

Teller Talks.

Denver, Nov. 6.—Senator Teller arrived here from the east today. In an interview he said: "I do not think the republican party will do anything for silver during the coming four years. The declaration of the St. Louis platform amounts to nothing. Besides that the men who dictated the St. Louis platform are opposed to bimetalism nationally or otherwise. McKinley, it seems to me, has shown by the speeches that he has made that he is an advocate of the gold standard and the ground that it is a better standard than the other.

"During the four years to come I expect to see the republican party abandon all pretense to a desire to secure international bimetalism, and the contest hereafter be made between the gold standard supporters and the organized hosts of bimetalism. I think that four years from now people will be sufficiently educated to understand the danger of the gold standard, and the party that stands for bimetalism in 1900 by the United States alone will be successful.

"There is no reason why we should be discouraged. Our candidate was all that we could desire and performed his part to perfection. We must not look backward out forward.

"The silver forces have a magnificent organization and now, for the first time, the fight is transferred from the silver states to the whole country."

Bryan Declines a Big Offer.

Omaha, Nov. 6.—Bryan today sent the following reply to a telegram from Messrs. Stegel, Cooper & Co., of New York, offering him \$250,000 a year to attend to the law business of the firm:

"During the next four years I expect to devote as much time as possible to the advocacy of bimetalism and therefore cannot consider the proposition made by you. I appreciate the confidence which your offer implies.

AEROMOTOR COMPANY. CUT PRICES by the only concern that ever in recent times originated a new idea in Windmill and Water Supply Goods. Everything the farmer sells is low. Who sells low to him? We have repeatedly refused to join, and have therefore defeated windmill combination, and have, since '89, reduced the cost of wind power to what it was, through gratitude, and because we are price makers, and are safe to deal with, and because we are the sole originators of all that is good in the modern steel windmill and tower. THE WORLD HAS GIVEN US MORE THAN HALF ITS WINDMILL BUSINESS. We believe in low prices, high grades and large sales. We make short hand with long power stroke pumps, with best seamless brass tube cylinders, lower than iron ones—a 2 1/2 x 16 inch at \$3.53. We prepay freight to 30 branch houses. Send now for beautifully illustrated catalogue of up-to-date ideas, as this appears but once. Our imitators may not have in print our latest plans. No one knows the best Mill, Pump or Price until he knows ours.
