

## Fulbright urges rejection of bill to restrict trade

WASHINGTON (UPI)—Sen. J. William Fulbright, D-Ark., said today the United States would become an outcast in the free world if Congress restricted trade of non-strategic materials with Russia.

Fulbright urged the Senate Banking Committee to reject a bill to prevent the government from underwriting credit terms for purchase of American wheat by the Soviet Union and Communist bloc satellites.

Treasury Secretary C. Douglas Dillon told the committee Wednesday it was virtually certain the Russians would refuse to buy wheat here if Congress adopts the bill proposed by Sen. Karl E. Mundt. Sentiment on the committee has appeared to favor the bill.

"It is clear," Fulbright testified today, "that our virtual embargo on non-strategic trade with Communist countries has become self-defeating."

Meanwhile, Sen. Hugh Scott, R-Pa., attacked the whole plan to sell grain to the Russians, and endorsed the Mundt bill.

Scott called the wheat proposal the latest "in the current trend of one-way concessions to the Soviets."

But Fulbright, chairman of the Senate Foreign Relations Committee, said "if we follow the policy suggested by (Mundt), we are going to find ourselves increasingly isolated, not from the Russians but from our friends."

He added: "We may, indeed, find ourselves in the same position in the free world in which the Chinese find themselves in the Communist world. We and the Chinese will be outcasts, splendid in our isolated devotion to pure dogma."

## Rights bill clears hurdle

WASHINGTON (UPI)—The civil rights bill, still beset by disagreement among both friends and enemies, today moved one more notch up the legislative ladder.

The bill aimed at eliminating racial discrimination in voting, education, employment, use of federal funds and public accommodations was formally reported by the House Judiciary Committee Wednesday just before the House adjourned.

The sweeping bipartisan measure was approved Oct. 29, but it took three weeks for supporters and opponents to get their arguments down on paper for submission to the House in a report.

The next step for the bill is clearance by the House Rules Committee. That process is expected to take so long that the measure will not be considered on the House floor before the first session of the 88th Congress ends next month.

## Wall Street buzzes over AT & T move

NEW YORK (UPI)—American Telephone & Telegraph Corp., one of the nation's most widely held "blue chip" stocks, was the talk of Wall Street today.

Shortly after noon Wednesday, AT&T sent a surge through the "street" with the announcement that it would split its common stock on a two-for-one basis next June and was increasing its quarterly dividend from 90 cents to \$1 per share next April.

AT&T reached an all-time high of 140 a share shortly before the market closed and leveled off at 139 1/2 at the close. It pulled other stocks with it and the Dow Jones industrial average closed up 5.41.

The directors of the corporation also announced plans to make a large new offering of stock to shareholders of record next Feb. 18.

A check of the records shows that the company paid the same \$9 annual dividend from 1922 until 1958, a period punctuated by a depression and a world war without once slipping, despite the fact the earnings were sometimes below the amount paid in dividends.

Prior to 1922, it paid a dividend of \$7.50 a year from 1900 to 1905, then boosted payments to \$8 in 1906 and held there until 1920. The rate was raised to \$8.50 in 1921 and then to \$9 in 1922 where it remained until 1959 when it was changed to the equivalent of \$9.90 a share on July 10. After a three-for-one split, the dividend was raised to \$3.60 per share each year where it has remained until the latest action.

JFK SIGNS BILL  
WASHINGTON (UPI)—President Kennedy signed a bill Wednesday authorizing the striking of medals in commemoration of the 150th anniversary of Indiana's entry into the Union.

## Wallendas back on high wire

FORT WORTH (UPI)—The audience fell silent; the aging man barked commands, and the "Flying Wallendas" defied death again in their famous "human pyramid."

Twice Wednesday seven members of the German troupe mounted the high wire and piled gingerly atop each other until the three-level stunt was completed. They plan 21 performances here.

The pyramid crumbled just 22 months ago in Detroit and two Wallendas were killed. A safety net hangs mutely beneath the performers here—a new innovation.

The Wallendas' act was originated by Karl, 58, in 1954 in Germany. After the Detroit tragedy, the performers fell during rehearsals at Sarasota, Fla. During a runthrough here Tuesday night, someone accidentally switched off the lights while they were on the wire. The Wallendas froze.

The lights were quickly restored, and the aerialists climbed down from their 26-foot high perch.

Karl said the "human pyramid" will be discarded after this circus.

## Medical group aims resolution at cigarettes

PORTLAND (UPI)—The Oregon Society of Internal Medicine came out against cigarette smoking and cigarette advertising in a hard-hitting resolution Wednesday.

The society recommended that its members "not only counsel their own patients on the dangers of cigarette smoking as regards heart and lung disease, but speak out in their communities to clear away the smoke screen of confusion and rationalization."

Persons who stop smoking now cut their chance of getting lung cancer in half, the society said, and added that cigar and pipe smokers who do not inhale have much less chance of getting the disease.

The society is composed of about 170 specialists in internal medicine, including lung ailments.

## Oregon escapee taken in Texas

SALEM (UPI)—George Frederick Siefer, 20-year-old Oregon State penitentiary escapee who led police on a chase through the rugged mountain area near Scotts Mills two months ago, was captured at Houston, Tex., today, police reported.

been living there under an assumed name.

Siefer, serving a five-year term for burglary from Multnomah County, fled the penitentiary annex Aug. 30.
