her work and anxious in every possible way to raise the standard of public health in this county. An organization was effected to cooperate with her in both her school and home work. The following officers were elected: Mrs. Meredith Bailey, community vice president; Mrs. E. G. Snyder, chairman of nurse committee; Mrs. A. L. Templeton, community executive chairman; Mrs. W. W. Kelly, community publicity chairman. Deschutes county is one of the 16 Oregon counties to have a public nurse, and is one of 19 counties to support a public health nurse with county funds.

Natural Workers.

When waters charged with carbonate of calcium derived from limestone are evaporated they deposit masses of the carbonate, some of which are of great beauty. This process can be observed at many warm and "petrifying" springs and also in limestone caverns where stalactites and stalagmites are being formed, according to the United States geological survey. Mexican "onyx" is formed in this way. Its variations in color and texture, which make it attractive and valuable as an ornament, are commonly produced by impurities or inclusions, such as oxide of iron, or even mud and clay.

Trade With Australia Grows.

Trading between this country and Australia is showing a healthy growth, according to figures supplied to the department of commerce by A. W. Fern, trade commissioner, who is at Melbourne. They cover imports and exports for the first quarter of the current year, and show the imports during that period to have been about \$27,775,000, against exports to this country of approximately \$16,350,000. February exports nearly equaled in value the totals for January and March, and in that month the outgoing shipments exceeded the imports. In the same month, however, the value of the imports was less than half of the goods brought in during March.

Making It Homelike.

On Dolly's birthday she was presented with a baby building, and her delight was delicious to behold.

It was very young, and she insisted upon taking it to bed with her, but the next morning she was looking very tired.

"Haven't you slept well, darling?" asked her mother.

"No, mummy," said Dolly. "Net son was crying in the night for his mummy, so I kept awake with him for company, and I made awful faces all night to make him think I was his bulldog mummy to comfort him!"—Answers, London.

Aerial Taxicabs in Canada.

Seventeen aerial taxicab companies are being formed in western Canada, and a number of these already have been licensed by the air board. Four commercial flying companies have been formed at Winnipeg, and there are companies at Regina, Moose Jaw, Saskatoon, Edmonton, Hanna (Alberta), Calgary, Lethbridge, Banff and in Vancouver. Aerodromes are to be built at Virden and Vancouver. Passenger flying is the first object of these companies, and mail carrying and distribution for large shops are expected to follow.

Technical Name for Motor.

The more technically correct name for the automobile power plant is the word engine, although it is popularly called a motor.

BIG EGG YIELD

"From a small flock of hens I now get 20 to 25 eggs per day, whereas, before giving them Dr. LeGear's Poultry Prescription, I only received three or four. Its cost has been repaid to me over and over." So writes Mrs. J. W. Montgomery, Tunnell Hill, Ga.

You should increase your yield now, while prices are high, through Dr. LeGear's Poultry Prescription. It is a tonic which builds up the hen's strength and vitality, and stimulates the egg-producing organs.

For 28 years Dr. LeGear has been recognized as America's foremost Expert Poultry Breeder and Veterinarian. Any time your poultry or stock are ailing, it will pay you to get the proper Dr. LeGear Remedy from your dealer. It must give satisfaction, or your dealer will refund your money.—Adv.

BEND, OREGON

To The Parents and Children of Deschutes County:—

Capital, the result of labor, is effective for you, if you save that result, or part of it. If you do not, it works for the other fellow.

For the thinking man or woman, there is of course only one choice. This should be made just as apparent to the boy or girl who is now forming the habits which will probably endure through life.

Perhaps you have already started on the right road and are now steadily adding to your savings. If you have not, we want you to realize the importance of opening an account, the benefit you will derive by making the effects of your labor cumulative.

The Central Oregon bank wants to help you in this, and to make saving easier to you is offering dime savings banks, and safe type banks, the latter given out with the opening of a dollar account.

Don't put this off. Start saving now, and watch that savings account grow.
