Black preached his farewell sermon last Sunday evening and has left for a new field. Dr. Holt and Rev. Shields will begin their meetings here in the First Presbyterian church tonight. Johnson and family have returned from their outing in the Stein mountains and Chas. is again mixologist at the Capital. Why don't you come in and order a windmill. We have the best ones on this earth and cheap too.—I. S. Geer & Co. H. C. Bilger at the City Drug Store has a number of dust proof watches on hand, just the thing for the hay field and harvest. Pat Daly, the prize fighter who had a "mill" with Tim Tompkins here at the athletic club last season is in Burns again. Word comes to us that the leading firm at the railroad are selling the best Island City flour at \$4 per barrel. The O. C. Co. are the people. Messrs Geo. Waters and Walt Huston have purchased the notion store of A. C. Worthington. These gentlemen are good business men and we predict success for the new firm. Messrs Ben Brown and Chas. Kenyon and families have returned from the mountains, Chas. says he is a good hunter but he could not kill anything. McClain & Rusk left with their horses last Monday. The Herald man saw them on Silver Creek and they were getting along very well with the exception of one sick mule. Messrs Welcome & Johnson of the old Texas Resort are still in business with a first class check restaurant in connection. Make that your head quarters while here celebrating. E. H. Test started on a second trip to the mountains yesterday. He will return in a few days with his family who have been camping in Sumpter Valley during the hot weather.—Ontario News. —Inadvertently and because we could not to a certainty ascertain the sex we did not publish in our last issue the birth of a baby boy born to Mr. and Mrs. Hul Hotchkiss. The birth occurred on Thursday the 18th inst. The little 8 year-old son of Mr. and Mrs. Fritz Mace cut one of his toes off and another nearly off last Saturday, by letting an ax drop on his foot. He was brought to town and Dr. Marsden dressed the wound. He is getting along nicely at this writing. Mr. and Mrs. Geo. Stanchiff left the first of the week for Portland, via Prineville, to have an operation performed on Mrs. Stanchiff's eye, it being necessary to remove one in order to save the other. Her many friends in this county hope she will soon recover her impaired sight and be with us again in the near future.

County court next week. John Gilerest was in town Sunday. A. Lucas, cattle buyer, is now in Harney county. Ladies shift waists at 75cts. N. Brown & Sons. The thermometer has dropped several notches. Mr. Frank Dibble, of Silver creek is in town today. Fine assortment of mens and boys sweaters at N. Brown & Sons. THE TIMES-HERALD and St. Louis Republic for \$2 a year in advance. Three freight teams arrived last Sunday with goods for Mason & London. We will soon have a full line of all kinds of pumps at bottom prices.—I. S. Geer & Co. BORN—To Mr. and Mrs. Carv Thornberg this morning, a baby girl. Mrs. Chas. Frye in attendance. Parties interested in the matter, should read the notice in this issue of the selection made by the W. V. & C. M. W. R. Co. An ingenuous girl asks, "May a lady ride a diamond frame?" Opinions and skirts are both divided on this proposition, dear. There were 314 prisoners in the state penitentiary Thursday night. Not for several years has the number in custody been so small. In the Bridge Creek country, Crook county, several sales of sheep have recently been made at \$2.50 for yearlings and \$3. for 2-year-olds. No better evidence of American good faith could be given to the people of Cuba than that offered in the opening of schools at Santiago. Campers should remember that Persian Cream will remove that "horrible tan and those awful freckles." You can get the genuine at the City Drug Store. The California Ideals gave a performance at Locher's hall Monday evening to a good house. The show was above the average that visits this place and was highly appreciated by all. Dr. Marsden found it necessary to remove another piece of bone from the leg of E. E. Laughlin. The operation was performed yesterday and the patient is getting along very well. Lost—Last Monday morning, between S. Lampshire's ranch and the residence of Sam Mothershead in Burns, a silk umbrella. Finder will please return to Mrs. Lampshire or leave at this office. Jack Dunstan, who has been visiting his many old friends in Burns and vicinity the last ten days left here yesterday morning, for Montana where he is employed at a lucrative salary to superintend some paying mines. Jack carries with him the good wishes of his friends in Harney for his future welfare and prosperity. A letter from Cuba written by a soldier in the volunteer army gratefully acknowledges the receipt of a night shirt sent to him by loving friends at Gotham. He says: "Nearly every man in our regiment received a night shirt from the Ladies Aid society, and they came in handy for cleaning guns as the mud and rain keep the rifles in bad shape, and rags are scarce. They were all glad to get the shirts, as it is better to have your gun in good shape than to sleep in a night gown." THE TIMES-HERALD man met Dr. Horton and H. E. Thompson on Sage hen yesterday and at first was inclined to think he had met some road agents—so many guns in sight—and was very much disappointed when it turned out to be his friends on their way to some new hunting ground. In the short space of time when he first saw them and before he recognized them, he was wondering what kind of a "scare" head he would put on the account of the hold up. The thought of losing his money did not bother him—being without any, as usual. It might be just as well to state that he has several dollars coming on subscription that would be acceptable at this time. With such prosperous times and beef cattle in such demand those in arrears should remember the newspaper man.

Mrs. Chas. H. Leonard is on the sick list. Call and see our all wool mackinaws at N. Brown & Sons. W. D. Hanley has been buying cattle on Silver creek. L. L. Sheeting and Oregon City Blankets at Mason & London. New May, Little Giant and Aeromotor Windmills the three best mills in existence at prices to suit.—I. S. Geer & Co. Are you contemplating building? If so see Dyer & Brisco and allow them to figure on plans, etc. You will save money. The parties who held up and robbed Joe Wooley's saloon at Haines a week ago have not been apprehended. It was a well executed hold up and it is not likely that the robbers will be heard of again in Baker county.—Baker Epigram. We notice the local papers in some counties in this state make a great "do" if their county jail happens to be without an occupant, while our county jail is vacant almost the year round. Still this county has a tough name and some would try to make you think that respectable people would not live here. We began this war with 14 battleships and cruisers, 19 monitors, only six of which were modern; 16 unarmored steel vessels, 19 gunboats, 23 torpedo boats. We have now 39 battleships and cruisers, 31 unarmored steel vessels, 19 gunboats, 25 torpedo boats and 15 special craft. An entirely different kind of a record from that of Spain. Oregon is reasonably prosperous this year; its crops are large and prices, while not high, are sufficient to allow producers to live and make a little profit, but a vexatious cloud appears in the otherwise fair sky; a special session of the legislature is threatened. Let the people pray to the Lord—the Salem Lord—for deliverance from this affliction.—Welcome. We had a short call from our old time friend John Berry, this morning. Mr. Berry holds a position as one of the faculty of the state normal school at Ashland and has been making a tour of eastern Oregon and Idaho on his wheel during vacation. He will go home via Lakeview and Klamath Falls and expects to be in Ashland by next Monday when the fall term of school opens. The choir of the First Presbyterian church of this place went to Harney last Sunday to attend the dedication of the church there and help with the singing. Quite a number went from here, among whom were, Messrs Dr. Burchtorf, Chas. Byrd, B. D. McIntyre, Frank Miller and Bruce Byrd, and Messrs James Chas. Byrd and C. H. Leonard, Misses Minnie Richardson, Ada Smith, Lela McGee, Maud Ragon and Edith Byrd. Sheriff French has returned with Andy Beckleheimer from Burns, Oregon, says the Wallowa Chief. Andy is wanted for driving some horses belonging to parties in this county to Lewiston last spring. His bonds were fixed at \$1000, which he could not furnish. He is supposed to be connected with a ring of cattle and horse rustlers that infest the ranges of Oregon, Idaho and Washington, and a few persons have surmised that at his trial he will probably implicate others. The University of Oregon graduated last June the largest class in its history. The class numbered 30. The fall term will begin September 19th. Students who have completed the tenth grade branches can enter the sub-freshman class. No examinations are required for graduates of accredited schools. Reasonable equivalents are accepted for most of the required entrance studies. Catalogues will be sent free to all applicants. Persons desiring information may address the president, Secretary J. J. Walton, or Mr. Max A. Plumb, all of Eugene, Oregon. The courses offered are those of a good university. There are departments of modern and ancient languages, physics, chemistry, biology, geology, English, elocution, advanced engineering, astronomy, logic, philosophy, psychology, mathematics and physical education. Music and drawing are also taught. The tuition is free. All students pay an incidental fee of ten dollars yearly. Board, lodging, heat and light in the dormitory cost \$2.50 per week.

THIS is the way you will act when you hear the excellent tone of a Ludwig Piano. The action is free and easy. The case light and serviceable and an ornament to any parlor. Any one wishing a piano or organ should order now so that they could be brought in before the roads get rough. Remember the long winter evenings that are to come. How can you spend them more profitably than by studying music? We can get you anything known in music—give us your orders.

Mrs. Fry Wilson and her daughter and Mrs. Franklin of Monument passed through town last Sunday on their way to D ewsey to visit relatives.

Teams are loading nearly every day at Rinehart's orchard and departing for Harney county where there is an excellent market for fine fruit.

Last Saturday morning Baker City had another fire which wiped wooden buildings to the value of nearly \$30,000. Rust's opera house was among those burned, and Mr. Rust will at once repair the loss with a modern brick structure.

The Burns telephone line was struck by Harney valley lightning last week, and the electric fluid was surprised that no damage was done except the prostration of four poles. Telephones and thunder storms will probably get along better over there now, since they are getting acquainted.—Canyon News.
