England backs down! Newspaper comment in the Eastern Hemisphere is to the tests of England's inglorious retreat as indicated by the announcement that Russia and England have arrived at an agreement whereby England is compelled to drop her demand for the opening of a free port, and Russia waives further opposition to British control of the Chinese sea ports. Russia has also offered China the loan desired on the same terms that Great Britain did, so the latter is left as to a slice of China. Fitzsimmons and Julian have declined to consider Corbett's challenge. Julian declared that Corbett was no longer in Fitzsimmons' class and would not be until he had whipped Maher.

Late Telegrams.

The Teller resolution went down the house with yeas 132, yeas 182. The steamer Warrimo, just arrived at Vancouver from Australia reports the best appalling in that country. There are many prostrations, business is suspended, work is out of the question and sleep is impossible. The heat has caused numerous fires from spontaneous combustion. Gov. Griggs, of N. J., has resigned and the two houses passed a resolution that Voorhies, president of the senate, should take the office as acting governor. Another Cuban general was betrayed and shot.

Harney Locals.

Mesdames Bower, Turner and Brown were visitors in Burns Monday. Mrs. Seth Bower has charge of the Sunday school in the absence of Mr. Davis. Tom Bain and party expect to start for the famous Klondike region the latter part of next month. E. H. King, a prospective candidate for sheriff on the republican ticket, was doing business in Burns Saturday. Miss Edith Byrd, who has been visiting in town during the past week, returned to her home in Burns Sunday.

The Right Royal Ambrose Morgan Byrd, and that illustrious personage, Prof. Frank Miller, accompanied by Miss Clara Swan and Miss Cora Beach, were visitors from the Klondike city Friday and Saturday. This happy pair of special giants, after being taken in by the sights of town, started for the home of the writer, where their lady friends were staying. In some unaccountable way these young gentlemen, laboring under the effect of a stiff "Klondike breeze," lost their bearing (the writer hopes they were duly sober at the time) and came in juxtaposition with a neighboring woodpile, jarring their very sensitive mental faculties, and sadly disordering their otherwise dignified appearances.

AN IMPORTANT PRESCRIPTION.

WHERE WILL YOU TAKE IT?

This question often arises after you have consulted the best (not the cheapest) physician you know, and have received his prescription. It should go to the best druggist you know—one who will use only the right kind of drugs, and will not try to fill it if he hasn't the right kind. It should go to the druggist who will exercise the greatest care in getting the right drug and the right quantity, and will go over his work several times to see he is right. We do this with all prescriptions and take time to do it thoroughly. We conduct our prescriptive business as the best druggist should, and this is an answer to the question "Where will you take it?"

CITY DRUG STORE.

L. Woldenberg jr. was a visitor to Burns last week. The young people in town are taking advantage of the good sleighing and enjoying themselves by evening parties. There will be a grand masquerade ball at the hall on the evening of Feb. 14th. A prize will be given for the best sustained character. J. H. Loggan will have charge of Thos. Bain's ranch, while this worthy gentleman seeks for riches among the Klondike hills. Owing to a slight indulgence in a little spiritus frumenti by some of the boys, the club dance on Saturday night was a trifle noisy. Jasper Davis left Friday night for his old home in Iowa, to see his aged mother whose health has been failing for some time. The church services held by Rev. J. C. Templeton for the week past, closed Sunday morning. The meetings were well attended and much interest shown in the work. The basket social held on Friday evening was a "howling" success in some particulars. A larger number of baskets would have enlarged the proceeds of the evening, but it was \$10 was cleared and a pleasant evening enjoyed by all.

J. C. Buckland, genial proprietor of the Klondike saloon, has, of late, been somewhat indisposed. In appearance Mr. Buckland is an unobtrusive specimen of the "benches" with a great antipathy towards newspaper notariety, and, while by no means an apathetic, he has been known to severely anatomize that all important functionary—the news mangle. When interviewed in the spacious parlors of this cosmopolitan resort, he, not without some reluctance, however, said that he was suffering from a severe attack of ostealgia, and that the stercoraceous aroma accompanying his exhalations indicated a badly disordered system. He scribble, after partially recovering from the effect of the nomenclature used by our friend, and not to be outdone in the matter, immediately prescribed the following to be taken every 15 minutes: Equal parts of oxidized hydrogen, sacrose, and the hydroxide of the paraffine hydro carbon, methane. He is rapidly improving and in good spirits.
