THE STEEL STRIKE ENDED

WAS SETTLED IN NEW YORK AND MEN RETURNED TO WORK.

Terms of the Agreement are Withheld, but it is Quite Certain that the Employers Made No Concessions.

New York, Sept. 13.—The great steel strike, which began on June 20, was brought to an end at a conference held today between the leaders of the Amalgamated Association and officers of the subsidiary companies of the United States Steel Corporation. An agreement was signed under which the men will return to work in the mills that have been idle on Monday morning. The announcement was made at the office in this city of the American Tin Plate Company, where the conference was held. The full terms of the settlement were not divulged, and it was announced that this was in accordance with an agreement by the parties to the conference that no statement should be made until President Shaffer, of the Amalgamated Association, issued his order to the men to return to work. This will be done tomorrow (Sunday) when he reaches Pittsburg, whether he went immediately after the conference. It was learned, however, from an authoritative source, that no concessions were made by the United States Steel Corporation. It was also learned that the Amalgamated Association gave up its right to control in the following mills: The Crescent, Irondale, Chester, Star, Monongahela, Deming and Monessen mills of the American Tin Plate Company; the Canal, Dover, Hyde Park, Old Meadow, Salisbury, Dewees-Wood and Wellsville mills, of the American Sheet Steel Company and Clark mills of the American Hoop Company; the Joliet and Milwaukee mills of the Federal Steel Company; and all of the mills of the American Tube Company.

TO GOVERN ALL SCHOOL TRIALS.

New Rules Promulgated by State Superintendent Ackerman.

State Superintendent Ackerman is sending out a new set of rules and regulations which were adopted by the State Board of Education on the 9th inst., as follows:

"To Superintendents, District Boards, Teachers and Patrons--

You are hereby notified that at a meeting of the State Board of Education, held September 9, 1901, the following amendments to the Rules and Regulations were adopted:

"Rule A--In all trials before a District Board of Directors the clerk of said board shall personally furnish the defendant, in writing, a copy of the charges preferred against him, and also the time and place where the matter at issue will be tried; provided that at least five days shall elapse between the time that the defendant shall receive such notice and the date of trial.

In all such trials the Board shall

have authority to hear and receive testimony for either party, and for that purpose may subpoena witnesses and administer oaths, if necessary, and the defendant shall have an opportunity to be heard in person or by an attorney.

"Rule 6--At the time fixed for the hearing, both the complainant and the defendant shall have an opportunity to be heard either in person or by attorney, but no evidence shall be considered by said Superintendent except that produced before the Board of Directors, from which the appeal is taken. After hearing such argument, the county Superintendent shall make such decision as may be just and equitable, and he shall immediately notify all persons interested of his decision."

TO PUT GRASS ON SAND.

A dispatch from the Dalles to the Oregonian says that upon his recent visit to this state, Gifford Pinchot, chief forester of the Agriculture Department, accompanied Representative Moody down the Columbia for the purpose of viewing the drifting sands bordering the river, which are such a serious question to railroad traffic. He has now sent William L. Hall, a specialist from his department, to examine the situation carefully, with a view of co-operating with the railroad company in the reclamation of the sand dunes. Mr. Hall who has been recently investigating the sand hills of Kansas, Nebraska and Utah, contemplating a system

of reclamation by means of forage plants, arrived here yesterday, and today he was taken over the road between this point and Arlington, where the sand drifts are largest, on a railroad velocipede, with an employe of the company. It is expected that he will spend a couple of days in that section, returning to The Dalles early in the week and beginning an examination of the beach between here and Hood River.

If you took your little tooter, then lay aside your little horn, there's not a soul in ten short days will know that you are born. The man who gathers pumpkins is the man that plows all day, and the man who keeps a humping is the man that makes it pay. The man who advertises with a short and sudden jerk is the man who blames the editor because it didn't work. The man who gets the business has a strong and steady pull, and keeps the local paper from year to year quite full. He plans his advertisement in a thoughtful, honest way and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a sudden shock, and like the man of Scripture, has his business on a rock.—Lakeview Examiner.

The Richardson & James saw mill is again turning out lumber of all kinds. The mill is located in good timber with a good road and is ready to fill any size order sent in. They also make the best shingles. Call for prices.

A GRAND BALL
