There is a family not far from here, whose hens have been keeping them well supplied with eggs until recently and they were wondering what become of them. One day last week one of the family went into a barn on an adjoining lot and found several eggs and among them some very peculiar ones. They were taken home but those light colored ones could not be boiled, fried, scrambled, poached, or cooked in any way. After a family consultation and thorough investigation made, it was found they were dish or china and had been used as a "nest-egg" to toll the good old hens away from home to lay. They are now on exhibition at THE TIMES-HERALD office and the owner can have them by calling and proving property.

A jolly crowd consisting of C. E. Kenyon and wife, Misses Eva Swain Edith Byrd, Mr. Lewis, of the Items, and ye scribe took the early excursion train for Poison creek last Sunday with lunch baskets in tow. The day was spent in fishing, killing snakes, etc., which was thoroughly enjoyed by all. The stories as to the number of fish caught vary somewhat but we kept accurate count and will swear there were 37 in all to which 30 can be counted to our credit. The Items will accuse us of tampering with a mail box, bumming milk at a farmhouse and stealing onions. We wish to deny the charges most emphatically. We offered to pay for the milk in old papers and call on Chas. Kenyon to corroborate our statement. The Items man drove his team thro' a wheat field and can thank our eloquence and influence for preventing his arrest for trespass.
