

EFFORTS REWARDED—R. L. Wood and Sheldon Arnett, Richfield Oil representatives, present plaque to members of Crook County Garden Club in recognition of the club's two-year project to beautify the grounds of Crook County Library. Accepting award, are, from left, Mrs. Homer Mulkins, Mrs. Cecil McKenzie, Mrs. Earl Tucker, Mrs. Richard McKenzie and Mrs. Stanley Brown.

Landscaping of library grounds nearly finished

Landscaping of Crook County library grounds in Prineville is nearing completion through the assistance of Crook County Garden Club members.

The club members undertook the project as a two-year activity. They recently received assistance from the Richfield Oil Company, which annually grants awards to a garden club in each of Oregon's 17 districts. The awards consist of trees or shrubs, valued up to \$50, to be used for civic improvements. For their work with the library building last year, the Crook County Garden Club was designated as Richfield's winner in the Cascade district.

Committeemen in charge of the club's landscape project are Mrs. Stanley Brown, Mrs. Earl Tucker and Mrs. Homer Mulkins. Mrs. Maud Purvine, county extension agent, assisted by drafting the landscaping plans.

Friends gather for gay party

SPECIAL TO THE BULLETIN

FORT ROCK — Ten friends gathered at the home of Marilyn Ward Saturday night, for a gay party of games which included charades, followed by a treasure hunt to climax the fun.

The party coincided with the announcement that Marilyn is a candidate for Lake County's 1963 Round-Up queen. She is being sponsored by Fort Rock Grade and the Fort Rock Parent Teacher Association.

A junior at Bend Senior High School, Marilyn has two remaining weekends to practice her horsemanship skill before the June 8 tryouts at Lakeview. She has just had the cast removed from her left leg after several weeks' protection of an injured ligament.

Marilyn has been active in 4-H horsemanship for several years. In 1959 she won the junior horsemanship trophy at the Lake County fair. Her parents, Mr. and Mrs. Maurice Ward, are ranchers and both Marilyn and her sister, now Mrs. Robert Warren, have had much practical horsemanship experience as well as fun on their pinto.

The queen candidate is 16, five-foot-eight, with brown eyes and auburn hair. She lists her hobbies as riding, skating and sewing. Plans for the future include college, where she will major in home economics.

Pre-nuptial shower given

Mrs. Toby Hoffman, the former Juanita Beesley, was honored at a pre-nuptial shower party recently at the home of Mrs. Bill Kurtz in Bend. The bride is the daughter of Mr. and Mrs. Bob Beesley, Tumalo.

Spring flowers and miniature parasols were included in the decorative theme.

Mrs. Neil Davis assisted in opening the gifts. Prizes for games went to Mrs. Dayle Fissel and Mrs. Eugene Davis.

Others present in addition to the honoree and her mother, were Mrs. H. A. Scoggin, Mrs. Ted Becker, Mrs. Bill Martin, Mrs. E. W. Putnam, Mrs. Lynn Corwin, Mrs. Sid Carter, Mrs. Raymond Hoffman, Mrs. Lee Putnam, Mrs. C. M. Barnum and Mrs. Delmer Davis.

President still supports high dam on Snake

WASHINGTON (UPI) — President Kennedy still supports federal construction of the Mountain Sheep dam in the Pacific Northwest, the Federal Power Commission was told Monday.

But an attorney for the Interior Department also said construction of dams on the middle reach of the Snake River between Idaho and Oregon should be delayed until the problem of passing fish over high dams can be solved.

Harry Hogn, assistant department solicitor, said Interior Secretary Stewart Udall had talked with Kennedy about the administration stand on the project. Hogn said he was authorized to state there had been no change in the administration's position.

Kennedy promised on May 9 to take another look at the project in line with his expressed view that private industry should build the dam unless the federal government could prove federal construction was superior.

Summer Decision Likely

The full commission heard oral arguments for and against construction of the Mountain Sheep dam in a climactic all-day hearing. The commission is expected to reach a decision sometime this summer.

Most of the testimony concerned the impact of dam construction on the last remaining major salmon spawning grounds in the Salmon River.

Spokesmen for Washington, Oregon and Montana fisheries interests supported the Pacific Northwest Power Company's contention that Mountain Sheep dam above the mouth of the Salmon would have little effect on fish runs.

The Washington Public Supply System (WPPSS) is seeking permission to build the Nez Perce Dam downstream from the mouth of the Salmon.

Evelyn Cooper, a counsel for WPPSS, suggested Columbia River fish runs were doomed in any event. She said implementation of the Columbia River treaty with Canada would reduce flows over the dams and most fingerlings would be lost to pass through turbines in 10 dams. At each, she said, 8 to 10 per cent would be destroyed.

Hogan, in arguing for delay, contended that both the PNP and WPPSS were wrong in arguing that there was a "current power shortage." On the contrary, he said, there would continue to be a surplus of power until about 1972.

HAPPINESS CHAMPION

PARIS (UPI) — The newspaper Paris Jour said today "If there were a champion of happiness among the mothers of the world it seems that Mrs. Jacqueline Kennedy would be the winner."

The President's wife and two children appeared in a full color front page photograph in Paris Jour as a Mother's Day feature. Mother's Day in France is May 26.

PLANS NEWS CONFERENCE

WASHINGTON (UPI) — President Kennedy will hold a news conference at 4 p.m. Wednesday. Kennedy held his last press conference May 8.

Field geology class slated for Junior High students

Great open spaces of Central Oregon, with their rocky cabinets of fossils and their evidence of recent volcanism, will be the laboratory of a new field geology class this summer.

The summer session, believed to be the first of its kind in the region, will be limited to 30 ninth grade Junior High school students who qualify for enrollment. Wallace Wilson will be instructor.

The five-week course will consist of two field trips per week and a one-half day classroom session each week. Primary purpose of the course will be to provide opportunity for students who have shown ability and interest in geology to continue their studies, and to permit application of various geologic principles taught in the ninth grade science program.

It is also believed that the course will "encourage appreciation by better understanding the earth's geologic features," and make possible "an understanding of the necessity of preserving our points of geologic interest."

One goal of the course will be to encourage sensible and selective cataloging of specimens.

One field trip will take the youngsters to northern Lake County, to study eroded volcanic cones, wave cut terraces and beaches of ancient lakes. There will be other trips to the Summer Lake-Paisley area, the Lost Forest, Smith Rock, Paulina Peak, the Lava Cast Forest, the John Day fossil beds, Canyon City and Crater Lake.

One trip will be to the Plot Butte cave area and to Devils Garden and Derrick Cave, now being studied by lunar scientists.

Officers named by secretaries

Ivy Mawhinney, Bend, was installed as president of the Central Oregon chapter of National Association of Legal Secretaries, at a banquet recently at the Ochoa Inn, Prineville. The organization has membership in Crook, Deschutes and Jefferson counties.

Others installed are Lorin Farleigh, Redmond, vice - president; Jo Hunt, Bend, secretary, and Ann Sawyer, Bend, NALS representative.

Kay Eismann, Canyon City, was installing officer, and was presented with a gift. She was assisted in the ceremony by Louise Hamby, Bend. New officers were given corsages.

Jone Jorgensen, secretary to Circuit Judge Robert H. Foley, gave a short talk on court rules and procedure.

Tables were attractively decorated with spring flowers. Peggy Merce and Ada Copeland, Prineville, acted as hostesses.

The next meeting will be June 19, in Madras. Anyone working in the legal field is invited to attend.

CANCELS APPEARANCE

PARIS (UPI) — Composer Igor Stravinsky has canceled a planned appearance in Bergen, Norway, because he is "tired," a spokesman said here Monday.

He said a doctor advised the 80-year-old composer not to attempt the trip, which involved changing planes at both Copenhagen and Oslo.

Stravinsky arrived in Paris last Thursday after conducting a concert in Zagreb, Yugoslavia. He is scheduled to appear in London, Hamburg and Milan before returning home to Los Angeles.

Bombs explode in Montreal

MONTREAL (UPI) — Two bombs exploded Monday at the headquarters of the Royal Canadian Army Corps of Electrical and Mechanical Engineers.

The blasts were the latest in a series of bombings which have terrorized Montreal residents this month. Authorities blame the explosions of the FLQ, a fanatic political group.

No one was injured, but one of the explosions blew out at least 30 windows and damaged four cars parked near the headquarters.

First reports indicated that one of the bombs was planted in a parked car while the second was buried a few feet under the building's west wall.

The bombings came as no surprise. Police earlier expressed fear that the FLQ—the separatist Quebec Liberation Front—might use the queen's birthday holiday today to leave more of their lethal calling cards.

They called on residents to celebrate the official birthdays of Queen Elizabeth and Queen Victoria in any way but with firecrackers. Police expressed concern that exploding firecrackers might touch off false bomb reports and keep the bomb squad hopping.

Montrealers still were jumpy because of the Friday in suburban Westmount. One of the terrorist bombs injured explosives expert Sgt. Maj. Walter (Rocky) Leja, 42, when it blew up while he was trying to deactivate it.

AN EAR BITING

SAN DIEGO, Calif. (UPI)—John Ira Dwylo, 45, was placed on three years probation Monday for biting off his former wife's left ear in an argument over money.

Bayles, who pleaded guilty to a charge of mayhem, also must pay restitution to the victim, Mrs. Helen Jenks, when the amount is determined.

WETLE'S

Quick! There's an S-55 Merc.

Car-spotters don't have time for second looks. An S-55 Merc is liable to have one of those big Marauder mills up front (up to 425 horses). So fast, quick... for the S-55 emblem on the rear fender panel. Of course, if you happen to catch one standing still (extremely rare), you can tell an S-55 by its lush, leathery sports-bred interior. Very elegant (in a masculine way). And very suggestive of what happens when this car goes var-o-o-o-m.
