GOOD YEAR GREAT DAYS FOR THE TIRE BUYER

These are great days for the buyer of Goodyear Tires. For less money, now, he buys more mileage and greater freedom from trouble, than at any previous time in his life.

The primary reason for this is the increased quality and serviceability of Goodyear Tires.

An important supplementary reason is the exceedingly low price at which they now are sold.

The Goodyear Tire is made better today than ever before—larger, heavier, stronger, and more durable.

On every count of design, material and structure they surpass even those fine Goodyears that you have known.

They represent the peak point of accomplishment in this company's efforts constantly to build a better product.

Yet, today, you can buy these better tires at the lowest prices in their history.

Not even in pre-war times did a genuine Goodyear Tire require so little investment.

We repeat, these are great days for the buyer of Goodyear Tires.
