Times of scarce of money close competition, people go to buy where they can get most for their cash. That's what nobody has any kick about. Now we have a proposition: Make out a list of what you want, and we'll make it for you. If we can't get it, we'll get it for you. Competitors abroad in things considered, then nothing more to say. You have the advantage of your own goods, and what you are getting better. People ought to be the merchant can make difference in prices when goods are sold on large cash. Did you ever see that? Now make out a list and submit it to

Gentlemen:—We have given the Jones Chain Drive Mower a thorough trial this summer with the most satisfactory result. It is the lightest draft mower I ever ran. The machine is especially adapted to cutting heavy alfalfa and timothy hay.

CHAS. GRISHAM, Lebanon, Ore., Dec. 28, 1898. —C. H. Voegtly Agent.

Notice to the Public.

A. M. Byrd, editor of the Burns (Ore.) Herald, was a Payette visitor Monday. Says he heard that Ben McIntyre, editor of the Harney Valley Items, was making brick at this place, and he came 150 miles to see an Oregon editor at work. Byrd says if he can get the job laying the brick that Ben is burning Burns will have a good deal better newspapers in the future. But perhaps he was just joking. The editor may be a brick and know nothing about brick laying.

The above was taken from the Payette Independent. We feel much slandered and will have satisfaction. It is our opinion that Ben McIntyre had something to do with it, his object being to injure the good name of this great religious weekly through a selfish motive.
