## **COLLEGE SPORTS**

# Bill would compensate Oregon athletes for use of name, image, likeness

**BY JAMES CREPEA** 

Park City Mountain, U7

Sun Valley, ID

The Oregonian The latest proposed state legislation to permit college athletes in Oregon to be compensated for their name, image and likeness was scheduled for its first

public hearing Thursday afternoon.
Although the University of Oregon and Oregon State University are supportive of athletes being able to profit from what's known as their NIL, the schools are opposed to the bill, which also calls for "royalty payments to each student athlete who is a current member of the team" related to an athletic department's merchandising

and apparel agreements. Senate Bill 5, sponsored by Sens. Peter Courtney, D-Salem, and James Manning Jr., D-Eugene, would allow college athletes in the state to earn compensation for use of their name, image or likeness and to retain representation related to those opportunities so long as their agent didn't represent the school in the prior four years. It would not allow athletes to enter into contracts that conflict with "team rules" or contracts between the athletes' school and third parties that pertain to when an athlete is engaged in official team activities (i.e., conflicting apparel providers while playing), and would require "royalty payments

to current members of team" from a school's merchandise and apparel deals and "royalty payments plus premium to current or former member of team whose name, image or likeness is used."

If passed, the bill would go into ef fect immediately, with Oregon college athletes able to earn NIL compensation beginning July 1, the same day that numerous similar laws are set to go into effect in a growing number of other states.

Courtney, the Oregon Senate President, crafted the proposed legislation and made it clear his intention is for all athletes on college teams to be able to earn a share of the apparel deals, which is the unique and controversial aspect of the bill compared to those in other states.

"You have to start with the student-athlete and end with the student-athlete or you're not going to make any movement here," Courtney said. "That's why the NCAA is bogged down because these big institutions, if you start up there, you're not going to get there.

"I have long felt ... that this is an abomination."

Manning, whose district includes the University of Oregon, views the issue in terms of equity and equality for

"You have to start with the studentathlete and end with the studentathlete or you're not going to make any movement here. That's why the NCAA is bogged down because these big institutions, if you start up there, you're not going to get there. I have long felt ... that this is an abomination."

#### — Peter Courtney, D-Salem, **Oregon Senate President**

all athletes, particularly those who are minorities and women. He cited how former Ducks women's basketball star Sabrina Ionescu, now with the New York Liberty, was not able to profit from her name, image or likeness during her college career.

"They're still using her likeness and her image; it's directly tied towards U of O," Manning said. "She's not bene-fiting from that at all but the university certainly is. ... These students are being taken advantage of and there's no compensation."

Both UO and OSU support the overarching issue of college athletes being compensated for their NIL, an issue being addressed by a growing number of state Legislatures, Congress and the NCAA. Oregon Sen. Ron Wyden is among the co-sponsors of the College Athlete Bill of Rights in

But both UO and OSU are opposed to Senate Bill 5 in its current form.

"The University of Oregon supports the ability of its student-athletes to benefit from the use of their name, image and likeness," the university said in a statement to The Oregonian/ OregonLive. "Our interest lies in making this a reality in the most efficient way possible, and one that best serves all student-athletes. We believe a national solution is the best approach that would support student-athletes equitably regardless of the institution or league for which they compete. We are working with the Pac-12, other conferences, and members of Congress to accomplish this goal.'

The royalty payments from apparel contracts in the proposed legislation are what differentiates Senate Bill 5 from similar bills and laws across the country.

Courtney said he's confident that, if the bill passes, schools in the state, apparel providers like Nike, which has contracts with both UO and OSU, and the Higher Education Coordinating Commission would be able to "figure out how to do it in a very fair and meaningful way and a in way that really can promote themselves and promote students" for what would be college athletics.

But the lack of specificity regarding this aspect of the proposed legislation is concerning to UO and OSU.

"Royalty language in the bill is vague and makes it difficult to assess how the legislation would actually be implemented, or what would be the impacts on athletic departments, including non-revenue generating sports and Title IX requirements," OSU acting president Edward Feser said in a statement.

OSU athletic director Scott Barnes said the school "enthusiastically supports" its athletes being able to benefit from their NIL and "the OSU Athletic Department is well-positioned to assist student-athletes in maximizing opportunities that result from state or national legislation."

A request for comment from UO athletic director Rob Mullens was referred to the university's statement.

Nike did not immediately return a request for comment regarding the proposed bill.

## **Masters**

## **Continued from B3**

Twice a runner-up, including a playoff loss to Sergio Garcia four years ago, Rose tied a Masters record by taking at least a share of first-round lead for the fourth time. The other to do that was Jack Nicklaus. The difference? Nicklaus went on to win two of his six green jackets from that po-

Rose likes to say he's only had one arm in the jacket.

Brian Harman, the last player to get into the 88-man field, and Hideki Matsuyama were wrapping up their rounds of 69 about the time Rose began on a course that was dry and crusty, on greens that were so fast

there were splotches of brown.
Among those at 70 were former Masters champion Patrick Reed and Masters newcomer Will Zalatoris. Jordan Spieth overcame a triple bogey from the trees on No. 9 for a 71.Defending champion Dustin Johnson,

Bryson DeChambeau yawns as he waits to putt on the 16th hole during the first round of the Masters on Thursday in Augusta, Georgia.

who set the record last year at 20-under 268, failed to break par for the first time since the opening round in 2018. He three-putted for double bogey on the 18th for a 74.

"I feel sorry for the guys' first Masters in November, and then they're walking out there today wondering what the hell is going on," Kevin Kisner said after a hard-earned 72.

This was no surprise. Augusta National has not had rain in more than a week, and players could not recall the last time greens were this fast.

"It's my 10th year, but I've never seen the greens so firm and fast," Matsuyama said. "So it was like a new course for me playing today, and I was fortunate to get around it well."

And what to say of Rose? Even in

more forgiving conditions, he had never done better than 67.

"I didn't feel like today was the day for a 65, if I'm honest," Rose said.

No one needed convincing, least of all Bryson DeChambeau and Rory McIlroy, among top players who struggled with the wind and had just as many problems when the ball was on the ground.

DeChambeau, the U.S. Open champion who has been licking his chops about bringing his super-sized game to Augusta National, didn't make a birdie until the 15th hole and shot 76, his highest score as a pro at the Masters. Patrick Cantlay hit into

the water on both par 3s on the back nine and shot 79.

"Guys are going to shoot themselves out of the golf tournament on day one," Webb Simpson said after a late double bogey forced him to settle for a 70.

McIlroy, needing a green jacket to complete the career Grand Slam, hit his father with a shot on the seventh hole. That was about the most interesting moment in his round of 76.

Rose looked as though he might be headed that direction. He made a soft bogey on No. 1.

He three-putted across the green on No. 7. He was 2 over, though not ready to panic. He knew it was tough. He also knew he was headed in the

wrong direction. "You can't win the golf tournament today. Even with a 65 you can't win it today," Rose said. "You can only probably lose it today, obviously. I reset just prior to that and thought if I can get myself back around even par, that would be a good day's work."
