My argument that voter suppression is cheating, but cheating to stop cheating, and thus a wash, morally, is what made my wife blow milk out her nose today.

Props to Dems for figuring out how to cheat on just top of ballot, letting many GOP candidates win to avoid suspicion. Didn't get greedy, showed discipline.

Trump's blunder? Telling mob, "I'll be there!" Base still mad he wasn't. True, wasn't dressed for riot, but have to call out claim for what it was -- misleading.

Trump got bad rap on GA. He only asked for 11k votes, not the 100,000s he won by. Raffensperger rebuffed compromise in show of extremist integrity.

I miss a POTUS on duty 24/7. While nation was asleep, Trump was calling out her enemies. Could start day knowing libs had already been owned!

Trump was only candidate ever endorsed by the Taliban, the highly respected terrorist group. Can never take that away from him! #NoblePeaceCup
