A TOUGH JOB

BOULDER, Colo. (UPI) — University of Colorado English professor J.D.A. Ogilvy, in an article dealing with "The Problems of a President," concludes:

The job of a president of a modern university "combines the attractions of a bath in a cement-mixer with those of a trip through hell in a paper shirt."

Simpson tells of retirement

Hugh E. Simpson, painting contractor here for the past 34 years, has sold his business to Raymond Stacy and today announced his plans for retirement. The sale to Stacy was effective today. Stacy lives on the Burns Star Route, just east of town, but will retain the Simpson painting firm's telephone number.

Stacy has been in Simpson's employ for the past 13 years, and he announced that he will conduct the business in much the same manner as Simpson did in his many years here. Stacy was raised in the Portland area and came to Bend in 1950.

Mr. and Mrs. Simpson have as one of their immediate objectives a trip that will take them to Arizona, Colorado and California, for a visit with relatives and friends.

Simpson came to Bend in 1929 from Durango, Colo., and purchased the paint and wall paper store long operated here by A. J. Goggans, a pioneer contractor of the area. With his wife as his assistant, Simpson operated the former Goggans plant until 1945, when he sold to Sherman - Williams. In recent years, Simpson has been operating his contracting business from his home, covering the entire Central Oregon area.

Simpson was long active in the civic and service life of Bend, and is a past exalted ruler of the Bend lodge of Elks.

The Simpson family home in Bend is at 315 East Irving.

Forest plan chamber topic

Special to The Bulletin

PRINEVILLE — The new management plan for the U.S. Forest Service will be the topic for consideration Monday, July 22, at the luncheon meeting of the Prineville Chamber of Commerce, in the Ochoco Inn.

Reporting on the new plan will be C. L. Clark, Ochoco forest supervisor, Jim Thompson and Gary Swank. They will base their report on a survey made in the past two years. The results of these findings will indicate the amount of lumber that may be cut in the Ochoco National Forest, forming a base for the much-discussed annual "allowable cut" for mills of the area, it was stated.

Ultimate results will form a base to cover a period of ten years, enabling local mills to gear production to the availability of the lumber supply from the national forest.

The Chamber of Commerce is also urging all members to use the new Zipcode number for Prineville, 97754, on their correspondence.
