Gov. Lord has called a special session of the legislature but fails to state why it was called. Governor elect Geer is considered a strong man for the office of United States senator and might be elected at the special session. The law would be construed to state that the present incumbent would hold the office until "his successor was elected and qualified." Lord would continue to hold down the gubernatorial chair until the next election.
The citizens of Burns especially parents and patrons of the public schools of this county should turn out and do what they can to make the teachers institute to be held here beginning Sept. 21 one of the best ever held in the county. Teachers will be encouraged by your presence and interest in their work. In looking over teachers reports, which are sent in to the superintendent we notice that patrons, as a rule, are very scarce who visit the school room. Children would take more interest, in our opinion, if parents would visit the schools more frequently and show their interest in the progress of education.
