The two gentlemen rode over to their farm near Granger on a railway velocipede. On returning, near Albany, the machine left the track and precipitated both occupants down a steep embankment. Mr. Hogan fortunately hit in a soft place, in a pool of water, and was unhurt. Mr. Cusick, however, was thrown violently down a gravel bank, and had his ankle sprained, and was considerably lamed. Some of Bill's friends in Burns say that he would surely have had a long sick spell if he hadn't succeeded in throwing Mr. Cusick off. According to our grandmother's story, this is ground hog day. If he comes out and sees his shadow today he will return to his hole and remain for 40 days and we can expect that many more day's winter weather. The ground hog did not have a chance to see his shadow until this afternoon, so if there was any specified time we may be all right yet. Some say he must see his shadow early in the morning for it to have any effect on the weather. However, opinions differ. We would advise our friends to keep their stock up and feed them for a while yet in order to be on the safe side.

We occasionally hear something about removing the young Piute Indians that roam the hills and valleys of Harney county to Fort Bidwell, where they can have school advantages, but nothing has been done in that direction as yet. Surely something should be done for them and not allow them to grow up ignorant as covotes and live a life of indolence. Their highest ambition seems to be to do as little work as possible and drink all the whiskey they can get hold of. We could very easily spare them from our society and our "Uncle Samuel" is at liberty to move them to Fort Bidwell just as soon as he desires.
