Man questioned in death of Salem woman

SALEM (UPI)—A 22-year-old Brooks man was being questioned today in connection with the death of an 18-year-old Salem woman here early today. Polk County Sheriff's deputy Lee Edwards said the death was "apparently accidental."

The body of Mrs. Joyce Lee Thomas, Salem, and her unconscious male companion were discovered in a car parked in Wallace Park, just outside the Salem city limits, at 4:15 a.m. The car was discovered by Edwards on a routine patrol. The man, whom Edwards did not identify, was taken to a Salem hospital for treatment. Edwards said the pair "had been in the car some time with the motor running."

Polk County Sheriff Virgil Taylor said the girl was nude. He listed the probable cause of death as asphyxiation, but would not elaborate. He said the victim was the daughter of Mr. and Mrs. Donald G. Schwab of Salem. He would not give the name of the man being held. The sheriff said only that he was being detained "pending investigation."

There were no marks on the body of the attractive brunette. The girl's body was draped across the front seat of the car when it was discovered.

Fire tips offered by department

Here are a few tips suggested by the Bend Fire Department as preventative against home fires during the risky Christmas season:

Do not place electric lights on metal trees. This not only presents a potential fire hazard, but a possibility of electric shock.

A wood Christmas tree should be brought indoors just before Christmas and taken out as soon afterwards as possible. (December 26 is recommended).

Place the freshly-cut tree trunk in water and keep water level above the cut the entire time the tree is indoors. Check the water level every day for absorption and evaporation.

Keep trees well away from fireplaces, radiators, candles and other sources of heat.

Check lighting sets each year before using, for frayed wires, loose connections and broken sockets. And don't plug too

many cords into one outlet. Don't let Christmas wrappings accumulate in the house; place them in your room, covered barrel or burn them in your incinerator as soon as possible.

Do not leave children unattended within reach of the tree or lighting.

Above all, do not place a tree near an exit. If fire breaks out, it may block your exit from the house.
