**Young couple honeymooning in Canada after wedding**

Elaine Catherine Lowrie and Robert Wayne Burleigh were married Sunday, June 9, at 2 p.m. at Rose City Presbyterian Church in Portland. They are honeymoon-

ing in Victoria, B.C., and will be at home in Portland next week. The bride is the daughter of Mr. and Mrs. James B. Lowrie, Portland. The bridegroom is the son of Mrs. H. L. Bortz and Robert J. Burleigh, both of Bend.

**Space program faces possible cuts next year**

WASHINGTON (UPI) — The House Space Committee will recommend cuts of nearly \$500 million in the administration's request for \$5.7 billion for the civilian space program next year.

As it now stands, the committee will approve a spending ceiling for the federal space agency of just under \$5.2 billion.

A check with the three subcommittees of the space committee today revealed that the reductions probably will range from \$488 million to \$498 million.

There is a chance the full committee will revise some of the figures, but this appears unlikely.

The space committee acts on the spending authorization. The appropriations committee must still recommend the actual amount of money to be voted by the House. The same procedure applies in the Senate, where the space committee began hearings on the authorization bill this week.

The biggest cut by the House subcommittee was made by the panel reviewing the manned space flight program. That subcommittee trimmed the \$3.7 billion manned space flight budget by \$257 million.

Most of the cuts were in the Project Apollo program, the effort to put a man on the moon by 1970, and in development of the M-1 engine, a second-stage rocket for post-moon ventures.

One subcommittee, charged with keeping an eye on NASA's applications and tracking and data acquisition, has not quite completed its review yet.

But its chairman, Rep. Ken Hechler, (D-W.Va.), said the subcommittee probably would cut between \$90 million and \$100 million from that part of the bill assigned to it.

Hechler did not detail the cuts. He would say only that the weather satellite program, which he feels has worked exceedingly well, received virtually all the money requested for it.

**Funeral rites halted for day**

VATICAN CITY (UPI) — Funeral rites for Pope John XXIII were suspended today for the feast of Corpus Christi, but church officials went ahead with preparations for the secret conclave which will elect his successor.

The nine-day funeral of the late Pope will resume Friday and go on through Monday.

The steady flow of pilgrims to Pope John's temporary tomb in the crypt of St. Peter's Basilica continued.

Preparations for the conclave to elect a new pontiff were approaching completion. The conclave area in the Vatican where the cardinals will remain until they choose his successor was being carefully sealed off from the outside world.

"Cells," or small apartments, in the conclave area around the Sistine Chapel were assigned Wednesday after the cardinals drew lots.

**Conviction of Provenzano is seen victory for Justice Department**

NEWARK, N.J. (UPI) — Asst. U.S. Atty. Richard Levin said Wednesday the conviction of Teamster leader Anthony (Tony Pro) Provenzano, was a victory for the Justice Department in its war against labor racketeers.

"The door has been opened," said the 31-year-old lawyer who served as co-counsel with Matthew Boyland in Provenzano's trial. Levin said the conviction could lead the way to the conviction of other Teamster union officials.

Provenzano was found guilty Tuesday night by a federal court jury of extorting \$17,100 from Dorn Transportation, Inc., Rensselaer, N.Y., in return for labor peace.

Levin also said he was "positive" that word did not leak to the jurors of the slaying of ex-

Marine Walter Glockner in Hoboken two days after the trial started.

Glockner, 27, a member of a rebel group within Provenzano's 14,000-member local, was to have been a witness for the government at the trial.

He was gunned down in the street as he left his home the night after attending a meeting

**ADAPTS TOO WELL**

LYON, France (UPI) — Social worker Jacques Farin won a municipal citation four months ago for his work in adapting himself to the environment of juvenile delinquents.

Farin was sentenced to three years in jail Wednesday as the leader of a teen-age gang of burglars.

of anti-Provenzano Teamsters. The killing has not been solved.

The next day, U.S. District Judge Robert Shaw ordered the jury locked up in a hotel after every session of the trial.

Levin said the U.S. marshal's office "did a superb job" of protecting the jury "from being contaminated" by news of the Glock-

**BOY DROWNS**

ALBANY (UPI) — Malcolm Rogers, 15, of Albany drowned Wednesday while swimming with a companion in the Willamette River near its junction with the Calapooya River.

His body was recovered about six hours later by a skindiver.

The boy was swimming with Wayne McClurg, also 15, when he disappeared.

**Nixon believes Goldwater now front-runner**

NEW YORK (UPI) — Former Vice President Richard M. Nixon believes that Sen. Barry M. Goldwater, R-Ariz., has eclipsed New York Gov. Nelson A. Rockefeller as the most likely candidate for the 1964 Republican presidential nomination.

Nixon's views were given Wednesday as he left Idlewild Airport with his family for a six-week vacation in Europe. They arrived this morning in Lisbon.

Nixon refused to comment on the impact of Rockefeller's recent remarriage, but said he felt that "Goldwater has gained sharply over Rockefeller in the last two months." Rockefeller married Mrs. Margaretta Murphy May 18.

**Contract award on lab made**

PORTLAND (UPI) — The Department of the Interior today announced the awarding of a \$1,851,000 contract for building a new federal fisheries laboratory, library and conference center in Seattle to the John H. Sellen Construction Co. of Seattle.

The building will be four stories high and will contain 65,000 square feet of floor space. The library-conference building will have three stories and will provide 17,000 square feet of space.

Goldwater now "has the lead," according to Nixon. The former vice president said this view was shared by "professional politicians" in the GOP. These men, he said, "have more influence on the nomination than anyone else."
