Keyed to conservation

President launches tour with salute to Gifford Pinchot

MILFORD, Pa. (UPI) — President Kennedy keynoted an 11-state tour of conservation areas today with a call for space-age Americans to discover "whole new universes" of opportunity in their own land, water and idle youth.

The Chief Executive's avowedly "non-political" five-day journey across the continent started with a salute in Pennsylvania to the Republican father of the conservation movement, Gifford Pinchot.

Kennedy's tour also will take him to nine north-central and western states where Democratic senators running for re-election in 1964 have invited him to share in the reflected glories of local natural wonders.

In his initial speech the President gave his administration credit for increasing "the pace of resource development and conservation in a variety of ways" since taking office in 1961.

"I begin today a journey to save America's natural heritage—a journey to preserve the past and protect the future," Kennedy said at the outset of remarks prepared for delivery here at his first speechmaking way-station.

Dedicates Institute

The President scheduled the stop to dedicate the 83-year-old "Grey Towers," the ancestral Pinchot home, as the Pinchot Institute for Conservation Studies. Pinchot, twice governor of Pennsylvania, served under President Theodore Roosevelt as the first chief of the U.S. Forest Service and was one of America's most renowned conservationists.

Pan Am jet hit by fire at Saigon

SAIGON, South Viet Nam (UPI) — Pan American Airways Boeing 707 jetliner with 78 persons aboard was hit by ground fire on its final approach to Saigon Airport today.

One engine was pierced by a single bullet, but the plane landed safely on three engines. No one was injured.

The huge airliner was on a regular run from Jakarta and Singapore with 68 passengers and 10 crew members when it was hit by the ground fire.

It was the first time a commercial airliner using Saigon Airport has been hit by Communist fire, although military aircraft using the airfield have been hit occasionally.

The incident was first reported by military sources and later confirmed by Pan American officials.

(Pan American officials in New York also confirmed the incident. A spokesman for Pan Am in New York said the engine had been repaired on the ground and the plane continued on to Manila.)

The incident occurred as Secretary of Defense Robert S. McNamara and Gen. Maxwell Taylor, chairman of the Joint Chiefs of Staff, were en route to Saigon on a fact-finding mission for President Kennedy.

Pan Am officials here gave this account of the shooting:

The airliner was about six miles from the airport at about 1,000 feet when the pilots noticed they had suddenly lost all oil pressure in the right inboard engine. The engine was shut off immediately, and the plane landed without mishap.

An inspection of the plane after it landed revealed that a single bullet, believed to be a .30-caliber, had pierced the engine cowling, severing three oil tubes.

The incident against the jetliner came only a day after Communist saboteurs infiltrated the key air base at Nhatrang, 200 miles north of Saigon, and blew up two Vietnamese C47 transport planes.

The airfield, which is used by U. S. troops training Vietnamese soldiers, is held under tight security guard. This was the first time the Reds had succeeded in penetrating the security ring to sabotage parked aircraft at a military airfield, military sources said. The Communists escaped. Both planes were heavily damaged, but no one was reported injured.

Secretary McNamara and Gen. Taylor were sent here by President Kennedy to find out if South Viet Nam's dispute with the Badists is harming its efforts to defeat the Communists.

Tight guard put around French leader

ORANGE France (UPI) — President Charles de Gaulle arrived in this ancient Roman city under tight security guard today for a top secret trip to see France's growing nuclear force.

It was the first stage of the President's personal appearance campaign to drum up support for the government's save-the-franc austerity program.

Defying calls by the outlawed Secret Army Organization (OAS) for a boycott of his tour, De Gaulle took off for Orange in Southern France by presidential Caravelle jet transport from Orly Airport.

He was spending the first day on a top secret visit to the atomic installations at nearby Pierrelatte and Cadarache.

Newsmen covering his tour were not to be allowed to accompany him to the two nuclear plants.

It was De Gaulle's 20th provincial swing since he returned to power in 1958. He was expected to make 18 whistle-stop speeches, climaxed by one major one at Lyon Sunday calling for massive popular support for the government's economy program which was announced Sept. 8.

Rusk delivers stern warning to Indonesians

NEW YORK (UPI) — Secretary of State Dean Rusk today warned Indonesia that continued trouble in that area over creation of the new nation of Malaysia would be against the interests of the Jakarta government.

This was understood to have been the principal point made by the secretary during a 30-minute conference with Indonesian Foreign Minister Subandrio.

The implication was that Indonesia could expect no more U. S. economic aid until it peacefully settles its difficulties with the new country.

Rusk was said to have expressed the strong interest of the United States in the prompt normalization of the situation in the South-West Pacific, where Indonesian resentment against the creation of the new member of the Commonwealth has sparked anti-British rioting, burning and looting.

Official sources said Subandrio was unable to give Rusk the assurances the United States was seeking concerning Indonesia's future course in the Malaysian dispute. Subandrio pleaded ignorance, saying he had been out of touch with affairs at home.

He said the secretary he planned to leave this afternoon for Jakarta and would keep in touch with the U. S. government after he reached his capital.

Juvenile judges, court directors and counselors, as well as welfare workers, school administrators and representatives of other agencies working with children and youth, will attend. Adjournment will be Friday at noon.

The keynote speech Wednesday will be given at 2:30 p.m. by Rodney M. Starkey, director of the Clackamas County juvenile department. A panel on policies and problems faced by community agencies will follow.

Jewell Goddard, director of the Lane County juvenile department, will be moderator. Participants will be Amos Reed, superintendent of MacLaren School for Boys; Ray Riess, State Public Welfare Commission; R. E. Jewell, Bend city school superintendent; and Ernest Gallaher, Pendleton chief of police.

The program will start Wednesday at 1 p.m. Julian A. Helleck, Roseburg, juvenile court director for Douglas County, is president of the organization. He will speak following welcoming remarks by Mayor Al Nielsen of Bend.

McDowell will be invited to appear at the hearing. He was expected to be freed from the Lafayette County Jail under bond today.

Pravda today printed a long statement by the tiny Portuguese Communist party calling for such a Communist summit. Such statements are often published here as "trial balloons" while the Soviets decide whether to adopt or discard them as official policy.

MOSCOW (UPI) — The Communist party newspaper Pravda indicated today that the Kremlin, confident of the backing of most of the world's Communists, may call an international summit meeting to debate the Sino-Soviet split.

Pravda today printed a long statement by the tiny Portuguese Communist party calling for such a Communist summit. Such statements are often published here as "trial balloons" while the Soviets decide whether to adopt or discard them as official policy.

Senate approves, 80-19

Nuclear test ban treaty ratified in historic vote

PARK READY FOR CLOSING—As Louis Hope, caretaker of the Cove Palisades State Park, puts away irrigation hose these fall days, he realizes he is doing more than a pre-winter chore: On Oct. 1, the old orchard area of the historic park will be closed for all time. Soon 200 feet of water, backed up behind Round Butte Dam, will cover the site.

Kennedy scores major legislative victory, single senator absent

WASHINGTON (UPI) — In a historic action, the Senate today ratified the treaty with Russia banning nuclear tests in the atmosphere, outer space and under water. President Kennedy called it a single but "substantial" step toward peace.

All but one of the 100 senators—the ailing Sen. Clair Engle, D-Calif.—were on hand for the 80-19 roll call vote. The margin was 14 votes more than the required two-thirds majority.

The pact does permit underground testing and the administration has pledged to push ahead in this area to maintain what experts consider the present U.S. atomic lead over the Soviet Union.

Senate galleries were jammed as the Senate started its roll call at 10:30 a.m. EDT to climax weeks of debate featuring untold thousands of words on the agreement reached between the United States, Britain and Russia after prolonged negotiation.

On the showdown, 55 Democrats joined 25 Republicans in voting for the treaty. Opposed were 11 Democrats and 8 Republicans.

At the insistence of the Joint Chiefs of Staff, the treaty included a liberal withdrawal provision. It permits the United States or any government to withdraw from the pact if it decides that "extraordinary events" related to the treaty have jeopardized its supreme interests. This allows a nation to pull out if any country tests clandestinely or conducts nuclear experiments considered harmful to its security.

Three-month withdrawal notice, Secretary of State Dean Rusk testified that the United States would drop out immediately if Russia abrogated the treaty or began testing in any prohibited area.

Amendments to the treaty must be approved by a majority of all the parties — with the United States, Britain and Russia each having a veto. An amending conference may be called, if one-third of the signatory countries desire, but is not necessary.

Rusk also made it clear that this country would not have to give diplomatic recognition to a Communist government like that of East Germany if it approved the test ban treaty. East Germany signed the pact.

With the Senate vote of "consent," the formal ratification by the executive branch is the next and final step.

Deschutes county now has 9406 registered voters, a drop of 2,211 since the poll books closed before the general election in 1962. Democrats still lead Republicans, but have lost less than one per cent of their lead.

The count that has just been completed, after registration for the special election October 15 closed a week ago, shows 5,176 Democrats, 4,217 Republicans and 93 miscellaneous. On Oct. 6, 1962, the count was 6,469 Democrats, 5,095 Republicans and 133 miscellaneous, for a total of 11,697.

Numerically, the loss was 1233 for the Democrats, 878 for the Republicans and 40 in the miscellaneous categories.

Before the poll books closed for the coming election, the county clerk's office removed some 2500 names from the list. They were persons who failed to vote in either election in 1962. Notification cards were sent.

Of the 9406 voters in the county, one is registered as a Socialist. The miscellaneous category also includes Independents, Prohibitionists, Non-partisans and others.

Oregon Juvenile Council to open three-day meet

As many as 250 persons are expected to attend a state-wide meeting of the Oregon Juvenile Council, Wednesday, Thursday and Friday in Bend. Sessions will be held at the Pilot Butte Inn.

Registration will be tomorrow from 9 a.m. to 12 noon, and is restricted to members of the organization. A fee of \$3.50 will entitle persons interested to attend any of the meetings.

Juvenile judges, court directors and counselors, as well as welfare workers, school administrators and representatives of other agencies working with children and youth, will attend. Adjournment will be Friday at noon.

The keynote speech Wednesday will be given at 2:30 p.m. by Rodney M. Starkey, director of the Clackamas County juvenile department. A panel on policies and problems faced by community agencies will follow.

Kiwanians set 'Kid's Day' film on Saturday

A free movie at the Tower Theater, starting at 1 p.m., will be a feature of the Bend Kiwanians' annual "Kids' Day" program on Saturday, September 28.

The movie program will feature "Yellowstone Kelly," a westerner, and three cartoons. There will be only one show. Doors will open at 12:30 p.m.

The movie will be for all school youngsters from the grades through junior high school.

Dr. Edgar Timm is chairman of the committee in charge for the Kiwanis Club.

Shoup successor named by JFK

WASHINGTON (UPI) — President Kennedy said today he would nominate Lt. Gen. Wallace M. Greene to be commandant of the Marine Corps when Gen. David M. Shoup's term expires Dec. 31.

Shoup has completed a four-year term as head of the Marine Corps.

White House sources said the President sought to reappoint Shoup but the commandant declined on grounds of his own health and his feeling that a change would be good for the corps.

Greene has been the Marine Corps' chief of staff in Washington since Jan. 1, 1960.

Heavy use seen in last weekend for Cove Park

It will be the final weekend of the area as a camp site.

On October 1, the park will be closed, clearing the way for the removal of facilities in advance of water backing up behind the Round Butte Dam which will cover the present camp areas to a depth of about 200 feet.

Bids for the construction of new day and night camping sites will be received by the Oregon State Highway Commission on October 2. This will be the second call for bids. All of the first bids received were well above the \$350,000 available for the work, and were rejected.

Portland General Electric will pay the cost of the developing of the new sites.

The coming weekend is expected to be a time of heavy visitation to the park, especially by old timers who recall the area when the site was known as the "fruit basket of Central Oregon."

Even this past weekend, Louis Hope, supervisor of the park reports, there was heavy use of the park. Persons planning on visiting the park over the weekend are advised that they will find the road somewhat rough in the areas below the high waterline of the lake that will soon form there.

But all camping facilities will be available until the end of the month.

Members of the park area staff are already busy getting things in shape for the evacuation of the area, from which buildings and other facilities will be removed.

No. 5 on way? Fourth baby elephant born in Portland

PORTLAND, Ore. (UPI) — The Portland zoo today produced its fourth baby elephant in a little over 17 months and it was hinted another one may be on the way.

The baby girl born at 5:03 a.m. PDT to Tuy Hoa (Tee-Wah) also was only the fourth elephant born in this country in more than 44 years.

It was the second elephant birth here in just nine days. A still-unnamed boy elephant was born

to Pat Sept. 15.

The zoo now has produced two baby boys and two baby girl elephants.

One of the boy elephants made history April 14, 1962, by becoming the first pachyderm born in this country since 1918. This one, named Packy, now is a playful young bull who is learning tricks.

Jack Marks, the zoo director who fainted from exhaustion after Packy was born last year, wasn't here today. He was attending a convention in Washington, D.C.

The father of all four baby elephants is Thonglow, who was being kept separated from the rest of the zoo's herd.

Before Packy was born the last recorded elephant birth in this country was at Salt Lake City on April 29, 1918. The baby died after its mother refused to nurse it.

DOW JONES AVERAGES

By United Press International
Dow Jones final stock averages:
30 Industrials 745.96, up 5.53; 20 Railroads 172.56, up 0.49; 15 Utilities 141.92, off 0.14, and 65 stocks 263.70, up 1.25.
Sales today were about 5.52 million shares compared with 5.14 million shares Monday.
