## HIS "LUCKY DAY" STATES CRAWFORD

"I Never Felt Better in My Life," He Declares After Taking Tanlac.

"Tanlac has not only added 15 pounds to my weight, but has rid me of all my ailments and built me up to where I feel better than I have in a long time," said M. Crawford, a well known pattern maker, living at 1027 West Second avenue, Spokane, Wash.

"During the past two years I have been subject to frequent spells of indigestion which were so severe as to almost lay me out. My appetite left me, and the little I did force myself to eat bloated me up with sour gas and kept me feeling miserable for hours. I suffered with severe pains in my back and constant spells of dizziness, and was so restless I hardly knew what it was to get a good night's sleep. I lost weight all the time and got so weak and rundown that I had hardly any life or energy left for anything.

"I began taking Tanlac on the recommendation of a friend, and it was a lucky day for me when I did. For my appetite began to improve at once and I got to feeling better in every way. I have now taken five bottles, and if I ever felt better in my life I don't know when it was. I eat like a wolf of just anything and everything I want and never have a touch of indigestion, and have built up rapidly, both in weight and strength. I sleep like a log at night and wake up in the morning feeling brimful of life and energy and more than ready for my day's work. Before I got Tanlac my work was a drag, but now I do it with ease and pleasure. I certainly ought to think well of Tanlac, for it has brought me back my health, and I am glad to give it my strongest endorsement."

**EVERYTHING THAT IS BIG HAS HAD ITS SMALL BEGINNING**

At some time the large fortune was small, but it grew. Your fortune may be now in its infancy; you may not have more than a dollar that doesn't need to be spent at once for some necessity. But put that dollar away, in a safe place; let it draw interest; by and by put another dollar with it, and then another and another. Like a child your fortune will grow—steadily, surely. In time, what you have put aside, added to what your savings have earned, will amount to enough to make a good investment. You have made the beginning of your fortune.
