

BEND AWARDED SAFETY PLAQUE—The City of Bend is the recipient of a safety plaque, in recognition of another year of no fatal pedestrian traffic accidents. At left is Chief Emil Moen, who accepted the plaque from Frank H. Loggan, right, a director of the Oregon State Motor Association, and Art Paul, standing, representative of the Bend AAA office.

### Wilson rips new prime minister for delaying parliament session

LONDON (UPI) — Opposition Labor Party Leader Harold Wilson today accused Prime Minister Sir Alec Douglas-Home of "arrogance" in postponing the next session of Parliament and charged he was trying to "de-Stalinize" his Conservative party's political record.

Wilson, launching his first major offensive against Douglas-Home's government, leveled the charge during an extraordinary House of Commons debate while Parliament met to end its current session.

## 90-pound woman gives birth to quads in New York

NEW YORK (UPI) — New York's contribution to the population explosion, a set of quadruplets born to a grade school teacher and her attorney husband, were reported in "satisfactory" condition today.

The petite, 90-pound mother of the three girls and one boy, 27-year-old Mrs. Rhoda Brecker was "doing fine" following the multiple delivery by Cesarean section.

A spokesman at Columbia-Presbyterian Medical Center said the quad's proud father, Martin Brecker had not yet decided on names for the couple's first-born, now known as 1, 2, 3 and 4.

The quads, weighing a total of 13½ pounds were born Wednesday night between 6:32 and 6:35 p.m. (EDT). They were placed in incubators but only as a precautionary measure, according to an hospital spokesman. They are expected to be kept in incubators for a few days at least.

The infants arrived on their due date but their parents, who

had been advised to expect "more than one," were shocked when the number hit four.

But the father, whose family grew from two to six in a matter of four minutes, rose to the occasion.

"It's magnificent. It's a wonderful blessing," he said. He added that he and his wife looked forward to having more children to keep the quads company.

The first born, a girl, weighed a flat four pounds. The boy, second born, was two

pounds, 15 ounces and the two other girls weighed three pounds, 11 ounces and two pounds, 12 ounces.

Odds against having quads range from once in 680,000 births to once in a million.
