WORLD CUP SKIING ROUNDUP

Swiss skier Gut-Behrami wins 3rd straight women's super-G

The Associated Press

GARMISCH-PARTEN-KIRCHEN, Germany — Lara Gut-Behrami won her third straight World Cup super-G on Saturday, 10 days before the world championship race in the discipline.

The Swiss skier confirmed her dominance with another clear victory, a week after she won her home race in Crans Montana by 0.93 seconds.

On Saturday, Kajsa Vickhoff Lie trailed by 0.68 in second podium result, and Marie-Mi-chele Gagnon came 0.93 behind in third.

The Canadian, wearing bib No. 29, bumped Sofia Goggia off the podium. The Italian, who is on a four-race winning streak in downhill, finished fourth, ahead of Austria's Christine Scheyer and Olympic super-G champion Ester Ledecka.

Overall leader Petra Vlhova finished 10th, and the Slovakian skier saw her advantage over Gut-Behrami in the season standings reduced to 62 points.

"A few months ago, people asked me if I was still able to win a race at all. Now people start talking about the (overall) World Cup. It shows how fast things can change in sport," said Gut-Behrami, who had not won a race between 2018 and 2020.

'For me it's important that I keep my level of skiing, that I can be fast like today and en-

joy it."
Several racers were sitting out the races in Germany in order to prepare for the worlds in Italy, most notably Mikaela Shiffrin and Michelle Gisin.

Shiffrin, who won the super-G world title in 2019, has not competed in a speed race for over a year. She had a

10-month break from racing in 2020 and only just resumed training in super-G.

American Laurenne Ross, of Bend, participated but did not finish.

The race was initially sched-

uled as a downhill, but bad weather wiped out both training sessions this week. A downhill race can only take place after the athletes had at least one training run on the

Another super-G had already been scheduled for Sunday, the last women's World Cup event before the Feb. 8-21 world championships in Cortina d'Ampezzo. Also Saturday:

Noël gets 1st victory in a year on home snow: CHAM-ONIX, France — Clément Noël got his first World Cup win in a year, triumphing on home snow in the penultimate slalom before the world championships.

slaloms in each of the last two seasons but had been waiting for another victory since prevailing in Chamonix in February.

Returning to the same course Saturday, Noël improved from third position after the opening leg as the top two lost time in similar mistakes halfway through their final runs.

On a course softened by persistent rain, first-run leader Marco Schwarz dropped to third, 0.19 seconds behind Noël, while Ramon Zenhäusern remained in second and trailed by 0.16.

"It was pretty difficult. There were lots of bumps, lots of ruts. I'm usually not so good in that type of condition," said Noël, adding he regretted his home race was without spectators amid anti-coronavirus measures.

'I'm just really, really happy to win this race today. It's sad we have nobody to celebrate this with us but this was a cool moment."

Zenhäusern's Swiss teammate Luca Aerni posted the fastest time in the final run and climbed from 29th position to fourth.

The result marked Noël's seventh career win in his fifth season on the World Cup tour.

Star

Continued from B1

It's audacious talk for a teenager who has been doing this at the highest level for just a bit more than two years, and who was making her X Games debut this year. She also won bronze in big air on Friday night and will leave Aspen as the first woman to earn three X Games medals as a rookie.

But for most of her 17 years, Gu has been thinking big and succeeding at almost everything she's tried.

Her side job is modeling. Becoming a regular at fashion weeks in Paris and New York, she's been all over the pages of Chinese versions of Vogue and Harper's and Elle, and has more high-profile shoots set for later

this year with American magazines. "I love the sound of camera shutters," she said.

She's an accomplished piano player — you can find some of that on YouTube — an avid runner who headlined her high school team's second-place finish at state championships. She graduated from the rigorous San Francisco University High School in three years and is enrolled at Stanford, where she'll start in 2022.

"And," she says, "I like to hang out with my friends, because I'm a teenager, and that's important, too."

Ŝhe says she was able to bring some semblance of normalcy to her high-achieving childhood because she grew up in the nonski-mecca of San Francisco. She'd get invited to parties over

the weekend and tell friends sorry, but she was going skiing.

"They would pretty much be, 'Skiing, OK, whatever," she said. "I think a lot of them still think I'm a ski racer, not in freestyle."

Eileen says her mom didn't really know what "freestyle" was, or that the high-flying flips above the halfpipe and slopestyle kickers could be every bit as treacherous as tearing straight down the ski slopes. But Yan signed Eileen up, and thus began a journey that feels destined to make a career-defining stop in the mountains above Beijing next February.

It was in those early days that Gu faced what any talented girl encounters when entering a realm dominated by boys.

"It wasn't until I was 14 that I

had any female ski friends who were my level," she said. "So, I was constantly thinking, 'Do I have to prove myself? I'm the only girl here. Do I have to do a bigger trick? Do I have to make myself seem better so people

won't laugh at women's skiing?"
Regarding another thorny issue, Gu says she's not naive about some of the hate she receives on her burgeoning social media accounts for choosing China over the U.S. for her ski career.

"Difficult' is the wrong word, but she weighed everything very heavily," said her agent, Tom Yaps.

Gu, who comes off as savvy as athletes twice her age, seems to grasp the weight of what she's doing. That was her doing the voiceover on an Adidas ad

about women's empowerment, reading from a seventh-grade essay she wrote about America's Title IX law, which was written to protect women from discrimination in college sports. Recently, Yaps said, Gu received a request to record a video for an upcoming diplomacy summit about improving China-U.S. relations.

'Things like that are literally the reason she's doing this," Yaps said.

Asked what she wanted her message to be as she embarks on a whirlwind year that figures to land her on a mountain in her other home country. Gu said she'd love to see more girls in China think about opportunities they didn't know existed. She'd like to see a lot more people like her on the mountain — maybe one or two of them pushing her for a gold medal someday.

"Change is made from the bottom up," she said. "All of us were little girls surrounded for the first time by people we were scared of in the beginning. But I just want to see more people out there."
