Happily Ever After

That's how the stories end. But your marriage is just the beginning...the beginning of new hopes, of new plans, of a new life. Together you will decide on the kind of home you want...and together you will start to buy all the many things you need to realize your new life.

With so many products to choose from these days, it's sometimes hard to know which one is best for you... which one will give you most service and value. One of the best ways to decide is by name. If you buy a name brand in furniture or home furnishings, you know what the name stands for. Then you can be sure of getting what you have a right to expect, of what you have paid for.

A name brand means quality because the manufacturer stands behind the design, the materials, the workmanship of his merchandise.

A name brand means confidence that you have made a good investment.

A name brand means pleasure—the pleasure of buying an original and not some nameless copy...the pleasure of seeing it fit perfectly into your home...the pleasure of living with it happily—well, perhaps not ever after, but for many years.
