalles-California highway until such time as some understanding may be reached between the owners and the people of Oregon who are interested in perpetuating the scenic beauties of the state. The governor's letter says: "My attention has been directed by the state highway department to the fact that a new cutting of timber along and on The Dalles-California highway south of Bend has been started by your company. As you are no doubt aware, efforts have been started by this office and others to secure the cooperation of everyone interested in preserving, as far as possible, the scenic beauties along our highways. I understand the work now in progress may seriously impair the appearance along that section of The Dalles-California highway.

Legislation Planned.

"It is the plan to secure some legislation which will do justice to everyone concerned as nearly as possible, but at the same time preserve the forest strips for all time to come. Because such legislation is in prospect, the Crown-Willamette Paper company has voluntarily, at my request, ceased operations near the public highways in the northwestern part of the state, and I would appreciate it very much if you could take some such action in the vicinity of Bend.

"The Dalles-California highway, when completed, promises to be one of the most magnificent pieces of roadway in the entire Pacific Northwest. All of us, as citizens of the state, owe a patriotic and civic duty in endeavoring, as far as possible, to preserve our wonderful natural surroundings. We have no desire to deprive private holders of the right which they have in their timber, but we do feel that a cooperation between the state and the timber companies may be secured which will be of immense advantage to the state and, consequently, to the timber companies themselves in the long run."

Reports that the cutting referred to had been begun in the vicinity of Lava Butte were telephoned to Bend from La Pine by Assistant Highway Engineer C. C. Kelley, who went over The Dalles-California highway on his way to Klamath Falls a week ago today. Following Mr. Kelley's report, the matter was taken up with H. K. Brooks of the Brooks-Scanlon Co., who advised County Judge Sawyer that cutting on the highway would be suspended until company officials now on the way here from Minneapolis had arrived. At that time a decision will be reached covering the company's attitude on the subject, the expectation being that a timbered strip will be left as desired.

J. H. HEDBERG DIES, RELATIVES SOUGHT

Meningitis, Coming After Long Illness from Tuberculosis, Causes Death after Seven Days in Bend

J. H. Hedberg, aged about 50 years, died at 12 o'clock Sunday night at Mountain View hospital of meningitis, complicated by a tubercular trouble of long standing. He had been in Bend for a week and is thought to have relatives in Seattle, although little is definitely known concerning him. An effort is now being made to locate friends or relatives.

On his arrival here Hedberg stated that he was a representative of the A. F. of L., but this could not be confirmed in local organized labor circles.

CHAPTER NAMES NEW DIRECTORS

NEXT MEETING TO PICK OFFICERS

Red Cross Sets October 21 As Organization Session—Grief Over Death of Chairman Is Expressed in Resolution.

On the recommendations of the Red Cross nominating committee, made Thursday at the meeting of the 1920 directors, a new directorate was chosen and will hold its first session on the evening of Thursday, October 21, when officers and committees for the coming year will be selected. The list of new directors as selected includes: R. W. Sawyer, L. M. Foss, Mrs. H. Richards, Mrs. J. M. Lawrence, H. A. Miller, S. W. Moore, J. C. Rhodes, Rev. J. E. Purdy, Father Luke Sheehan, Mrs. Emerson Stockwell, J. A. Eastes, Mrs. E. P. Mahaffey, J. D. Donovan and T. H. Foley of Bend; Dr. J. F. Hosh and Mrs. Leavitt, Redmond; George Aitken, Sisters; Mrs. Fred N. Wallace, Tumalo; E. B. Tomes, La Pine; R. B. Butler, Grange Hall; Mrs. G. White, Terrebonne.

Sorrow over the death of J. P. Keyes, chairman of the Bend Red Cross chapter since its organization, prompted the passage of the following resolutions:

Whereas, Death has called John P. Keyes, the first chairman of the Bend chapter of the American Red Cross, be it hereby

Resolved, That the loss of so efficient and respected a member and leader is keenly felt by this organization, and that we express the general grief and regret at his removal and sympathy with those thus bereaved. Chairman Keyes was a most unselfish and faithful officer and citizen and his passing leaves vacancies that will not easily be filled. Be it further

Resolved, That a copy of these resolutions be transmitted to the family of our late chairman, and that they be spread upon the minutes of this meeting.

EGG HARVEST IS BEGINNING

CREW SENT TO ELK LAKE TODAY TO SEIN EASTERN BROOK TROUT—MORE THAN 2,000,000 EGGS TO BE TAKEN.

The annual harvest of trout eggs for the Tumalo hatchery was started yesterday. Pearl Lynes, hatchery superintendent, announced this morning. A crew of five men was started for the Elk lake eastern brook trout spawning grounds today and the superintendent will leave Saturday. Seining the fish, preparatory to stripping the spawn, will begin at once.

Because of the many large catches of trout at Elk lake during the past season, Mr. Lynes does not expect so large a take of eggs as last year, he said, but believes that between 2,000,000 and 3,000,000 will be produced.

Some of the crew will remain at the lake until March.

AUTO STOLEN HERE IS BELIEVED FOUND

Sam Boyce and Ed McDonald To Be Returned To Bend Tomorrow Charged with Theft of Davis Car

A wire from Portland police headquarters informed Sheriff S. E. Roberts yesterday afternoon of the arrest of Sam Boyce and Ed McDonald, said by the Portland authorities to have confessed to the theft of the car in which they were riding, the numbers of which tally with one stolen from A. R. Davis here on September 27. N. G. Jacobson was deputized and sent down last night to take over the prisoners. Davis will go down tonight and the four will return to Bend in the car, now held by the Portland police.

WINTRY TOUCH FELT IN BEND

LIGHT FALL OF SNOW MELTS QUICKLY

1920 One of Few Years With October Snow, Records Reveal—Much Heavier Precipitation Reported At La Pine and Lava Lake.

Bend's first touch of winter came on Tuesday, when a light snow fell for several hours, totalling slightly more than an inch. The present year is one of four out of the last 11 in which October snows have come to this section, the beginning of winter ordinarily waiting until November, and, in one instance—1917—until December.

The snow was apparently general, for a fall of two inches was reported at La Pine, five at Lava lake and two at Crane Prairie. After the precipitation ceased here, shortly before noon, the snow melted rapidly, and by mid afternoon little remained.

A glance at the Bend records for the 10 years preceding 1920 shows the following dates and depths of first snows: In 1910, November 8, 10 inches; 1911, November 10, 2 1/2 inches; 1912, October 19, two inches; 1914, October 18, one inch; 1915, November 7, one inch; 1916, November 5, four inches; 1917, December 1, one-half inch; 1918, November 23, three inches; 1919, October 24, five inches.

WILL ASK CITY TO BUY SCALES

COMMERCIAL CLUB COMMITTEE UNABLE TO PROCURE INSTALLATION FOR CONVENIENCE OF STOCKMEN FROM RAILROAD.

That the matter of installing scales for the weighing of stock for the convenience of shippers should be referred to the city council for action was decided Wednesday at the weekly meeting of the Bend Commercial club. Action came following a report by R. A. Ward, in which he stated that purchase of lams this year has been by weight, and that railroad officials refuse definitely to install scales. Improvements at the stockyards, however, are promised, he said. J. A. Eastes was the author of a motion, carried after brief discussion, naming Clyde M. McKay as a committee of one to bring the scales question before the council. The cost of the scales would be approximately \$1000, Mr. Ward said.

A feature of the next club meeting will be a discussion of the market commission bill, one of the measures which will be voted on at the coming general election. T. H. Foley asked that the club endorse the bill, but on the suggestion of Chairman D. G. McPherson, action was deferred until next Wednesday.

A. E. Edwards announced the firemen's dance, to be given at the Hippodrome tonight, then branched off onto the subject of local politics, predicting the election of Joseph Innes as one of the members of the next city council.

A. Whisnant suggested that all candidates for city office be invited to attend the next club luncheon in order that they might present their views on local issues, but the remark was not taken seriously. Chairman McPherson advising that the gymnasium be rented for the purpose to allow for the staging of a real "free-for-all."

MILL PLAYERS LOSE TO COMETS AT GYM

The Y. M. C. A. Comets on Monday defeated a basketball team from the Brooks-Scanlon mill by a score of 24 to 18 in a practice game at the gym. The contest was virtually a tryout for the mill players, who, with more practice, give promise of becoming one of the crack basketball organizations here this winter. Next week tryouts for the Shevlin-Hixon team will be held.

MANY EXHIBITS AT FIRST FAIR

STOCK SHEDS FOUND TOO SMALL

Redmond Show Compares Favorably With That At Prineville—Football Game Feature of Program On Closing Day.

REDMOND, Oct. 16.—Stock and agricultural exhibits were entered in such numbers at the first annual Deschutes County fair and Redmond Potato show that the capacity of both the agricultural exhibit hall and the stock sheds were taxed. The exhibit hall is the largest in Central Oregon. Although it was opened with the fear that it would be so large that exhibits would be lost, W. M. Wilson, the president of the fair association, declared that exhibits entered would justify a space of at least one-third larger and that an addition would be built for next year.

Stock exhibits likewise crowded the 150 feet of stalls provided. Dairy stock from over the county and from the Prineville country predominated. Sheep and swine are also shown in considerable numbers.

Dr. U. C. Coe, formerly of Bend, was present on the opening day and declared the agricultural displays exceeded in number and quality those shown last week at Prineville, despite the fact that this is the first county fair to be held in Deschutes county.

Among the features of the fair which attracted much notice were a Red Cross exhibit, in charge of Mrs. V. A. Forbes and Miss Margaret Brems of Bend, and a library exhibit presided over by Miss Lilian Sabin, county librarian.

Friday the exhibits at the fair were being judged and premiums awarded. A feature of Saturday, last day of the three-day program, was scheduled a football game between the Crook county high school of Prineville and the Redmond union high school.

A full card of races with the best of Central Oregon horses and two strings from the Willamette valley, was given each afternoon of the three days of the fair. More than 40 concessions and a large encampment of Indians on the fair grounds gave Redmond a carnival appearance.

With 40 feet of wall space devoted to its exhibit, the Powell Butte community exhibit carried off first honors for the \$100 prize at the Redmond Potato show. The Lower Bridge exhibit was a close second, although its display was not so extensive.

Perhaps the exhibit that attracted the most attention as an individual was that of Mr. Graham of Metolius, who carried off many premiums with a display of dry land products which it would be difficult to surpass in any country. However, the individual farm display prize was awarded to W. W. Van Matre of Redmond, with D. H. Gates of Terrebonne second. The new exhibit building was filled to its capacity, as were the stock sheds and space allotted to poultry, there being approximately 800 individual exhibits on the grounds.

The potato displays were up to standard and Mr. Mustard won the special five-bushel prize, with the Deschutes Valley Land Co. a close second, on Burbanks and Netted Gems.

In the ladies' department and flower show the judges had much difficulty in placing the premiums, so close were some of the exhibits, and the same was true of the school department.

In the bucking contest, which ran through the three days of the fair, Paul Scoggins of Tumalo won first money, \$65, and Pat Mulcare, second, \$35.

As a whole the fair was far better than any other ever held in Central Oregon and the board of directors are already at work on plans for a still larger show next year, the dates having already been decided upon and the preliminary steps for a premium list having already been taken.
