IT MATTERS VERY LITTLE.

How fascinating an advertisement may appear, its ultimate results must be fruitless to the merchant if his statements are not backed up by honest motives and truthful assertions. To win the confidence of the public, is to gain success in life. This can only be attained by strict adherence to honest purposes.

The confidence our many customers have in our dealings with them is the foundation of our success in business. To promote and strengthen it is the quintessence of all our efforts. This we aim to accomplish by selling goods at prices determined by their intrinsic qualities. In other words we will not recommend an article as good when it is not good.

Our prices are up-to-date, and are graded according to the quality of the goods they represent—cheap goods for little money, better goods for a little more money. On this basis we solicit your patronage.
