Lunaberg & Dalton also offer good inducements on large orders. Give them a chance and we are sure you can come to terms.

Earl Sweek had quite an experience with a bad cow the other day. While driving her through the lane east of town she came very near going Mrs. R. M. Turner, who was walking with her husband along the road. After getting her in the corral at home she took a dislike to Cy who had gone in to look at her, and put him on the fence in a hurry. Now Cy is not used to getting a fast more on him and was a little out of humor so the next morning they threw her down and saved her horns off.

In these times of scarce of money and close competition, people are going to buy where they can get the most for their cash. That's a fact and nobody has any kick coming. Now we have a proposition to make: Make out a list of what you want, and we'll make you prices on it. If we can't meet our competitors abroad in prices, all things considered, then we have nothing more to say.

Besides, you have the advantage of selecting your own goods, and know just what you are getting before you buy. People ought to know that the merchant can make a great difference in prices when goods are sold in drabs and charged when goods are sold on large orders for cash. Did you ever think about that? Now make out your list and submit it to Lunaberg & Dalton.

Another Excursion.

For some reason—perhaps on account of our genial nature, but we credit it to our good looks—we seem very much in demand for excursions and picnics this spring. The last invitation we received was to accompany a crowd to the I. S. Geer & Co saw mill last Sunday. We regret we have not the space to devote to a graphic description of our trip but will say that a day was never more thoroughly enjoyed by a crowd of happy excursionists.

—and women too. The party consisted of Mr. and Mrs. Claude Biggs, Mr. and Mrs. Julian Byrd, Misses Mildred Hazeltine, Edith Byrd, Clara Swain, Messrs Hank Fulton, John Bilger, Ed Caldwell and "Baby" Angevine. Upon arriving at the mill we drove down to Spring creek where we found Adolor Racine at his ranch (one of the best mountain ranches in the county) and were accompanied by him to the place where the speckled beauties were supposed to be crowded for room in the small stream.

Every one of the party found it an easy matter to fish, but differed to catch them. The TIMES-HERALD man came in at the lurch hour with H—never mind where he got them—and was given the credit of champion. Afternoon we returned to the mill and all "posed" for a snap shot from H. E. Thompson's Kodak. Hank Fulton manipulated the machine and we find since the negatives were not good. Some say Hank spoiled them on purpose because he was not in the picture.

The next thing we knew the cook announced supper and Mesdames Sayer and Thompson who would not listen to our protests, hustled us into the dining room where we enjoyed a good warm supper. Mr. Sayer favored us with several selections on the graphophone after which we gave them a little vocal music accompanied by the guitar.

At 8 o'clock we started for Burns arriving at home somewhat tired but all voting a day of success.

P. S.—We neglected to say that Fred Racine turned up just at lunch time, having come up from Burns on a wheel. Also that Baby Angevine was on his good behavior and was a "good little fellow" especially by the ladies.

There are few a people in every community who expect their local paper to stand by them and their interests on any and all occasions, and yet if the editors of said papers could live on a dollar a year and depended on any one of them for half the amount, cash down, they would find it necessary to suspend in order to exist.
