all about...
BY JAY BOBBIN
Laurie METCALF

Laura Elizabeth "Laurie" Metcalf was born on June 16, 1955, in Carbondale, Ill. The eldest of three siblings, she is the great-niece of playwright Zoe Akins. Initially a major in German at Illinois State University, she switched to theatre, but had doubts that it would yield a steady career for her.

In college, Metcalf became acquainted with fellow theater students John Malkovich, Joan Allen, Terry Kinney, Glenna Headly and Metcalf's eventual first husband, Jeff Perry. She then became a charter member of Chicago's renowned Steppenwolf Theatre Company, which Perry and Kinney founded with Gary Sinise.

Metcalf began her New York stage career in an Off-Broadway Steppenwolf production that earned her Obie and Theatre World awards, and other plays she appeared in there included revivals of Neil Simon's "Brighton Beach Memoirs" and "Broadway Bound." She won another Obie and a Lucille Lortel Award for "The Other Place," and when it moved from Off-Broadway to Broadway, she

starred in it with daughter Zoe Perry ("Young Sheldon").

Tony Awards in consecutive years were given to Metcalf for her work in "A Doll's House, Part 2" and "Three Tall Women." She also earned Tony nominations for "Misery" and "Hillary and Clinton."

Among Metcalf's many movies have been "Desperately Seeking Susan," "Internal Affairs," "Uncle Buck," the four "Toy Story" films, "Runaway Bride," "Bulworth," the remake of "Fun With Dick and Jane," "Leaving Las Vegas," "Scream 2" and "Lady Bird" ... the latter garnering nominations for her for various awards including an Oscar.

Though her television credits also include "Saturday Night Live" (for only one episode as a featured player), "The Norm Show," "Desperate Housewives" and "Getting On," Metcalf arguably is most famous for playing Jackie Harris, first on "Roseanne" - for which she received three consecutive Primetime Emmy Awards - and currently on the ABC spinoff "The Conners," which earned her another Emmy nomination.

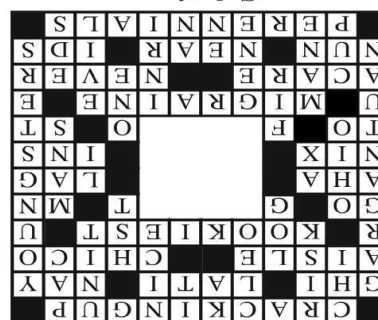

The solution to the question is found within the answers in the puzzle. In order to discover this hidden solution, unscramble the letters noted with asterisks within the puzzle.

ACROSS

1. Laughing riotously (2)
9. File drawer, perhaps
10. Part of the scale (2)
