

## TOWORK TOWARD C. O. I. DISTRICT

COMMITTEE APPOINTED BY WATER USERS AT REDMOND—C. C. MCCOLLOCH IS SPEAKER AT LARGE GATHERING.

REDMOND, Jan. 15.—(Special.)—As the result of the meeting of C. O. I. water users held here last Saturday night, a committee has been appointed which will work with representatives from other parts of the sebegation in working out the details for the organization of an irrigation district. A majority of the water users are thought to be in favor of this method of handling affairs when control passes from the hands of the company in June.

Claude C. McCulloch, who spoke in the afternoon at Bend, was present at the gathering here, explaining the provisions of the district law, and telling how by availing themselves of it, the water users would be able to secure financial aid, and make much needed improvements and repairs. A large attendance was on hand, and the question was thoroughly discussed from all angles.

Mr. McCulloch, while favoring the district law for the C. O. I. segregation, urged his hearers not to rush into an organization of the kind without careful investigation of every phase of the matter.

### O. A. C. ECONOMICAL

Football Expenses to Be Cut to the Bone Next Season.

By H. C. Hamilton,

(United Press Staff Correspondent.)

NEW YORK, Jan. 15.—Oregon Agricultural College didn't defeat the University of Pennsylvania at football, neither did it win the championship of the Pacific coast. But it did do one thing deserving of credit when it kept expenses for its football team down to an average of \$295 a man for the 1916 season.

Nearly all this average was spent in paying traveling expenses of the players, \$205 a man being doled out in this fashion. Twenty men were included in the transportation list. Coaching for 50 men came to \$35 a man, and personal equipment for 32 men at \$47 a head. Medical service for 50 men was \$8.00 each.

Cheapness is a matter of compulsion with Oregon Agricultural College, however, for the books closed on the 1916 season show a deficit of \$1,222.40 on the home field, and a surplus of only \$2,247.19 on foreign grounds.

Next year expenses are to be cut still more, for O. A. C. isn't like most colleges. It admits it wants to make a little cash out of the exploitation of its football teams, and likes to derive the benefit that comes from advertising.

And O. A. C. received quite a little publicity two years ago, when smashed things up generally in the middle west. The biggest game of the season will be played next fall in Portland, where the biggest hunk of cash came from last season.

### DR. C. B. HYDE CASE IS OUT OF COURTS

Allegations of Murdering Father-in-Law, Prompted Three Trials Before Release.

(By United Press to The Daily Bulletin)

KANSAS CITY, Mo., Jan. 15.—If Dr. B. Clark Hyde did give his millionaire philanthropist father-in-law, Colonel William H. Swope, typhoid germs in his drinking water and kill him to get his fortune, it probably never will be proved.

Dr. Hyde has been tried on the murder charge three times in the last

## "TANK" WRECKED ON TRENCH SHOWN IN FIRST PICTURE TO REACH AMERICA

REACHED A GERMAN TRENCH BUT BROKE DOWN (NOTE DAMAGED BELT)

This picture, made from one which reached America a few days ago, shows a British "tank" astride a German trench. The monster fought well, but emerged from the battle with a damaged caterpillar belt, which forced it to remain where it was—in the act of crossing one of the enemy's trenches. Field Marshal Haig's recent report on the battle of the Somme

contains frequent mention of the work of the "tanks." One example follows: "Guendecourt was carried after protecting trenches to the west had been captured, in an interesting fashion. In the early morning a 'tank' started down a portion of a trench held by the enemy, from the northwest, firing its machine guns and followed by bombers. The enemy could not escape, as we held the trench at the south-

ern end. At the same time an airplane flew down the length of the trench, also firing its machine gun at the enemy. The enemy finally waved white handkerchiefs in token of surrender, and when this was reported by the airplane the infantry accepted the surrender of the garrison. Besides a great number of the enemy killed, we made prisoners eight officers and 32 men. Our total casualties were five."

### Good Looking Blouses Never Lose Their Appeal

HER CHOICE.

Worn with the every ready blue serge skirt is this white georgette blouse, picked out with embroidered medallions, also blue. Cuff bands, collar and buttons strike a further contrast to match the skirt.

### How Would You Like This Soldierly Model For Your Own?

JAUNTY LINES.

Navy gaberdine, cut short skirted and Russian blouse, develops a dashing suit for maidens. The hip fullness is accentuated with lacquered braid in clusters, and novelty buttons are used in pairs on the coat front. A bersagliere coque feather and seal collar add piquancy.

### GRANGERS TO COOPERATE

(Continued from Page 1.)

have to be held over. Take a half dozen farmers and it would not be any trick to get a car of stock for shipment.

#### Agriculturalist Can Help.

"Don't fail to call on your County Agriculturalist, because he is the best informed man in your county as to the conditions and needs of your community. He can be of great assistance to you in organizing your markets and communicating with persons best informed on market conditions.

"There is no better organization through which to work than through the Grange, and the Grange should see to it that the farmer receives a just portion of the profit to be realized from his farm. In the strongly organized Granges, the farmers market everything they have for sale and get the best prices available."

#### Help is Offered.
