A MISTAKE—In our last issue we stated that the W V & C M W R Co. had deeded all its land to the rail road. The affair seems to be somewhat complicated. The deed is not from the road company but from Wm. Hoag who was formerly President of the Oregon Pacific rail road. Some years ago the O P railroad secured an option on all the road land and allowed it to run until the last day of grace when Mr. Hoag deposited his check The road company claims he did not fulfill his part of the agreement and went to court. The case was decided against Hoag in the U. S. circuit court and has been carried to the supreme court where it is still in litigation.

The Canyon News says the republicans did a wise act in nominating Wm. Miller for prosecuting attorney and he will carry the united judicial district where he is well known. Wm. Miller will not carry Harney county by a long shot. He is well known here. Mr Hicks, the democratic-populist nominee for that position will poll two-thirds of the votes cast in this county for district attorney. The News man evidently was not counting us people on this side.

Fusion Platform.

United in a common cause for the sacred purpose of preserving the principles of government by the whole people, in fact as well as in name, restoring and maintaining equality, under that government, of all classes, we, the people's democratic and silver republican parties of the state of Oregon, waiving all minor difference, and uniting for the purpose of carrying out the great underlying principles upon which we are all agreed, do make and present to the people of this state the following declaration of principles and to the carrying out of which we solemnly pledge each and every candidate upon our united ticket:

First—We demand the free and unrestricted coinage of silver and gold at the present legal ratio of 16 to 1, without waiting for the consent of foreign nations; and we are unalterably opposed to the present republican administration's demonetizing the retirement of greenbacks, and the turning over of the money-making powers of the government to the national banks, as presented in the bill drawn by the present secretary of the treasury, and indorsed by President McKinley; and we are ready to denounce the avowed scheme by said bill to fasten the country forever and forever on the gold standard.

We demand a currency, safe and sound, issued by the general government only, without the intervention of banks of issue, to be a full legal tender for all debts, public and private; also a just, equitable and efficient means of taxation direct to the people through the lawful disbursements of the government.

We demand that the volume of circulating medium be speedily increased to an amount sufficient to meet the needs of the business and population of this country, and to restore the parity of prices of labor and production.

We favor such legislation as will prevent for the future the demonetization of any kind of legal-tender money by private contract.

We demand the government, in payment of its obligations, shall use its option as to the kind of lawful money in which they are to be paid, and we denounce the present and preceding administrations for considering the option to be holders of government obligations.

We demand that there shall be no further issue of United states interest-bearing bonds.

We demand that postal savings banks be established by the government for the safe deposit of the savings of the people and facilitate exchange

We demand the election of United states senators by direct vote of the people.

We demand the initiative and referendum system of law-making in its optional form, local, state and national, and the submission by congress of all important national questions for an advisory vote of the people, until such time as the national constitution shall have been amended so as to provide for direct legislation.

We condemn as dangerous and unjust the surrender, in all departments of the government, to the influence of trusts, corporations and aggregations of wealth generally; and the packing of the highest courts of the land with corporation lawyers, too ready to do the will of their late employers, and to set aside valid and wholesome laws passed by the legislative departments of the states and congress, upon flimsy pretexts, of the unlimited power of injunction.

We are opposed to government by injunction.

In state matters, we demand:

A simple and well guarded registration law.

A more equitable mode of appointing judges of election.

Stringent laws to regulate the operation of fish traps, fish wheels and all fishing gear in the waters within the jurisdiction of the state.

We denounce and condemn the corrupt and extravagant republican legislative assemblies, and charge that the republican party, in its eagerness for the spoils of office, has become divided into warring factions, so that it is incapable of government as exemplified by the condition existing in the office of the state treasurer, there being at this time more than $50,000 therein wrung from the people by the process of taxation while state warrants are stamped "Not paid for want of funds."

We demand that all district and county officers be placed upon salaries commensurate with the duties to be performed by them.

Inasmuch as railroad and other corporate property is not bearing its proportion of taxation, we demand that such property shall bear its just and equal share of the expenses of government.
