The construction materials company approached Redmond with the hopes of building a distribution facility there, Stark told the council.

After company leaders realized a 14-acre plot was available, they decided to build an even larger campus — one half distribution, one half produc tion.

The city and the company agreed to a \$2,805,264 sale price, and the city will pocket \$2.67 million of that after de-

ducting about \$135,000 in broker fees and closing costs, according to city documents.

Stark told The Bulletin that the construction materials company first has to jump through some permitting hoops, but company leaders hope to break ground on the distribution site by the end of 2021. Construction could be finished as early as late 2022,

Stark is excited that another company is bringing more living-wage jobs in Redmond, not long after Wild Mike's Ultimate Pizza announced moving its headquarters to the city.

"Any time you bring even one job, that's a big deal, but this company's looking at 35 to 60 jobs," Stark told The Bulletin.

Mayor George Endicott shared Stark's optimism for Redmond's economic future with this sale.

"We continue to grow, in spite of things like COVID," he "People still want to come here. Our building industry continues to thrive?

Tomato

The Midnight Roma is also resistant to verticillium wilt, a plant disease.

Although OSU announced the new variety this week, Myers said it was officially released in the fall, and Row 7 Seed Co. in Tarrytown, New York, has exclusive rights to sell seeds online.

The new tomato is already gaining traction. Serious Pie, a Seattle pizza restaurant, is using Midnight Roma to make gourmet pizza sauce, and when Row 7 Seed Co.'s co-founder Dan Barber introduced the tomato on Instagram, his post received more than 22,000 likes.

Myers said the first purple tomato he released a decade ago, the Indigo Rose, has already been licensed, or is in the process of being licensed, across much of Canada, Europe, Japan and South Africa.

Myers said he believes consumer interest is growing in specialty and heirloom tomato varieties. "I see that trend reflected in the grocery stores," he said.

The Indigo Rose and Midnight Roma incorporate genes from wild tomato varieties.

were developed in Central America and Mexico. Today, Myers said, the tomato is America's most popular produce — second only to the potato and he estimates there are now about 10,000

Myers said growers planting the Midnight Roma should know what to look for in ripeness. A ripe Midnight Roma, he said, will get softer, subtly move from a black, shiny appearance to a dull, brownish purple and will have a shaded reddish tip.

Coinbase

Founded in 2012, Coinbase became popular among cryptocurrency fans by providing them with an easier way to exchange shares of Bitcoin and other digital currencies. Unlike many newly public companies, Coinbase is profitable — the company estimates it had net income of between \$730 million and \$800 million in the first quarter.

Dan Ives, analyst at Wedbush Securities, said in a note Wednesday that "Coinbase is a foundational piece of the crypto ecosystem and is a barometer for the growing mainstream adoption of Bitcoin and

crypto for the coming years." Until recently, the major financial institutions avoided cryptocurrencies, and Bitcoin is still viewed more as a store of value than as a method of

payment. Even as Coinbase made its trading debut, Federal Reserve Chair Jerome Powell described cryptocurrencies as "vehicles for speculation" in comments to the Economic Club of Washington. "No one is using them for payments, for example, like the dollar."

David Trainer, CEO of investment research firm New Constructs, said Coinbase has "little-to-no-chance of meeting the future profit expectations that are baked into its ridiculously high valuation."
