"NOW-A-DAYS"

says the Good Judge

A man can get a heap more satisfaction from a small chew of this class of tobacco, than he ever could get from a big chew of the old kind. He finds it costless, too. The good tobacco taste lasts so much longer he doesn't need to have a fresh chew nearly as often.

Any man who uses the Real Tobacco Chew will tell you that.

FOUR FIRMS IN TEAM WORK IS BEND TO MOVE NEED OF BEND

CONSTRUCTION OF MINOR BUILDING PROMPTS CHANGES—LARSON & CO. TO GET CORNER LOCATION ON WALL.

Need for cooperation in bringing about the realization of Bend's possibilities is emphasized by A. G. Clark, until recently manager of the Associated Industries of Oregon, now with his son-in-law, J. L. Van Huffel, directing the affairs of the Cent-Ore Motor Co. Mr. Clark has been anxious to locate in Bend for some time, he states, and took advantage of the first opportunity to get into business here.

"Every man making Bend his home should have two sets of interests—one for himself, and one for the community," Mr. Clark declared. "Of these, the interest in the community should come first, for if the community does not go forward, what do one's private interests amount to?"

Mr. Clark foresees a wonderful future for the west, and for Oregon in particular. "The business of the entire world is way behind, and the country needs who Oregon can supply. Demand is sure to come in such a way as to spell prosperity," he asserted, suggesting just a little more patience and the discarding of blue-tinted goggles.

Mr. Clark's faith in the future is shown by the extensive improvements which have been made at the headquarters of the Cent-Ore Motor Co., carrying the Ford agency. Doubling of floor space and general rearrangement will enable the company to take care of business in what Mr. Clark believes will be a much more efficient manner.

Four Bend business firms will change their locations in the near future as the result of the starting of construction of the Minor building on Wall street. This became definitely known when A. F. Larson, of Larson & Company, Jewelers, announced that he is taking a five year lease on the corner rooms of the Deschutes Investment Co. building, across Wall street from the Central Oregon bank. The present tenant is moving to the basement of the Pringle building, and E. O. Logan, now in the Pringle building basement, will take the rear half of the room on Wall near Franklin occupied by J. F. Arnold. Louis Dornecker, proprietor of the American Bakery, will occupy the storeroom vacated by Larson & Co.

Mr. Larson does not contemplate moving for about six weeks, as he considers that it will take this length of time before the Deschutes Investment Co. building can be remodeled to suit his purpose. These improvements will include the installation of a large show window facing Oregon street.

Mr. Larson will go to Portland shortly to purchase new fixtures, he said. He is also planning to install wireless telegraphy apparatus in order to receive the official time hourly from Portland.

The new location will allow for the arrangement of a new optical department for Dr. L. W. Gatchell, who has had his offices in the Larson store since his arrival in Bend.

INDEBTEDNESS TO BE CLEARED

An active campaign to remove the indebtedness which is hanging over the B. A. A. C. building will be made between now and May 15, announces Carl A. Johnson, member of the Bend Holding Co. directorate, who will have charge of the committee. Names of the members will be announced later.

It is thought that a large share of the indebtedness will be cancelled, and that enough money can be raised to pay off the rest, and probably to provide for necessary repairs. The plan, then, is to turn the building over to the American Legion, which still is willing to take over the building at any time that the indebtedness can be raised, it is understood.

The present interest in the immediate opening of the gymnasium is due to the need of the high school students for the building on the occasion of the approaching commencement season. It is thought that all arrangements can be completed before May 15.

GOOD WEATHER DRAWS ANGLERS

Favorable weather Monday drew numbers of Bend anglers to the rivers and lakes, where results were better than they have been on previous week-ends since the opening of the fishing season. Catches up to the legal limit were reported by a number of fishermen who visited the lower Deschutes and Metolius. Fishing at Twin lakes is improving, and anglers are agreed that next Sunday will find the trout there striking readily.

Members of a party which visited Twin lakes Sunday were: Sheriff S. E. Roberts, Assessor August Anderson, J. A. Eastes, Don Peoples and Howe Roberts. One group, returning from the lower Deschutes to tell of limit catches, were Claude Metz, Phil Philbrook, C. K. Norcott and W. M. Morrison. The Metolius also drew its quota of anglers yesterday.
