PLAY AT SISTERS DRAWS BIG CROWD

SISTERS, April 13.—The play given in the school house last Saturday evening was a great success and the experiences of "A Poor Married Man" furnished laughs for everyone. In the first act two much champagne and in the following two, too much mother-in-law makes the miserable for John B. Wise, a college professor, who is just recently married. His friends mistake the mother for the bride and relate to the professor sundry dry escapades of the mother's husbands and her daughter. Wise naturally thinks they are referring to his wife instead of her mother. He thinks that his wife is trying to poison him and he thinks that she has married a lunatic, so they are divorced and Wise again marries. This time it is the pretty daughter of a country doctor, who is a widower, and who, in turn marries the professor's former mother-in-law. The resulting situations are ridiculously funny, but all turns out right in the end and no one is dissatisfied. The cast was as follows: Professor John B. Wise, a poor married man, William Kelly; Dr. Matthew Graham, a country doctor, Dr. Vincent; Billy Blake, a college boy, Lynn Wilson; Jupiter Jackson, a black in white, Jim Hoosey; Mrs. Iona Ford, some mother-in-law, Mrs. Fred McKinney; Zola, her charming daughter, Mrs. Jim Hoosey; June Graham, a little freshman, Mrs. Lynn Wilson; Rosalind Wilson, a college reporter, Miss Naomi Snyder.

The school house was full and about \$100 were added to the piano fund. After the entertainment a lunch consisting of ice cream, cake, sandwiches and coffee was served. Miss Julia Clock, county nurse, met with the ladies interested in public health at the home of Mrs. C. N. Sorensen April 7. The study of the causes and prevention of diseases was continued. It was demonstrated how to change the sheets of a bed with a patient bedfast, place pillows, prop patient up in bed, etc. At the close of the class lunch was served by the hostess. The next meeting will be held May 5 at Mrs. Kelly's home, with Mrs. Kelly and Mrs. Farthing acting as hostesses.

Little Alf Quiberg, who has been quite sick with typhoid-pneumonia for the past two weeks, is rapidly improving. There are several other cases of illness in the community, the latest cases being Mrs. E. G. Snyder and Mr. Jacobson's baby. CAR STRIKES TREE; CONTINUES JOURNEY

City Recorder In Accident On Return Trip From Silver Lake—Not Straightened on Bendfre

City Recorder Ross Farnham, who returned to his duties Friday after an absence of two days at Silver Lake, tells of an exciting experience which occurred on the return journey, which he made in the car of S. O. Crossler of Lakeview.

Twenty-five miles out of Bend the steering gear got out of order and the car, running 25 miles an hour, collided with a jack pine at the side of the road. Simon Juanto of Lakeview, a passenger in the front seat, was thrown from the car landing on his back in the road.

One front wheel was thrown badly out of alignment, but the three occupants of the car succeeded in straightening some of the bent rods over a fire and the wheel was adjusted to run true, although four inches to the rear of the other. The car was otherwise damaged, but made the remaining distance to Bend in four hours.

CITY CAMP GROUND IS ALREADY IN USE

Spring Cleaning Completed Just In Time—Will Be In Constant Use Until In October.

Spring cleaning of the tourist camp ground, reported to have been completed last week by the city officials, was completed none too soon, for already early "gas tramps" are occupying the grounds and taking advantage of the camping facilities.

Use of the camp ground will be almost constant from now until October, according to present forecasts of the tourist traffic for the summer. Yesterday two parties of travelers were camped at the grounds. J. A. Messenger of Twin Falls, Idaho, is traveling toward California with his wife and child. Three trucks, two of them fitted up as comfortable dwelling houses, are parked in the grounds, occupied by Mr. and Mrs. H. L. Stephens, Mr. and Mrs. I. H. Stephens and R. E. Stephens, trucking contractors, who were snowed in at Lakeview last winter on their way to California. They returned to Bend this week.

Galosh Not Modern Footwear.

The modern galosh is but the grandchild of a long line of strong, sturdy ancestors from the boots of Captain Kidd down. The boot wearing fever got so bad in England once that parliament had to be petitioned to restrict the making of boots. "The merchant and mechanic walk in boots," so read the complaint, and "many of our clergy in shoes and galoshes. University scholars maintain the fashion likewise. Attorneys, lawyers, clerks, serving men all delight in this wasteful wantonness."

RECOVERY FROM FIRE IS RAPID

CENT-ORE MOTOR COMPANY SOON TO OCCUPY SECOND AS WELL AS FIRST FLOOR OF FOX BUILDING ON BOND.

Rapid recovery from the effects of one of the most disastrous fires in the history of the city has been made in less than a year by the Cent-Ore Motor Co., agents for the Ford car, and the company is now ready to extend its business to the second floor of the stone garage building on Bond street owned by Lon L. Fox. When changes in the building to allow for this have been made, the rear section of the ground floor will be used for storage, the machine and repair shop occupying the second floor. Cars will reach the second story by an inclined runway starting from the Bond street entrance.

A number of alterations are also planned in the business office, situated on the first floor. That section of the first floor used for office purposes will be "double-decked" to allow greater economy of space. Joe Albright has the contract for the work.
