A daring attempt to beat time—Lily Langtry's announcement of a ten year reduction in her age.

Whatever may be said of other officers, no one is likely to charge Gen. Otis with keeping a press agent.

The next time Pingree ties to a Senatorial candidate he will try to know more about his staying powers.

Alger seems to have found the water of oblivion lake, into which he so gayly dived, deeper than he expected.

If Secretary Root has reformed any of the old abuses of the war department bureaucracy, nobody has found it out.

The big wheat and corn growers are forming a farmer's trust in the grain belt. "What's sauce for the goose"—etc.

The military censor, at Manila is still doing business at the old stand, with the full approval of the administration.

How much the Filipinos love us may be judged by the recent arrest of two socalled "pacified" Mayors of Luzon towns, for giving aid to the Filipino soldiers.

The Ohio democratic state convention was entirely too enthusiastic and confident of carrying the State to please the republicans. The ticket nominated deserves to win.

Six months ago it looked as though the democratic fight, next year, would be largely to keep up party organization; today it looks as though the democrats would elect the next President.

The statement issued by the war department, claiming that Cuban revenues are more than paying all the expenses of the military occupation of the island, is misleading, inasmuch as the expenditures therein do no include the pay and the maintainence of the U. S. soldier in Cuba.

## A RAILROAD TO BURNS.

**O. L. Miller, Secretary of Baker City Chamber of Commerce Pays us a Visit.**

Although it is not a settled fact that we are to have a railroad from Baker City in the near future, it is probable. O. L. Miller, secretary of the Baker City chamber of commerce arrived here last Sunday for the purpose of ascertaining the probable amount of freight etc and report to the chamber of commerce the fesibility of extending a standard guage railroad into this section We understand the Sumpter Valley Railway Co have made a proposition to the chamber of commerce that if the latter would float their bonds at $6000 per mile, all conditions being favorable they would extend that road through to the John Day country and on to Burns, making this the terminus Mr. M., in company with Dr. Marsden, last Monday put in the day visiting in the vicinity of Lawen, Wright's point and other places and expressed himself as being much pleased with our county and will no doubt report favorable on the proposed move.

Mr Miller left for home Tuesday morning and if his report is favorable the railway company will likely send engineers to investigate, select a route and make estimates of grading etc.

The building of the road will mean much for this county and, as we stated above, everything indicates it will be put through at once.
