Intel

Continued from A11

'We have righted this ship," he said. "Seven-nanometer is on a good course."

Even more significant Tuesday was Gelsinger's plan to start making other companies' chips in Intel's own factories. Contract in the chip industry as foundry work, is dominated by two Asian companies

- Taiwan Semiconductor Manufacturing Co. and Samsung.

As those companies edged past Intel's own production capabilities, Intel rivals NVIDIA, AMD and others have been able to use those Asian foundries to make chips more ad-

vanced than Intel's. Apple, too, is shifting away from Intel processors in its Mac computers in favor of chips made in Taiwan.

Intel now wants a share of that business, too. Gelsinger said Tuesday that he will seek foundry contracts with Qualcomm, Apple and others.

Intel made a similar push in 2013, and it was a big flop. The company landed only one notable foundry customer, Altera, and ultimately bought that business itself.

"Our first efforts were somewhat weak. We learned a lot from them, but we didn't really throw ourselves behind them," Gelsinger conceded Tuesday. "We are going after this much more aggressively."

Hawaii

Continued from A11

"Pushing back against tourism is the same thing as telling your neighbor they shouldn't have a job," said Carl Bonham, executive director of the University of Hawaii's Economic Research Organization.

Hawaii requires all visitors and returning residents to get negative pre-travel COVID-19 tests before flying to the state to be exempt from the 10-day quarantine rule.

The island of Kauai has additional measures that will be in place until April 5. All visitors to Kauai must either spend three days on another island or quarantine at a county-approved resort for three days and then get second, post-arrival

tests. Violating the state's coronavirus mandates, which are outlined in Hawaii Gov. David Ige's latest emergency proclamation, is a misdemeanor that is punishable by up to a \$5,000 fine, a year in prison, or both.

'These banners provide a tool to help Honolulu Police officers do their jobs in gaining compliance with COVID-19 rules," Sakahara said. "The majority of residents and visitors are compliant with the rule or are cooperative when informed

Mail

Continued from A11

Rep. Gerald E. Connolly said the strategy "guarantees the death spiral of the United States Postal Service."

Mark Dimondstein, president of the American Postal Workers Union, said the plan included some positive elements but urged the agency to prioritize on-time deliveries and other service

standards.

"Any proposals that would either slow the mail, reduce access to post offices, or further pursue the failed strategy of plant consolidation will need to be addressed," he said in a

Theaters

Continued from A11

Will state grants be enough to keep some struggling local theaters afloat? Absolutely, says Tom Ranieri, owner of Portland's Cinema 21. "Basically it was a wipe-out year," he said. "Getting that money, if it comes, we feel like it would be a lifeline for us. It could help stop the flow of red ink and hopefully let us make it to the other side of this."

Drew Kaza, owner of Sisters Movie House in Central Oregon, sees hope in the legislation. He doesn't like the look of small theaters' future in the state without financial assistance.

We're on the brink of dying," Kaza said. "If we don't want to see movie theaters become extinct in this state, we need to do something to help them."

Even if state grants are provided, both Ranieri and Kaza said the next few months could be a wild ride for independent theater owners because of limited first-run film releases and competition from streaming services.

"I really think we're going to have a rough patch between April and September since nobody knows what's going on," Ranieri said. "We're going to take baby steps to return to some sort of normalcy."

Fees stay the same

It's been more than a year since Gov. Kate Brown signed executive orders 20-08 and 20-12 as part of COVID-19 safety measures. The or-

ders effectively shut down indoor movie theaters, live theaters, restaurants, bars, pubs, gyms, barber shops and similar businesses. Some restaurants and pubs were able stay afloat by offering takeout food but no indoor

Movie theaters, especially small independent theaters, weren't so lucky. Unless they could sell popcorn, candy and soft drinks through the front

doors, they weren't operating.
It didn't sit well with many theater owners as they watched nearby restaurants and pubs reopen with limited indoor seating.

"My business wasn't allowed to operate even when restaurants and other businesses were," said Jeff Martin, owner of Tigard's Joy Cinema. "The Joy Cinema was, in fact, the only business on our stretch of (Highway) 99W that was ordered to not operate by the state through the entire course of the lockdown. Yet my fees to the state, city and county have remained the same as always."

Newberg's 350-seat Cameo Theatre wasn't able to show movies, but owner Brian Francis sold concessions on weekends to make a little money. Francis also operated the 99W Drive-in Theater with about 50% capacity, which helped keep his compa-

ny's head above water. That little bit of revenue won't be enough for his two theaters to survive, Francis said. "We would be very much in favor of this bill," he said. "For example, our downtown indoor

Art Deco Cameo Theatre, through all of the periodic openings and closures, managed to attract about 3,400 paid admissions in 2020, which was down a shocking 14,050 admissions over

Other theater owners tell a similar story. Kaza's four-screen, 315seat Sisters Movie House, which includes a small café, has seen its revenue drop between 70% and 95% in the past year. Ranieri's Cinema 21, which expanded seven years ago to three screens and about 600 seats, was able to host private showings through part of 2020, but that ended in mid-November and didn't bring in enough revenue to keep the doors open. He hopes to continue private screenings through March and reopen to the public in late April, in time for the summer movie season

and the Oscars.

Bruce Humphrey, whose Destiny Entertainment Corp. owns theaters in The Dalles and Hermiston, said his revenue for most of 2020 dropped 90% compared with 2019. The theaters' drive-up popcorn sales were their only source of revenue for months.

William McElderry of Skylight Entertainment Inc., owner of the Hood River Cinemas, said his revenue dropped about 97% last year. "All our theater employees are gone," McElderry said in testimony submitted for the committee hearing. "We have no guarantee that 'normal operations' will return anytime soon. The goalpost has moved so many times that we really have no clear picture when, or even if, we can open and cover costs, let alone make a profit."

Federal funds for some

issues."

HB 3376's possible grants aren't the only source of funds that local theater owners could tap. Federal and state programs adopted last year offered millions in funds for small businesses like indoor movie theaters.

The \$349 billion Paycheck Protection Plan included in the March 2020 Coronavirus Aid, Relief and Economic Security Act, provided funds to keep small-business employees on the payroll. In mid-July 2020, Oregon lawmakers allocated \$50 million of the federal funds to theater venues and other cultural groups. Indoor movie theaters weren't included in the program.

Ranieri and Kaza said the Paycheck Protection Plan funds didn't offer much help to independent movie theaters because they usually don't have big payrolls. "Unlike restaurants, we don't have a high number of employees," Kaza said. "But we still have fixed costs."

In the amended federal coronavirus relief act, adopted in early March, independent indoor movie theaters could be in line for part of the \$16.25 billion Shuttered Venue Operators Grant program.

Applications for the program should be available beginning April 8 through the U.S. Small Business Administration. Indoor movie theaters forced to close during the pandemic could be eligible for grants of up to 45% of their gross 2019 revenue through the program.
