J. C. Wooley
PROP. OF THE
RED FRONT BARN,
HUNTINGTON, OREG.

Mr. Wooley wishes his many friends in this county to give him a call when at Huntington.

"Teddy" Roosevelt is finding rougher riding in New York than he found in Cuba. He might send a round-robin to Gov. Black

Julius Caesar Burrows might try applying to Dr. McKinley—the Chicago University has made him a doctor of laws—for a prescription.

If the Pingree style of campaign does not result in an overwhelming republican defeat in Michigan we miss our guess, and the voters of the state are differently constituted from other men.

Idle curiosity has often been mistaken for political enthusiasm. The counting of the votes in the votes in the section through which Mr. McKinley toured will show whether the same mistake has again been made.

Senator Morgan may be right in saying that Hawaii and Porto Rico will in time become states but, in our opinion, it will be an almighty long time before our people will consent to make it possible for either or both of these islands to hold the balance of power in a close presidential election and in the senate.

In as much as the Sarponites have been trying to make it appear that Schley's flagship, the Brooklyn, took very little part in destroying Cervera's fleet, we should like to know what that special naval board meant by reporting injuries to the Brooklyn, in that engagement, by the entrance and explosion on the berth deck of a six-inch shell; shot holes in three smokestacks, and two escape pipes; shot holes through hammock netting; after engine-room ventilator, struck by six-inch projectile; three one-pounder shot holes in plating, and one six-pounder shot hole forward.

Senator Foraker's unique Cuban views indicate a desire on his

part to be "seen" by the administration. A little official pap will probably secure his endorsement of the administration plan.

If Mr. McKinley's commission were accomplishing anything, there would not be so much objection to its expensive junket on that luxuriously fitted special train. We like to get something for our money.

If Senator Foraker repeats in the senate what he has been saying in the newspapers, about the illegality of our keeping troops in Cuba after the treaty of peace has been signed, there will be a hot old time in Washington.

According to some of the fool-oregans in New York, Roosevelt not only desires credit for all the fighting done by the army, but for putting the navy in condition to do such effective fighting. Sensible men know that several other men did some fighting, and that no one man made our navy what it is.

Those long-standing differences between Canada and this country do not seem to be as easily adjusted as some persons predicted they would be when the joint commission was provided for by Congress. The Canadians have always wanted the big end of every bargain, and they have not changed a bit.

Mrs. Ballington Booth, of "The American Volunteers," is writing out her experiences in the slums of New York, for "The Ladies' Home Journal." Mrs. Booth has perhaps come closer to the lives and confidences of the men and women in prison, and to know the poor better, than any woman living. She will not only tell what she has seen, but she will point out what her experience has shown her to be the most effective way in dealing with the

people of the prisons and the slums.

Republican candidates for congress are said to be using promises of fat appointments in Cuba, Porto Rico and the Philippines to get the good will of the sulkers among their constituents.

Some men are just inquisitive enough to wish to know who pays for the champagne that, according to Paris reports, is being guzzled in large quantities by the Peace Commission and its hangers-on, American, French, and Spanish.

Having bought a presidential election, Boss Hanna is now collecting the money to buy a congressional election.

Ralph Waldo Emerson's son Dr. Edward Emerson, himself a boy when Louisa Alcott was a Girl, which "The Ladies' Home Journal" is about to publish. Dr. Emerson gives a new view of the author of "Little Men"—as a mimic, and as the central figure of every dance and merrymaking in old Concord.

The idea of Gen. Woods, now in command of Santiago, of giving each discharged Cuban soldier \$25 in cash and \$25 worth of agricultural implements, is the best yet advanced, and unless a better one is suggested, it should be adopted by the government just as quick as Congressional consent can be secured.

Boss Hanna made Boss Platt give him the positive assurance that "Teddy" Roosevelt would not be a candidate for the republican Presidential nomination in 1900, as the price for administration support of Roosevelt. If we remember correctly, administration support has knocked out several candidates for governor of New York, just as "Teddy" is going to be knocked out, next month.

Republicans are preparing to give the colonial plum tree a vigorous shaking.

The "Alger relief commission" is the name that has been given Mr. McKinley's investigators, at Washington.

It is not Van Wyck, the Mayor of New York, who was selected by the democratic convention to be the next Governor of New York, but his brother, the Judge.

Boss Hanna estimates that \$2,000,000 will buy the election of a republican majority of the House. The voters will determine, next month, whether he is right or wrong.

The Chinese minister to the U. S. is a wise man; he has been tossing newspaper bouquets at the old Dowager Empress ever since she regained the reigns of government.

The men who are offering to bet odds on Roosevelt, in New York, are making the usual ante-election republican bluff, and when called are seldom ready to put up the money, unless it is a very small amount.

Alger must feel confident of a whitewashing, as he says he expects to be Secretary of War until the end of the McKinley administration, unless he dies. It will be a good thing for the democratic party if Alger is kept in the cabinet.
