

NEW DODGE READY FOR DISPLAY — Over the nation on Friday, the 50th anniversary Dodges will go on display, with many models to be shown. Pictured here is the 1964 Dodge station wagon, which will be displayed in the show rooms of Eddie's Sales and Service, on Greenwood Avenue. E. W. Williamson is pictured looking over the new car.

New Dodges to be displayed here on Friday

Dodges for 1964 go on display in Bend tomorrow at the Eddie's Sales and Service display rooms, 390 Greenwood, and the showing will not be an ordinary occasion. The 1964 unveiling of the new cars marks the 50th anniversary appearance of Dodges on American roads. Pictures of the old cars, still remembered by a few Bend old timers of 1914, will be around the sales room, to provide a contrast with the 1964 Dodges.

Obviously, a few changes have been made in the past 50 years, E. W. Williamson of Eddie's Sales and Service noted. For instance, electric lights, generator and self starter are now standard equipment — and so are a lot of other things, including bright new styling, easy to care for interiors, models with standard seats, buckets or a special combination job with a flip-down center arm rest.

Also added have been a number of easy maintenance features: self-adjusting brakes, sealed suspension system, and rust protection.

"We are proud of our 1964 Dodge," members of Eddie's Sales and Service staff said, after viewing the new cars that will be unveiled here Friday morning. "Up front" this year, Dodge stables a wide choice of horsepower. There are five V-8s in all. Automatic or do it yourself action is available.

Featured this year is the Dodge 800, in a full line of cars. Also in Dodge display rooms this season is a fresh new compact, the Dodge Dart, with lots of comfort and plenty of performance.

First aid class for instructors starts Monday

A five-session course for Red Cross first aid instructors will start Monday evening, September 23, in room A-F of Bend High School. The class will meet from 7 to 10 p.m., to complete the 15 required hours.

The class will continue on Monday and Friday evenings, September 27 and 30, and October 4 and 7.

Don Peters of the Deschutes National Forest administrative staff will be the instructor. This will probably be the only instructor's course before spring, he said.

Anyone with a current advanced first aid card is eligible for the instructor's course. Active instructors who wish to take the nine-hour refresher course may do so by attending the first lesson and two of the others, to be designated later.

Persons wishing to enroll are to leave their names at the Red Cross office, telephone 382-2142.

GROWS IN VALUE
LONDON (UPI) — An 1860 gold penny was bought for \$3,360 Wednesday by an anonymous bidder at a coin sale at Glendinning and Co.

\$100,000 home is promised to thriving Fischer quint

ABERDEEN, S.D. (UPI) — The thriving Fischer quintuplets added a \$100,000 home today to their bonanza that already is worth nearly \$200,000.

And in South Dakota, that's really a lot of house.

The quintuplets themselves were "getting along good" in the fifth day of their lives. Their doctor paid them a midnight visit and said he had increased their milk formula again.

The promise of a new home was the biggest item on a growing gift list for Andrew Fischer, 33, a \$76-a-week grocery clerk, and his wife, Mary Ann, 30.

The Curtis Publishing Co. announced it had bought publication rights to pictures and stories of the Fischer family.

Live On Outskirts

The Fischers and their other five children have been living in a five-bedroom two-story stucco house two miles out of Aberdeen. Fischer also has rented some barns and a few acres so he could keep two milk cows.

Dr. James N. Berbos, the general practitioner who delivered the quintuplets, told newsmen after his midnight visit that he has not decided when Mrs. Fischer will return home. He said earlier that she was being held in the hospital because of the excitement and hectic activities that surely will surround her when she does leave.

"The quintuplets are all getting along good," he said. "Their milk

formula has been increased. The boy (James Andrew) is very hungry and is getting nearly two teaspoons of formula and some sugar water.

"Mary Catherine and Mary Margaret also are very hungry," he said. "They get a little less than a teaspoon."

Boy Most Active

E. C. Pieplow, president of the Aberdeen Chamber of Commerce and a family spokesman, said in a news conference Wednesday night that James Andrew was the most active of the five.

"He really lets you know he's a boy," Pieplow said. "He got his foot caught over a plastic partition in his isolette. It was nothing serious."

"Baby 'B' (the second-born, Mary Magdalene) turned over on her stomach of her own accord. This was a muscular feat."

Pieplow said he has had offers of land, blueprints, work, lumber and other materials and interior furnishings for the new house. It will be built to the Fischers' specifications.

Health service urges flu shots

WASHINGTON (UPI) — The U.S. Public Health Service today advised all persons in "high risk groups" to get vaccinated against influenza immediately.

Surgeon General Luther L. Terry said no widespread outbreaks of influenza, such as those of the last two years, were expected and urged inoculations for all persons who might suffer severe illness or death if they contract the disease.

Influenza is particularly dangerous to persons suffering from chronic ailments such as cardiovascular, pulmonary, renal, and metabolic disorders and to pregnant women. Persons over 45, particularly those over 65, also should be immunized, Dr. Terry said.

"Long experience proves that these groups run the greatest risk of severe illness or death if they contract influenza," he said.
