**S**ometimes adding a little extra ... ahem ... *enhancement* to movies can make them instantly better. For the following movies, while a little tokes may help the overall experience, it is in no way necessary to completely enjoy them.

Sure they are a mixed bag with cinema classics, raunchy comedies or otherwise considered "bad," but overall they should pair nicely with your 420 plans.

**"2001: A Space Odyssey" (1968)** — The sci-fi epic courtesy of Stanley Kubrick is long and full of ambiguity that needs further exploration and explanation after each viewing, with layers unveiled each time you watch. The gorgeous film also includes a scene of a kind of psychedelic vortex in which a character is propelled through spacetime which on the film's initial release

was a favorite for some who wanted to enhance their viewing experience with the help of drugs. It's a ride no matter how you choose to go on it. Stream it on HBO Max or rent it on Amazon Prime, Google Play, iTunes, Vudu or YouTube.

**"Alice in Wonderland" (1951)** — While the story's original, slightly drug-y subtext
