Diabetes week nears climax

Bend's observation of National Diabetes Week moved toward its climax today, with the local committee in charge urging every resident of the community to respond to the campaign for diabetes testing. Objective of the committee primarily centers in detection.

An effort is being made to inform everyone about the symptoms of diabetes and to persuade those whose tests for diabetes are positive to seek medical care as soon as possible.

Diabetes can be dangerous if not diagnosed and brought under control, Dr. Robert L. Cutter and C. D. (Bud) Rose, co-chairmen of the local campaign, pointed out. They said diabetes can lead to serious complications, including heart conditions, eye troubles, kidney disorders, hardening of the arteries and gangrene.

Diabetes, it was pointed out, can be controlled by planned diet, exercises, and, in many cases, insulin or oral medication. Most likely candidates for diabetes are overweight persons past the age of 40, particu-

TV-CABLE SUBSCRIBERS

you can have MORE and BETTER TV!

Your TV-cable company has proposed a small increase in the monthly service charge, on the basis of which it can finance a major IMPROVEMENT in your service, ADDITION of more channels, and the immediate extension of FM-radio signals to all parts of the cable system. THE ENTIRE AMOUNT of the increase will be used for these purposes. It is all FOR YOU — none of it goes to the cable owners.

Your City Commission very properly wants to know whether you approve.

If you fully appreciate what your cable company has in mind, you will feel — as people do in many other U. S. communities — that it is a small price for a greatly EXPANDED and BETTER television service.

Study the following, before you decide.

WHAT IT WILL MEAN TO YOU

- 90 hours MORE of programs PER WEEK to choose from.
- CHOICE of 20 ADDITIONAL movies PER WEEK to choose among.
- SEVEN CHANNELS of TV — as many as any city in Oregon — plus provision for more channels as they go on the air.
- Special programming on KEZI-TV to serve the Bend area — Bachelor Butte ski news, special coverage of the Water Festival, local Bend news coverage, etc.
- IMPROVED SIGNALS (several methods are being studied, to find the best method of avoiding fades, interference, and other erratic behavior of signals at the present antenna site.)
- Replacement of almost all of the present amplifiers with new models, to greatly reduce electronic troubles.
- Building of an almost completely new trunk (main) line, using newly developed cables that will greatly reduce picture deterioration and other cable troubles.
- Extension of FM-radio signals to all parts of town.
- Conversion of one FM signal to a TV channel, so you can have FM music without an FM set.
