A million dollars a day is a big price to pay for the McKinley Philippine policy.

The mouths of certain Ohioans are watering in anticipation of the arrival of Hanna's checkbook.

John Bull can afford to be patient with Transvaal Republic; he knows that eventually he will swallow it up.

Those who fail to recognize the growing unpopularity of the war in the Philippines, must neither hear nor read.

There is nothing strange in the advocacy of trusts by the officers of the Standard Oil Co., which is one of the largest trusts.

Dreyfus isn't the first scapegoat made by a nation. Even the U. S. has engaged in the scapegoat business at times.

Judging from republican abuse of Col. Bryan, they have become certain that he is going to be nominated again and are almighty afraid he will be elected.

No one has suggested that Mark Twain is going to Princeton to live in order to get Hon. Grover Cleveland for a literary sidepartner.

Mr. Hobart doesen't dare to say that he will or will not run with Mr. McKinley again, because he knows that he will have to do what Boss Hanna orders done.

Judicial Opinion still stands, Philippines are as capable of self-government as the Cubans, if not more so.

Ex-Gov. Altgeld expresses the opinion that the trust conference, in Chicago, under the auspices of the Civic Federation, is a trust "love feast." He refused to participate.

If the opinions of a large majority of the prominent newspapers of this country, regardless of politics, counted for anything, Gen. Otis would have been removed from the command of the army in the Philippines long ago.

An Anti-Impearial Club has been formed within a stone's throw of the White House, and its principal officers are republicans. There will be more of these clubs if there is not a change in McKinley's policy.

If the shortness of man's memory were not proverbial, the present sentiment of the civilized world against France, on account of the present treatment of Dreyfus, would compel the abandonment of the Paris Expositin. Boycott talk is heard everywhere.

Any foreigner conversant with recent events would be likely to give credence to the story that his administration has imperialistic designs upon the whole American continent; is it not surprising, therefore, that the story should be causing excitement in Mexico and Brazil.

The alleged investigation of trusts, by the Industrial Commission, at Washidgton, was turned into a case of "the pot calling the kettle black," when the Standard Oil officials attacked Vice Chairman Phillips, of the Commission, who is connected with an oil company, and who was charged with having tried to make a combination with the Standard Oil Trust.

The latest Chicago Christian Scientist fakir dosed his patients with medicine by putting it in their food on the sly.

It seems that Gen. Otis censors the reports of the health of the troops as well as the other Philipine news, and there is no doubt that he does it under orders from Washington.

In view of Col. Bryan's ability and willingness to speak for himself, there is no occassion to pay any particular attention to those who periodically get a little newspaper space by professing to speak for him on this or that subject.

It will take more than the claim of a New York physician, that he can restore those killed by electricity to life, to persuade the average man to test the claim by getting himself electrocuted.

Hon. John R. McLean, after thoroughly going over the field, said: "I am thoroughly satisfied with the situation in Ohio. The outlook for the democratic party is as favorable as could be desired I believe the people are with us, and I am confident that we will win."

Oregon Exposition

The great Exposition building in Portland, which is one of the largest on the coast, is undergoing wonderful transformation now, and will be a dazzling scene of splendor during this year's fair, which begins September 28th and lasts a month. The building will be illuminated by 3500 electric lights. Just imagine for a moment what a brilliant scene they will make!

All the products of the Northwest will be on exhibition, and the best full military band on the Pacific coast will give concerts day and evening. The Florenz troupe and the Sisters Macarte have been engaged, and they are wonders in aerial and acrobatic feats. Major Gantz, the smallest man in the world, will be on exhibition, and there will be many attractions of great interest. The price of admission will be only 25 cents. A perfect reproduction of Multnomah falls has been built in the building with real water splashing and dashing, and visitors who attend are sure to be pleased and interested.

Two More Nabbed.

Deputy United States Marshall J. A. Wilson of Oregon and J. L. Fuller, special internal inspector, arrived last evening from Portland, having in charge George Johnson, the man charged with having robbed Bliss postoffice in 1595 and who has just been released from the Oregon penitentiary, where he served three years.

Mr. Fuller was the postmaster at Bliss when the office was robbed and he went to Oregon to indentify Johnson.

Johnson was placed in the city jail, where he will be kept until today when he will likely be given a preliminary examination.

Deputy Wilson reports the arrest by another deputy of Oregon of Mrs. Mason—"Calamity Jane"—and a man named Lawson, who are alleged to have been implicated in the Jordan Valley postoffice robbery. The parties have been taken to Portland and will be tried along with Joe Jension, who was captured by Deputy United States Marshall Pinkham in Idaho.

Lawson is a brother of Joe Lawson who was killed during the attempted robbery. It is understood strong evidence has been secured directly connecting him with the case. It was "Calamity Jane" Mason who paid the money into the store in which the postoffice was situated on the day of the robbery, apprising the robbers of the fact in accordance with the understanding between them.—Boise Statesman.
